

BEAVER STATE INSURANCE ASSOCIATION

It is a good thing to keep the money we pay for fire insurance in Oregon. We need the money at home. We have been dependent on the East long enough. The Beaver State Merchants' Mutual Fire Insurance Association, organized by the Retail Grocers and Merchants of Oregon, accomplishes two results for Oregon people—it gives them insurance at actual cost, and keeps their insurance money at home.

Their plan is to charge adequate standard rates, eliminating all assessments, returning to the policyholder what can be saved. The officers and directors are business men. The company is being patronized by the leading business men of the state.

Mr. F. E. Fremont, special agent, is traveling the state in the interest of the company. An old-time insurance man, Mr. H. A. Johnson, is the local agent for Salem, and can give you full information.

Following are a few of the substantial business men over the state who insure in this company:

Boy's Life Saved.
My little boy, four years old, had a severe attack of dysentery. We had physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea remedy which cured him and believe that saved his life.—William H. Stroffing, Carbon Hill, Ala. There is no doubt but that remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain. For sale by Dr. Stone's drug store.

LOCAL BALL

By the very close margin of 10 to 9 the State House Stars were again defeated by the Merchants on Willamette field last evening. Up to the ninth inning the Merchants had everything their own way, the score being 10 to 2, when the Capitols suddenly began scoring, and before the clerks were aware of the fact the employees of the state had bunched seven runs. Wendroth, who was up on third base, was counted upon to tie the score, but failed in the attempt, and his out closed the game. The lineup last evening was as follows:

| Farmer | 2b | Kozer |

Railroad Officials Helped.

The Southern Pacific railroad has of late years taken a deep interest in the industrial development of the country, and all lines of fruit culture receive its hearty and substantial encouragement. The Cherry Fair is widely advertised and given special rates, and on Portland Day the principal officials visited the city and took an active interest in the whole exposition. These officials did not stop at the fair but went out into the fruit districts and saw the cherry crops growing on the trees. They expressed a great deal of surprise at the finely macadamized roads and beautiful residences and fruit farms on all sides. These officials were Wm. McMurray and J. M. Scott of the passenger department and W. E. Coman of the freight department. The local representative, R. B. Houston, was one of the committee on the comic parade, with E. C. Patton and F. A. Kurtz, who worked night and day and got up the finest feature of the whole fair—the parade that was pulled off Saturday evening at the close of the fair.

TEA

Good tea and tea are quite different, both grow on the same bush.

our pocket returns your money if you don't like Schilling's Best; we pay him.

It is a painful disappointment to Bryan that Hearst is unwilling to accept a partnership on the ground floor.

Terribly Scalded.
Is something we hear or read about every day of our lives. Burns and scalds either slight or serious are bound to happen in your family. Prepared by having a bottle of Ballard's Snow Liniment handy. It relieves the pain instantly and quickly heals the burn. Sold by all dealers.

A Woman's Back

Has many aches and pains caused by weakness and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cure. It is the most potent invigorating tonic and strengthening medicine known in medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful or habit-forming drugs. Its ingredients are all printed on the bottle wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsement given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy or know your own position, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is a credit to your intelligence for him to try to point off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take & sandy.

MEDFORD PLANS A GOOD WATER SUPPLY

(Medford Tribune.)

S. M. Hawk, owner of the old Wakefield sawmill on Clark's creek, a tributary of the Big Butte near its mouth, offers to sell the city 800 inches of water in Clark's creek for \$2000. The water fillings were made for mining, irrigation and milling purposes, 30 years or so ago, and the water has been in use continuously since. It is the purest of mountain water and can be taken out at an elevation of 3000 feet.

Mr. Hawk guarantees a minimum flow of 600 inches in the driest of dry years. This amount is used to operate the lumber mill, and in addition irrigate alfalfa fields. The distance from the city by pipeline is not much farther than Wasco canyon, if as far. The intake would be about a mile from the Lower Butte Creek bridge, which would give 500 feet fall to come over the Obenchain pass below Roundtop mill.

No other fillings than those owned by Mr. Hawk have been made upon the water of Clark's creek until the last year or so. The water is free from vegetable or mineral matter. The iron and steel on the water wheel at the mill, in use for ten years past, has no rust or corrode upon it.

"There is three or four times the amount of water in Clark's creek that there is in Wasco canyon today," said Mr. Hawk. "I only ask people to come up and see for themselves. There is many times the drainage area, and practically no one living in the water-shed."

Help for Those Who Have Stomach Trouble.

After doctoring for about 12 years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctor's fees, I purchased my wife one box of Chamberlain's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—Samuel Boyer, Potosi, Iowa. This medicine is for sale by Dr. Stone's drug store. Samples free.
