BIG FIRE DID GREAT DAMAGE IN PORTLAND
 (Entered Press Leased Wire.)

Portland, July 23—Property valued at \$334,000 is either in ruins today or entirely wiped out by fire which started early today from crossed wires on the top floor of the five-story building on Third street.

Before that structure had been completely ruined the flames leaped to the Van Schuyler building in the rear, destroying the upper two floors and then attacked the McKay building. The firemen fought the fire more than one hour before they could get it under control. The big crowd that watched the midnight blaze expected to see the whole block go. Several firms and employes are idle today as the result of the fire.

The Western Federation of Miners, in session yesterday at Denver, adopted a resolution denouncing the arrest of four Mexicans in California on the charge of being rebels, when it is claimed they are merely unionists. The Industrial Workers of the World were repudiated by the Federation.

MURDERED BY NEPHEW.
 (Continued From Page 1.)

and got her to change the money into American bills.

Sunday afternoon, Eberhardt suggested a trolley ride to New Jersey, adding that his aunt had better take her money along as robbers frequented the neighborhood of her hotel. The woman and her daughter unsuspectingly accompanied the fiend on their last ride together.

By evening, the trio were at a lonely spot on the New York, Susquehanna railway. Eberhardt said that he had lost his way and suggested that they walk down the railroad tracks.

Then nature came to the aid of the murderer. A thunder storm broke out and when a flash of lightning struck near the party, Eberhardt shot his aunt. She stumbled and screamed that she had been struck by lightning.

Eberhardt fired several shots at the girl, but failed to hit her, he shot himself in the arm. Screaming that the party had been attacked by robbers, he told the girl to run. She followed his directions and kept on through the storm until she broke out and when a flash came to a cottage where she was cared for.

Then Eberhardt returned to the scene of his crime and placed his aunt's body on the railroad track. Monday morning the body was struck by a train and it was at first thought that the woman had been killed accidentally.

Investigation of the body, however, showed the bullet wounds.

Eberhardt dug a hole in a field about a mile and a half away from the scene of the crime and hid the money. Then he fled to the mountains. Loss of blood forced him to come to Paterson this morning to seek assistance and he was immediately arrested.

The fiend displayed no emotion when relating the details of the terrible story. He expressed sorrow that he had not been able to escape.
