### DELAY LUMBER RATING

San Francisco, July 28.—Word has been received by the law department of the Southern Pacific company here that the Interstate Commerce Commission has ordered postponed the new rate on lumber shipments from Willamette River points in Oregon and San Francisco points. The new rate was to become effective on August 1, but the order issued delays its operation until October 1. The new order came from Washington following upon the suit brought against the Interstate Commerce Commission by the railroad to restrain the enforcement of the new rate. The commission in its order to the railroad asks that the rate be heard at the end of September instead of August 3, the date set by the federal court here, because members of the commission wish to take that period of time for deliberations.

**The Best of the Season.**  
Will be the picnic to be given by members of the Unitarian congregation at Bush's pasture on Wednesday afternoon, July 29. A good time is assured to old and young. An abundance of good things are preparing for the occasion. Supper will be served at 6 o'clock, when gentlemen are expected to be on hand with their appetites freshly sharpened. The Unitarian ladies never do things by halves, and will do their utmost to make this time of day a most enjoyable one. Wednesday, July 29, in the afternoon.

### Eye Trials Of Today..

Looking facts IN THE FACE is the way the WISE ones act. Those who look another way at the trials of today but add to the sufferings of tomorrow. If your eyes are weak, if a film comes over them, or they ache, or burn, or bother you in any way, don't delay. We tell what you ought to do—you may do it if you like.

### RAILROADS EMPLOYING MORE MEN

Los Angeles, Cal., July 28.—Following the announcement that there will be no increase in rates or no reduction of salaries on railroads entering Los Angeles, men are being added today to the forces at the Santa Fe shops at San Bernardino and the Southern Pacific shops here. Officials of the Southern Pacific, Santa Fe and Salt Lake roads joined in declaring today that no further reduction in forces would be necessary. The period of retrenchment is passed, they believe, and further increases in the working forces will be made within a short time.

### "SCOTTY" AND ORE RETURN

San Francisco, July 28.—As suddenly as he dropped from sight, "Scotty," the king of Death Valley, dropped into sight again yesterday with a trunk full of rock that he claims is worth \$4500 and a ravenous appetite for frankfurters that is feared by every free lunch counter in the city. For Scotty is nothing if he is not a Democrat. He spent the day today on Third street, defying anyone to beat his record for frankfurters, but no one took him up. Scotty is staying in a private lodging-house with his trunk of ore. It is unlike any other ore ever seen. "That's real Death Valley ore," says Scotty, "none of your free mill in 'stuf. It'll run \$18 to the pound."

Scotty says that he will pay his \$200 bill at the St. Francis Hotel when he has his ore smelted.

### AMERICAN AND JAP ELOPEMENT THWARTED

(United Press Leased Wire.)  
Portland, Or., July 28.—Elsie Preston, daughter of an American farmer, living at Yakima, Wash., and G. Kageyama, a Japanese, who conducts a rooming house in the latter city, are in the custody of the Portland police today, thereby bringing plans for an elopement to an abrupt end.

To overcome parental objections the couple fled to Portland several days ago, after the Japanese had spent \$100 of his small fortune in buying the girl clothes. Upon their arrival here Miss Preston changed her mind about a wedding, whereupon, she tells the police, Kageyama placed her in a rooming house and sent meals to her. The Japanese told the police that the girl changed her mind so often that he wanted her locked up by herself so he could think it over alone and give him a final answer. He says the final answer was about to be made in favor of a marriage when the police arrested them.

### RAILROAD CROWN IS TINSEL

(United Press Leased Wire.)  
New York, July 28.—There are no more diamonds left in any railroad man's crown. The crown is not even gold; it's tinsel. Any one who wants to come in and lift it, has the chance.

This statement was made by Geo. J. Gould, the railway magnate, who returned from Europe today.

The railroad man was surrounded by reporters on his arrival at the dock. Reports that he had capitulated to Harriman and arranged to surrender control of all lines to the railroad king in return for financial aid were spread over Wall street yesterday and every one was anxious for the first word from Gould on the subject.

The reversal of the enormous fine imposed on the Standard Oil by Judge Landis, said Gould, "will go far toward restoring foreign confidence in American securities, and advance American credit abroad."

Gould said he was hopeful of the future, and believed that Taft should be elected.

### Ketchell Is Favorite.

(United Press Leased Wire.)  
San Francisco, July 28.—With Stanley Ketchell a 2 to 1 favorite over Hugo Kelly in the battle for the middle weight championship Friday night there was no Kelly money offered today, and the talent expects to see greater odds offered before the fight.

Ketchell is within two pounds of the required weight of 158 pounds, and will easily make it by 6 o'clock Friday evening. Hugo Kelly, the Chicago fighter, who aspires to take the championship, is in inside the weight already. Kelly will finish his preparatory work with a light boxing bout this afternoon. Ketchell will do his last boxing tomorrow.

The experts here are dubious about forecasting the result on form since the Nelson-Gans fight, when the Dane upset all their calculations. They have lost their faith in the "dope," but the betting public seems satisfied to back the champion.

It is understood that the Ketchell-Thomas fight will be pulled off, no matter whether Ketchell wins or loses Saturday. It will be held on the night of August 18, at Jack Gleason's club, at catch weights. No decision has been made in regard to Ketchell fighting young Peter Jackson at Goldfield on Labor Day. A conference, set for last night, at which a fight between Nelson and Gans was to be proposed, failed to materialize, and the matter is still in the air.

### FIRST CHINESE GIRLS TO ENTER CORNELL

Ithaca, N. Y., July 28.—For the first time in the history of Cornell University two Chinese girls have registered as students, and they are the center of attraction. Miss P. H. Hu and Miss E. L. Soon are the names of the young ladies, and both are called by their last names as American girls. Both of the Chinese girls wear American clothes and speak English very fluently. Miss Hu is specializing in German and Miss Soon in Latin, to go back to China and teach in private schools.

The young ladies are forbidden by the customs of centuries from teaching in the public schools or universities of China, but they will teach in private schools for the girls of Chinese who have adopted the modern idea that women are intelligent enough to be permitted an education.

### DIES FROM BITE NINE MONTHS LATER

New York, July 28.—Doctors are today investigating one of the strangest cases of hydrophobia that has come under the notice of the Pasteur institute for years. Police Sergeant James E. Phillips, who resigned from the force to establish a private detective company a few months ago, died suddenly yesterday, after a few hours' illness, in intense agony from the rabies. He had been inoculated with the disease over nine months ago by a bite on the cheek by a bull pup. The wound healed, and nothing more was thought of it. Sunday he became ill and was taken to the Pasteur institute, where doctors said he was suffering from hydrophobia in the second stages, and had no chance of recovery. His son hurried him to the Presbyterian hospital where he died yesterday in terrible agony.

### TOM LIPTON ENTERTAINS AMERICANS

(United Press Leased Wire.)  
London, July 28.—The American athletes who participated in the Olympic games were the guests of Sir Thomas Lipton today on board his yacht the Erin. The Americans arrived at Southampton at noon.

Lipton presided at a luncheon in their honor and then, following their boarding the yacht, Sir Thomas toasted the prowess of the Americans and decided the Britishers, charging them that they were not game losers.

The Erin took the visitors on a cruise around the Isle of Wight, and back at Southampton, where Lipton was the host at a dinner given in their honor at the Southwestern hotel.

At the conclusion of the dinner the Americans' ads gave "three cheers and a tiger" for the Irish yachtman.

### GUATEMALA REVOLT IS SEETHING

(United Press Leased Wire.)  
San Francisco, July 28.—According to private advices received here today, Guatemala is a seething hell of revolt against the atrocities of President Cabrera, who is planning vengeance on all of his enemies.

The letter containing the information says that since the death of Cabrera's mother, who passed away July 2, the tyrant has become more and more inhuman in his punishment of political prisoners.

The Central American court of justice, which was established by President Roosevelt, is sitting in the case of Minister Bustillo, of Honduras, who was refused permission to leave the country by Cabrera, and had to be taken away by an American warship.

### CHINESE DROWN BY HUNDREDS

Canton, China, July 28.—Three hundred Chinese were drowned yesterday by the sinking of the Chinese steamer Ying King, which foundered in a great typhoon, which swept the Chinese coast yesterday. It is not believed that any European or Americans lost their lives, though the details received today are incomplete.

### Improved Bottle for Aerated Waters.

In furnishing information concerning Calcutta's supply of the various "soft" drinks, Consul-General William H. Michael refers as follows to an improved bottle in use:

This bottle is so blown as to contain in the neck a round glass stopper, which is forced upward by the gas in the bottle and holds gas perfectly. An expert can remove half the contents of one of these bottles and by a shake force the ball up into the neck and thus preserve the remaining half for future use. It is an ingenious device and every way superior to the old style corks. In opening the bottle a wooden cup-shaped device which fits in the hollow of the hand and contains a short nipple, is placed over and against the glass ball and top and pressed downward. This causes the ball to drop downward into the neck of the bottle, prevents too rapid escape of gas and foam, and if only part of the contents is required the ball may be forced back into the position as stopper.

Lane's Family Medicine is a tonic-laxative. It does not depress or weaken, but imparts a feeling of buoyancy and strength that is delightful. At all druggists 25c.

### The Want Advertisements are "Humanizing"

When more people come to use and answer classified advertisements, more people will know each other-- More People with Mutual Interests Will Meet-- more people will find chances and opportunities for reciprocal service. Truly, the want ads. are "humanizing" people -- shaming away the scorn of small things, the scorn of "bargaining," of exchanging useful but not used things for useful and usable ones.
