Evolution of the Roof Garden.

New York is pre-eminently the city of roof gardens. Other cities have attempted to follow suit in presenting the unique out-of-door theatricals, but as a Chinese titbit served in American style in an American eating house loses its flavor, so do roof gardens fail to twinkle without Broadway. In 1889 the first midair show blossomed out on Broadway, and New Yorkers, always keep for something new, hailed the innovation with great delight and bought tickets for themselves and for their friends, until the lucky manager who had hit upon the idea waxed fat and prosperous. A season of prosperity naturally brought many imitators, and soon the amusement seeker had a wide choice of roof gardens to attend on a sultry summer evening. The first sky garden began its career with a little vaudeville offering—a few dancers, a skit, a juggler or two, and possibly a troupe of trained animals. The audiences were permitted to smoke and cooling beverages were dispensed to make the city's heat tolerable. The entertainment was simple, and the lurury and novelty of mounting far above the heated sidewalk and away from the grind of the street made for success mor than any made for success more than any —Ret Quimby in Leslie's Weekly.

ENACTED TWELVE NEW LAWS

PEOPLE OF OREGON ADOPT BILLS AND ACT ON APPROPRIATIONS WITHOUT CONSENT OF THE LEGISLATURE.

Twelve laws and constitutional amendments enacted by the people at the election June 1, have been in effect since Tuesday June 23, when Governor Chamberlain issued a proclamation declaring them to be a part of the law of the state.

Taking them in the order that they were promulgated by the secretary of state, it will be seen that the time for holding the general elections will now be on the first Tuesday after the first Monday in November, instead of the first Monday in June. Consequently the next general election will be held in November of 1910. By reason of this change primary elections for the nomination of state and county officers will in the future be held in September, the primary law fixing the time for holding the primaries at the 45th day before any general election.

By virtue of the same vote of the people the university of Oregon is safe in its appropriation of $125,000 for 1907 and of the same amount for each year thereafter.

It is now possible for all public officials who are not doing their duty under the law and custom to be recalled by the voters who are disgruntled over their failure to fulfill the oaths taken. Public interest is on edge waiting to see which part of the state the recall will strike first.

The statute instructing the members of the legislature to vote for that United States senatorial candidate who receives the highest number of votes at the general election is also a law. It will not be binding upon the members of the legislature elected in June.

The corrupt practice act is now a law and from this time on it is illegal to offer a cigar to prospective voters and political supporters. In fact, it is illegal to do anything except silently cast a ballot in the box or at least nearly as close drawn a condition as that. Hereafter campaigns are to be conducted through the secretary of state and state printer so far as advertising is concerned. The state printer is to make pamphlets putting for the claims of the various candidates as to why they should be elected. The cost of pamphlets is to be borne by candidates who are to pay from $50 to $100 a page for their space. The secretary of state will mail he pamphlets to the registered voters a few days before the primaries and another set shortly before the general election.

Grand juries have come back to the people of the state and the district attorney of any district is not empowered to sit as a grand jury from this time on. All indictments are now to be returned by juries and the filing of information on the complaint of the district attorney is a thing of the past.

Hood River country is in good working order and is running under the administration of a set of officials appointed by the governor not long ago.

The Arabian Railway Line.

The following telegram has been sent by the Ottoman Imperial Chancellery to all the provinces of Turkey:

As already announced in the newspapers of Constantinople, the Hedjaz Railway will reach the town of Medina in the month of June. On September 1st, the anniversary of the accession to the throne of the Sultan, will take place the inauguration of the mosque near the station at Medina, of the water supply from Ain Elzerk and of the railway line. The railway, as far as completed, has a total length of 1500 kilometers (932 miles), including the branch to Haifa; the stations, being all built of stone, and the workshops all constructed in less than six years.

All the work done up to the present time has involved an expenditure of 3,500,000 Turkish lire ($15,400,000). In order to meet the expenses necessary to commence the work between the two cities of Medina and Mecca it is necessary to order a large quantity of maturial in Europe. As far as Medina all the material is paid for, but for the continuation of the work to Mecca only 10 per cent has been paid for.

The Kind You Have Always Bought

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.
