

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

REGULAR VACATION FOR GOVERNMENT HORSES

Washington, July 18.—Now that the latter day generation has reached the point where it is confident that it would suddenly go up to eternity in fizzle some day were no annual vacations with pay coming to it, the government has inaugurated the policy of giving its horses "annual leave with pay." It is one of the reforms of the Roosevelt administration and is designed to take its place in history alongside with the government employees' liability law, so its backers say.

The father of this horse movement is Charles A. Conrad, chief clerk of the postoffice department, and the immediate field of his labors in that department. It is predicted, however, that the influence of his action will be felt in every department.

The first horse to get his vacation was "Charlie," one of the faithful animals that haul Postmaster-General Meyer about town. He was given 30 days in which to cavort around in a pasture in Montgomery county, Md., about six miles from the city. Next year, he may be sent to the seashore. In addition to the 30 days' allowance, his board bill will be paid by Uncle Sam. While "Charlie" is away Postmaster-General Meyer will use his automobile exclusively.

"Every employe of the government," said Mr. Conrad today, "receives 30 days' annual vacation, and 30 days sick leave, if necessary. I see no reason why the horses we employ to transact the business of the department in the city ought not to receive a rest, or a vacation, as it were, and hereafter I am going to send each and every one of the horses for a 30-day period of rest."

"We can spare a great many of them in the summer time, and this is the time they will appreciate a rest from the hot asphalt and welcome the green grass of the country and the shade of the trees." "Dick," the mate of "Charlie," will be the next one granted a vacation. "Dick" had to remain in the city for emergency work in case the Postmaster-General's automobile broke down. The leave of absence for the horses are being made out in regular form used for employes and was signed on behalf of the horses by the department's stableman.

DEVOTION TO PET SAVES WOMAN'S LIFE

(United Press Local Wire.) San Francisco, July 17.—That his wife's devotion to a pet bull terrier pup was responsible for her escape from death is the belief today of W. A. Hawley, president of the McCaskey Register company of Oakland. Hawley is badly bruised from an automobile accident.

When Hawley started to drive his Reo roadster from Los Angeles to Oakland his wife decided that she would take the train because she was afraid the trip would be too hard on their pet pup.

Hawley got onto the wrong road late Monday night in Niles canyon. He drove down a hill at the bottom of which was a bridge which was little more than a pile of loose boards. His brake refused to work properly and when his automobile struck the planks it turned a somersault into the canyon below. The machine landed between two huge boulders and was wedged upside down in a creek.

By some freak of fortune Hawley, who was tightly pinned under the wrecked machine, was not seriously injured. That Mrs. Hawley would have been killed, had she been in the machine, was shown by the fact that a huge rock was wedged into the seat she would have occupied.

After Hawley lay under his machine for what seemed a very long time, Arthur H. Briggs of San Jose came to the rescue and extricated him from his dangerous prison.

Boy's Life Saved.

My little boy, four years old, had a severe attack of dysentery. We had physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea remedy which cured him and believe that saved his life.—William H. Strolling, Carbon Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain. A Thousand Millions of Debt. The city continues to progress toward a debt of \$1,000,000,000 at a highly gratifying rate. To the Cat-skill water-supply project, the cost of which is estimated at \$160,000,000 is now added the Suffolk county plan, which would impose the expenditure of \$47,000,000 on the town. A trifling sum; it is \$1,000,000 less than the debt of the republic of Mexico and only a little more than twice as much as the debt of Switzerland.

Of course, nobody knows exactly what the debt of the city is now. This mere detail is of no consequence when expenditures for water supply are under consideration. Bonds issued for this purpose are not counted against the debt limit. Still, it might be of interest to the taxpayers to know what the figures on the debt side of the ledger are.

If bigness is what the taxpayers want they should be satisfied with their debt. It is inconceivably the biggest thing of its kind when the return for it is taken into account.—New York Sun.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. Cheney & Co., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

The World's Gold Production.

Correct figures compiled by the Engineering and Mining Journal show that the world's gold production in 1907 amounted to \$412,556,136 while '08 represents an increase of \$7,495,167, or 1.8 per cent of 1906, and of \$34,144,382, or 9 per cent over 1905. "Of the four chief producing countries—which together furnished last year 78 per cent of the world's production—two increased their output, while two experienced a decrease. The Transvaal advanced from \$119,609,373 in 1906 to \$133,352,381 in 1907, and Russia from \$22,469,432 to \$26,518,250 last year, gains of 11.5 and 18 per cent respectively. On the other hand, the output of the United States fell from \$94,373,800 in 1906 to \$89,198,711 in 1907, and that of Australasia from \$82,358,207 in 1906 to \$75,849,348 in 1907, the losses, respectively, being 5.5 and 7.9 per cent. Mexico had a moderate gain and Canada a considerable loss chiefly in the Yukon. British India considerable gain. An unusual large proportion passed into use as money in circulation and in bank reserves. The United States secured its full share, having added to its production of \$89,198,711 net imports amounting to \$88,182,385. The total addition to its gold stocks was therefore \$177,381,896."
