INSANE CAPITALIST BEHEADS CHILDREN CATHOLIC CHURCHMEN ARE MOBBED IN AN ITALIAN CITY

ACCIDENT TO WRIGHT AEROPLANE

INVENTOR IS HERO OF PARIS

(United Press Leased Wire.)
Lemans, France, Aug. 13.—Wright's great aeroplane met with its first accident in the flight here, when, by a false maneuver, it was brought sharply to the ground early today. The motor was not damaged, but the frame work was considerably shattered. Wright was sailing at a height of 25 feet, when, in attempting to pass over a deep trough he was forced to make quick changes in his course. In the rapid work required in such an emergency he made a mistake that came near

SULTAN MAY BE KILLED

HIS ABDICATION IS DEMANDED

(United Press Leased Wire.)
Constantinople, Aug. 13.—The police today are searching for the headquarters of a group of Young Turks, who are plotting to overthrow the Sultan, alleging that his efforts at reform are insincere. The city was thrown into a state of confusion when the object of the search being made by the police was learned and it is feared that the high tension that has prevailed here since the change in the government was announced may result in bloodshed before long.

TAFT HAD NARROW ESCAPE

WEIGHT TOO MUCH FOR HORSE

(United Press Leased Wire.)
Hot Springs, Va., Aug. 13.—It became known here today that Judge William H. Taft, Republican candidate for the presidency, narrowly escaped serious injury Tuesday afternoon, when the horse he was riding on a mountain road gave way beneath his weight, and Taft was thrown headlong to the ground. The horse's knees collapsed, and the animal went down all in a heap. Judge Taft fell on his hands and knees in front of the horse with great force, but sustained no injuries, other than a few bruises.

General Clarence Edwards was with Taft when the accident happened. The horse had been brought here, from Kentucky by General Edwards, particularly for Taft's use, and it was purchased under the guarantee that it would carry 300 pounds with ease. Edwards is in Washington today endeavoring to get another horse, which will meet the requirements of the candidate.

Taft's remarkable agility prevented his being seriously hurt. He was on his feet a moment after the accident and helped the horse up.

Representative Hepburn, of Iowa, arrived today to consult the candidate.

Taft to Keep Out.
Hot Springs, Va., Aug. 13.—When asked today what disposition had been made of the fight for control of the party in West Virginia, Taft today reiterated his determination not to be dragged into any state contests.

"I shall take no part whatever in such matters," he said, "the national committee will be left with a free hand to make decisions in all cases."

Send for Scherr.
Parkersburg, W. Va., Aug. 13.—Arthur I. Vorys, the original Taft manager, today wired to Arnold C. Scherr, who is running for governor of West Virginia on the Independent Republican ticket, against Charles E. Swisher, the "regular" nominee, to come to Hot Springs at once for a conference with the leaders.

Scherr left here immediately on receipt of the message from Vorys.

ATTORNEY TO FIGHT ELECTION FRAUD CHARGE

(United Press Leased Wire.)
San Jose, Cal., Aug. 13.—A. H. Michener, attorney, notary public and Private secretary to Congressman E. A. Hayes, today declared that the charge of fraud made against him in connection with Tuesday's primary election is preposterous, and that he intends to fight it to the last ditch.

Michener was arrested yesterday on a warrant sworn out by Adolph Greenginger, charging him with attempting to remove ballots from the ballot-boxes in the precinct in which he was an election inspector. He was released on \$2000 bonds, furnished by J. O. Hayes and Attorney Will Biggs, and his preliminary examination was set for next Monday.

The attorney-general at Washington has decided that mixed tickets cannot be voted at primaries.

FRIGHTFUL WORK OF LUNATIC

RUNS AMUCK WITH AN AXE

(United Press Leased Wire.)
Los Angeles, Cal., Aug. 13.—Chopping the heads of his son, Fred, and his daughter, Mrs. Ada Lacombe, cutting his wife's arm with the same axe with which the murders were committed, clashing his own throat with a huge cleaver and fighting a hand-to-hand battle with Policeman Coe, who attempted to arrest him, M. J. Duffy, a retired capitalist, 65 years old, ran amuck here early today during a sudden attack of epileptic insanity. Officer Coe was rescued by Detectives Jones and Boyd who reached Duffy's residence and arrested the insane man just as he was about to plunge a knife into the heart of the policeman with whom he was struggling on the floor.

Kills Son in Bed.
Duffy, who lived with his son murdered the young man while he lay in bed asleep this morning. Seizing the axe he severed the youth's head from his body, and leaving the warm corpse lying in a pool of blood, dashed a block down the street to the residence of his daughter, with whom his wife, from whom he had been separated for some time, made her home.

Beheaded With One Blow.
Entering the Lacombe home quietly he slipped up behind his unsuspecting daughter, who was seated at a sewing machine. Raising the axe he chopped off the young woman's head with one powerful blow. Then in fiendish rage he slashed and cut at the prostrate form of his victim. The daughter was to give birth to a child in a few days.

Attacks Wife.
Mrs. Mary Duffy, wife of the maniac, heard her daughter's body fall from the chair and rushed into the room. Maddened by his lust for blood, Duffy turned upon the helpless woman and struck her upon the arms with the keen blade of his terrible weapon. He was not successful, however, in inflicting a mortal wound, and his wife, screaming with terror, ran out of the house, and sought protection at a neighbor's.

Attempts Suicide.
After hacking his daughter's body in a score of places, the maniac coolly sauntered out of her house and made his way back to his own residence. Remorse, apparently awakened by the sight of his son's mutilated body, overtook the aged man upon his return home, and, lying down upon the bed in a pool of his own child's blood, he tried to commit suicide by hacking his throat with a huge cleaver.

Nearly Knives Officer.
Before Duffy could cut himself fatally Officer Coe arrived, and, upon being refused admittance, broke down the front door. Seizing a sharp knife, Duffy attacked the policeman. They clinched and fell to the floor. With the strength of a maniac, Duffy was rapidly overcoming Coe, and had raised his hand to plunge the knife into the victim's heart, when the detectives arrived.

No Harm for Child.
Remarkable cunning marked the man's wild orgy. After he had slain his son, he carefully wiped the blood

GUARDSMEN USED REAL BULLETS

AT AMERICAN LAKE MANEUVERS

(United Press Leased Wire.)
Portland, Or., Aug. 13.—That the sham battle of the Oregon soldiers, just ended at American Lake, near Tacoma, was not turned into a bloody engagement, with several actually killed, is considered almost a miracle, as the startling discovery has been made that several real bullets were fired during the fight, and a great number of loaded clips have been found in the possession of the members of one company of the Fourth Oregon infantry.

Just how many bullets were fired during the different engagements is not definitely known, but one report has it that one or two soldiers were struck, and that several heard bullets whiz by them. One army lieutenant, while kneeling on the firing line, heard a ball of steel slug over his head, and reported it at the time, saying he wished the men of his company were armed with loaded cartridges.

It is said that nearly any national guardsman will say he knows that bullets were used in the engagements. The first definite information of this was obtained when the bullets were taken away from the Oregon company by the captain. While the officers are investigating the matter, they appear to treat it lightly, evidently hoping to get more information in this way. They say where so many men are handled it is impossible to prevent them from securing shells and using them in sham battles, if they choose to do so. However, extraordinary precautions to prevent this practice was taken this year.

BIG FLEET MEN LOSE RIFLE SHOT

(United Press Leased Wire.)
Auckland, New Zealand, Aug. 13.—The Auckland rifle team today defeated the American marksmen from the Atlantic fleet by a margin of 65 points.

In order that the Americans might compete in the contest, the law against permitting armed bodies of foreigners to land on British soil, on the ground that this constitutes technical invasion, was suspended.

The American team was presented with a handsomely engraved silver cup as a consolation prize.

Today is Jackies' day in Auckland. The officers of the fleet are still at Rotorua, and the city is given over to the enlisted men. They are having the time of their lives. No street car company will accept money from the sailors, and they are admitted free to all theatres, public gardens and places of amusement.

The Methodists are opposing the re-election of Cannon as speaker of the house.

Three threshing machines and 4000 sacks of wheat were burned in smut fires near Colfax, Washington.

MISSILES THROWN AT PRIESTS

AMERICANS WERE IN THE PARTY

(United Press Leased Wire.)
Orvieto, Italy, Aug. 13.—Anti-clericals here this afternoon attempted to mob a party of Catholic dignitaries, including Cardinal Gibbons. The crowd gathered in the streets as the churchmen passed in carriages, and hooted and hissed. As the excitement grew and the mob gathered courage from their increasing numbers, the anti-clericals began throwing missiles at the carriages.

It is believed an attempt to stop the carriages would have been made if a detail of police had not arrived on the scene at the critical moment. The mob was wild by this time, and the police tried to drive them back. They resisted, and order was not restored until several of the rioters had been badly beaten by the officers.

With Cardinal Gibbons were Bishop Foley of Detroit, and Bishop O'Connell, of Washington. They went with the cardinal to visit Bishop Frattogeli. Several other churchmen joined the party, and they were met upon their arrival by a number of dignitaries of the province.

The feeling against the church and priests has been strong in this city for some time, and the police were informed in advance to be prepared for quick action in case of a demonstration.

PA INTERCEDES IN BEHALF OF LOVER

Palo Alto, Cal., Aug. 13.—Dr. Fred F. Fitzgerald, the young San Francisco physician, who journeyed to Morris, Ill., for the purpose of marrying Miss Ethel Ludwig, only to have his intended bride spirited away by her mother, is today under the consoling wing of the young woman's father, Otto Ludwig, at the latter's home in this city. It is said that, through the father, a reconciliation may be effected, and the marriage of the couple celebrated after all.

According to the best information, Miss Ludwig is even now on her way to Palo Alto for that purpose, having defied the maternal authority that has kept her hidden away from her lover for almost a week.

NEWS FROM HERE, THERE AND EVERYWHERE

A physical clash is feared on the Siletz reservation between the home-steeders and those who have squatted on the lands. Both sides claim they will not give in.

Further trouble between Japan and China is threatened, as the result of the Chinese government seizing a cargo on a Japanese steamer consisting of 10,000 guns and ammunition, which is believed was intended for the Chinese rebels.

The first flying machine for pleasure has been ordered at a cost of \$5000.

Harriman to Talk Railroad.
Portland, Or., Aug. 13.—Edward H. Harriman, railroad magnate, wants to talk about the long-delayed extension through Central Oregon, and has invited Governor Chamberlain and a number of other prominent men to Pelican Bay for a talk-
feet.
