THE OLD WHITE CORNER

The habit of giving big reductions on Summer goods has actually become chronic with us; we can't help it. It is actually true that our \$15 to \$16.50 Suits are still going at—

\$10.00

Our best Worsteds are included; no \$15 or \$16.50 Suits will be held back if you flash a ten-spot.

CRUSADE FOR PROTECTION AGAINST FOREST FIRES

(Coo's Bay Times.)
The crusade to compel owners and operators of engines to equip them with spark-arresters is being pushed and it is believed that forest fires in this section will be practically eliminated this season. So far there have been no serious fires.

Yesterday Emmett Pierce appeared before Justice C. L. Pennock and paid \$50 fine and costs for operating two donkey engines without spark arresters.

Ed. McEwin was also fined \$25 and costs by Justice Pennock for violating the speak-arrestor law.

Fine Coquille Men.
Upon the complaint of J. A. Smith, fire warden, Aasen Bros., the Rinck Creek loggers, were brought before Judge Holden's court and fined \$50 and costs for running logging engines with spark arresters. Dangers from fires are too great to take chances, and the fire wardens of the county claim that the laws in this regard must be obeyed. Hunters and campers must not forget that campfires must be extinguished.—Coquille Herald.

Eastern Hot-Wave Problem.

The hot wave brings up anew the question of midsummer negligee. To what extent may conventionality in clothes be disregarded for comfort? The refusal of the management of a fashionable hotel to serve a guest in his shirt sleeves was an incident of yesterday's news. At the congress of whist players a Southerner of the old school remained true to traditions of respect for the presence of ladies and sweltered in broadcloth while the other players sat coatless.

Where is the deadline of decorum to be drawn? A generation has witnessed extraordinary concessions to comfort in summer clothes. Suits of linen and duck and seersucker date from before the war; but it is only since the eighties that unstarched shirts and low-cut shoes of tan or patent leather have come into general use. It is during that period that outing clothes and the "two-piece" suits of thin fabrics and washable materials have gained their great hold and the belt universally replaced the suspender. "Athletic" underwear, so called, is of very recent adoption.

The inroad of negligee on manners is a serious phase of the question. The shirt-waist man is endurable in his place, but that place is clearly not at a public dinner tables or a formal public gathering, nor yet in automobile. The question of shirt sleeves on the streets is a moot one. But does the slight gain in personal comfort compensate for the necessary loss of self-respect? The line of propriety in summer clothes is now so lax that it should not needlessly be overstepped.—New York World.

The Moral Peril of Silk Petticoats.
It has remained for the president of the St. Louis Women's Trade Union League, Mrs. Daniel Kneller, to reveal the insidious menace to feminine morals which lurks in silk petticoats. According to Mrs. Kneller, the swish of silk petticoats has led more girls to destruction than any other agency she knows of.

Their seductive rustle fosters extravagance and vanity and invites dangerous attentions. Poor girls careful of their good name should not wear them.

Mimi (or was it Musette?) asked her poet-lover to add a verse to his poem so that the gown to be bought from the proceeds should have a frou-frou. But Murger's heroines were not paragons of propriety and are not recommended for emulation. Yet the suggestion of original sin in silk is a rather unsubstantial basis on which to form new moral classifications. The aspiration to "swish" is implanted in feminine hearts without distinction of character or social position.

The evidence increases that the number of subjects not already regulated by clubwomen censors is now so small as to make difficult the choice of a new topic of criticism. The Women's Club Federation at its session in Boston may profitably consider whether a close season of censorship is not advisable to permit the accumulation of material for moral castigation.—New York World.

TELEGRAPH BRIEFS

Trouble is brewing for two fanatic tribes in Canada—the Adamites, who search for Eden, but have been warned by the officials to leave the country or cease arming themselves; and the Doukhobors, who are in fall for running about nude and who even refuse to wear clothes in prison.

English socialists are rejoicing over the assured passage of the old pension bill in parliament.

Melville E. Ingalls, considered one of the shrewdest financiers in the country, said today that whether Bryan was elected or not would make no difference to speak of one month after election.

The army smart set at the Presidio in San Francisco are much excited over Mrs. Lieutenant Beck's dress worn to a recent ball. Other women say it was a dirigible, but she says it was "just a little slit" in a dress and not the much-discussed French gown.

The New Remedy That Does.

"Dr. King's New Discovery is the remedy that does the healing others promise but fail to perform," says Mr. E. R. Pierson, of Auburn Centre, Pa. "It is curing me of throat and lung trouble of long standing, that other treatments relieved only temporarily. New Discovery is doing me so much good that I feel confident its continued use for a reasonable length of time will restore me to perfect health." This renowned cough and cold remedy and throat and lung healer is sold at J. C. Perry's drug store 50c and \$1.00. Trial bottle free.

Chamberlain's Colic, Cholera and Diarrhoea Remedy Would Have Saved Him \$100.00.

"In 1902 I had a very severe attack of diarrhoea," says R. N. Farrar of Cat Island, La. "For several weeks I was unable to do anything. On March 18, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy which gave me prompt relief. I consider it one of the best medicines of its kind in the world, and had I used it in 1902 believe it would have saved me a hundred dollar doctor's bill." Sold by Dr. Stone's drug store.

CORPORATIONS TO BAR OUT FOREIGN LABORERS

Pittsburg, Penn., July 21—Illiterate foreigners are barred from employment at the ovens of the H. C. Frick Coke company, the fuel end of the United States Steel corporation, and English speaking workmen are being hired today to fill vacancies at the Connellsville plant. As the Frick company was one of the first corporations to advocate the employment of cheap foreign labor, the announcement that only Americans, or men who have lived in this country for a certain number of years will be hired, is greeted with joy in labor circles.

Cozy homes are being built for the American workmen by several large corporations, which have decided to abolish foreign labor and

in some instances plans are being drawn for towns to be selected and conducted by the workmen.

So widespread has the movement against foreign labor become that steamship agencies in the Pittsburg district have cabled instructions to Europe that 10,000 laborers who returned home during the financial stringency, are to come back to this country as their former employers will not give them work. The employers have decided that American labor is cheaper in the long run, as the workmen are more intelligent and this fact is in their favor that they keep part of their wages in circulation here while the foreigners ship most of their money out of the country.

MANY MARITAL TROUBLES FOR PORTLAND TEACHER

(United Press Leased Wire.)

Oakland, July 21—Accused of habitual intemperance by his wife, Edgar A. Milner, is today suing for divorce on a cross complaint in which he alleges that he was forced to resign his position in the Portland schools because of the humiliation and disgrace heaped upon him by the waywardness of his spouse. He was formerly principal at the Chatsworth grammar school near Los Angeles and at one-time a resident of Seattle. Milner went to Portland in 1887 and taught school there until 1906, when, he alleges, he was forced to leave because of the conduct of his wife. Going to Chatsworth park, he taught in the grammar schools from July 31, 1906 to June 20, 1907. He then came to Oakland where he remained a short time before moving to Seattle.

While they were living at Woodlawn a Portland suburb, Milner alleges, he discovered that his wife was visiting cafes. Stories about

her got to general circulation, he says and caused him to hand in his resignation to the school board and leave the city.

His health broke down and he was forced to take medical treatment while he was here.

After going to Seattle Milner says his wife sent him frequent appeals for money, representing that her daughter had appendicitis.

Milner is the third husband of the woman he is suing for divorce. He says he but recently heard that under the name of Mrs. Clara Williamson she was married to Charles Bogard, a Southern Pacific conductor.

Mrs. Milner has two children, a daughter, Mrs. Cecile Dumarats, aged 22, and a son Wayland, aged 19, both of whom are by her first husband, Williamson. In connection with these children Milner tells of an exciting experience. He says when he upbraided his wife on one occasion the son hit him with a heavy coffee cup and the daughter attacked him with a knife.

Boy's Life Saved.

My little boy, four years old, had a severe attack of dysentery. We had physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea remedy which cured him and believe that saved his life.—William H. Stirling, Carbon Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain. For sale by Dr. Stone's drug store.
