Injured in Runaway—
J. Wood, an employe of the Pacific States Telephone company, was thrown out of the company's wagon on Lincoln street in South Salem this morning resulting in injuries which will probably lay him up for several weeks. The cause of the horses taking fright was by a wire under which the rig was standing falling down upon the back of one of the horses which started to run, also frightening its mate and they ran the wagon up onto a curb throwing Wood to the ground. He was at once taken to the Salem hospital where he was revived, and at last report getting along as well as could be expected.

JUDGE BENSON RESIGNS

"I am going to file my resignation as judge of the circuit court for the first district this afternoon," said Judge H. L. Benson, who came to this city today to see the governor. "I am going out of politics for good. I am not going to run for any more offices; I am going to practice law." With these words Judge Benson confirmed the report that has been in circulation for the past few days. George Noland of Klamath Falls appears to have the best chance for appointment to the vacancy. District Attorney W. J. Moores also stands a possibility of appointment.

Enjoins Railroad Commission—
Upon complaint by the Southern Pacific company Judge Wolverton of the United States circuit court has issued an order restraining the railroad commission from enforcing their orders of March 21 and June 2, requiring the Southern Pacific company to connect its tracks with the tracks of the United Railway company of Portland.

Governor Chamberlain at the Coos bay booster meeting last night hinted that if Harriman and other railroads did not do the right thing by the state, the state should by initiative vote, build its own roads.

VIGILANCE COMMITTEE ORGANIZES

(United Press Lensed Wire.)
Marysville, Cal., Aug. 26.—Vigilantes are in charge of the town of Quincy, county seat of Plumas county today and it is feared that serious trouble will result between them and a band of ruffians who have been terrorizing the cities.
Matters came to a climax last night when the fire apparatus was tampered with and the hose cut just before an attempt was made to set fire to a building in the middle of the town.
A number of incendiary attempts have been discovered. Business men have received numerous unsigned letters threatening to destroy the business section of the town.
The vigilantes are well organized and determined to rid the town of the undesirables. They are prepared to use the most drastic measures and a high state of excitement prevails. The ruffians are known and it is believed that they will not submit without a fight.
The vigilance committee was formed at a secret meeting held last night, but the whole town was aware of it early today. The business men believe that the desperadoes planned to put the fire engines out of commission, and then set fire to the town in an effort to destroy the business section and cause excitement that would give them an opportunity for loot.

FLEET SETS SAIL AGAIN TOMORROW

(United Press Lensed Wire.)
Sydney, N. S. W., Aug. 26.—(By H. Lee Clotworthy, United Press correspondent on board the U. S. S. Georgia, with the Atlantic fleet.)—Jackie is cleaning the brass work and scrubbing the deck today, preparatory to the departure of the fleet for Melbourne tomorrow morning and no visitors have been allowed on board the American warships. As liberal an allowance for shore leave as is possible, is made by Admiral Sperry, however, and the streets and places of amusement are crowded with sailors and officers.
The one all-absorbing topic here is the friendship between America and the British colonies that the visit of the fleet has re-discovered for both nations. The joining of interests for the control of the Pacific ocean by the white races is the one issue that has forced itself on everybody's mind by the enthusiasm that has attended the program of the fleet. Officers and civilians are discussing the issue over their last friendly glass today. It is certain that the visit of the fleet has opened the eyes of all Australia to the fact that America is a powerful nation and a tremendous factor in the control of the Pacific ocean.
A demonstration has been prepared for the departure of the fleet tomorrow morning. Cannon will boom out the national salute and it is thought that more people will be here to see the American ships depart than were here to see them arrive, as thousands have come from the interior since the Americans' visit was begun. The officials of the government will deliver addresses of farewell to Admiral Sperry when he is ready to leave tomorrow morning.
The officers of the fleet are glad that the schedule calls for the arrival of the vessels at Melbourne on Sunday. There is to be no formal demonstration until Monday and the officers and men will have had time to rest up a little before their week of celebration.
Admiral Sperry arranged today for the coaling of the fleet at Albany, St. George's bay, West Australia on Sept. 11.
T. Burns, the robber who stole several thousand money orders and has caused the federal authorities considerable trouble in all coast cities, is under arrest in Stockton, Cal.
Aeronauts have been banished, as far as experiments are concerned, from Paris. The authorities say they can risk their own necks but not those of spectators.
The wife of Major General C. E. Luard of England, was found murdered in a lonely spot near London. Her jewels had been stolen and her rings torn from her fingers.

DID GIVE COMMITTEE AUDIENCE

Salem, Or., Aug. 26, 1908
To the Editor:
In your recent issue a communication appeared from Mr. W. E. Smith, stating that he had presented a communication to the executive committee of the Salem Board of Trade last Monday, and that from some unknown cause his communication failed to receive an audience.
As secretary, I wish to state that Mr. Smith and Mr. Lantz were given an audience, that the executive committee adjourned from its regular session to give such audience at 10 o'clock. Furthermore, it was nearly half an hour until Mr. Smith arrived, and also took pains to see for Mr. Page, manager of the electric company, in hopes of bringing the two interests together. After the arrival of Mr. Smith, the committee asked whether he had a communication to present. He said he had none prepared, and made some verbal statements. Mr. Lantz, who accompanied Mr. Smith, presented a map showing the residence of this section. This was carefully examined by the executive committee and the whole matter was referred to the transportation committee of the Board of Trade, with instruction to call upon the electric company upon receipt of Mr. Smith's communication and make an effort to adjust the whole matter. The communication referred to by Mr. Smith, was not at that time, nor has it since been filed with the board or any of its members. The executive committee of the Board of Trade is very active in its efforts to secure improved service on all lines leading to Salem. It holds regular weekly meetings, at which all business is promptly handled in a business-like manner, and it certainly does not deserve a criticism offered in Mr. Smith's communication.
