### CHAMPION "JUNK"

**EXPOSITION BUYER**  
 There is a familiar ring in announcements from London that officials of the Franco-British exposition, which has created quite a European stir, are negotiating to sell the building and equipment when the gates finally close to a Chicago man, Abraham Harris, for he bought the \$30,000,000 World's Fair at Chicago, the \$10,000,000 exposition at Omaha, the \$12,000,000 exposition at Buffalo and the \$50,000,000 World's Fair at St. Louis. While the bands played and the crowds thronged the buildings at Shepherd's Bush, Mr. Harris' keen Yankee eyes have been surveying the buildings and paraphernalia of the show with cold calculation to determine how much they would be worth as "junk." From the St. Louis exposition he shipped 500 carloads of machinery, merchandise, furniture and other material and 65,000,000 feet of lumber to his yards in Chicago, where he has the largest building under one roof in the city. His concern, the Chicago House Wrecking company, has accumulated in deals like this nearly every item of commerce known to man from pins to locomotives and from oriental rugs to dynamos. In recent years Mr. Harris has left to others the onerous detail of disposing again of the things bought and has completed a tour of the world, his specialty being the deals of stupendous size, such as the buying of an exposition entire—a line which few men have attempted to follow. Along toward the close of expositions anywhere on the globe Mr. Harris is sure to turn up and startle the officials by offering to take all that remains of the show for a lump sum.

### A Land Where Everyone Prays.

Prayer pervades the East. Far off across the sands, when one is traveling in the desert, one sees this minarets rising toward the sky. A desert city is there. It signals its presence by this mute appeal to Allah. And where there are no minarets—in the great wastes of the dunes, in the eternal silence, the lifelessness that is not broken even by any lonely, wandering bird—the camels are stopped at the appointed hours the poor and often ragged robes are laid down, the brown pilgrims prostrate themselves in prayer. And the rich man spreads his carpet and prays. And the half-naked nomad spreads nothing and prays also.

## Where One Man Gets Rich

through speculation a hundred get poor. Where one man stays poor through the slower method of systematic saving a HUNDRED GET RICH.

MAKE SURE of a competence for old age—don't gamble on it. Open a savings account with us, and if you do your part, we guarantee the competency.

SAVING DEPARTMENT  
**CAPITAL NATIONAL BANK**

The East is full of lust, and full of money getting, and full of bartering, and full of violence; but it is full of worship—of worship that disdains concealment, that recks not of ridicule or comment, that believes too utterly to care if others disbelieve. There are in the East many men who do not pray. They do not laugh at the man who prays, like the unpraying Christian. There is nothing ludicrous to them in prayer. In Egypt your Nubian sailor prays in the stern of your dahabiyeh; and your Egyptian boatman prays by the rudder of your boat; and your black donkey boy prays behind a red rock in the sand; and your camelman prays when you are resting in the noontide, watching the far-off, quivering mirage, lost in some wayward dream.—Robert Hichens in the September Century.

### COFFEE

**A middling steak and first-rate coffee are better than middling coffee and first-rate steak. Consider the cost.**

Your grocer returns your money if you don't like Schilling's Best; we pay him.

### A Summer Colony Experiment.

It greets the eye, in the first surprise of its red-tiled roof, its marshaled columns, and its fine proportions, like a glimpse of some forgotten Grecian temple. Nobly set into the slope of the hill, with a background of cool groves, and accentuating the dark, bare-topped mountains of the island—the highest on our Atlantic coast—the Building of Arts meets the perplexed visitor with the graceful dignity of a serene age. One listens for the echoes of a shepherd's pipe or seeks among the tree-trunks the fitting passage of a flowing robe.

If it were nothing but a beautiful monument, admirable in mass and in detail, Mr. Lowell's Building of Arts would justify its existence. But more than this, it is the expression of a unique and interesting purpose. Created by a few public-spirited summer residents to supply a focus for the abundant artistic and intellectual life of Bar Harbor, the Building of Arts already, in the first short season of its occupation, has produced a marked impression by the creation of a distinct musical atmosphere.

The Building of Arts, still in its development, is an interesting problem and the impulse of which it is the expression is of deep significance. It is in this country the first conspicuous effort on a large scale to crystallize the diverse elements that form the summer colony into a real society, having as its objective the highest esthetic and intellectual stimulation—not only to encourage liberally the arts of America, but to contribute to self-education and to the helpful mingling of city and village life. The movement is in capable hands, and has every prospect of success.—Owen Johnson in the September Century.

### Excellent Health Advice.

Mrs. M. M. Davidson, of No. 378 Gifford avenue, San Jose, Cal., says: "The worth of Electric Bitters as a general family remedy, for headache, biliousness and torpor of the liver and bowels is so pronounced that I am prompted to say a word in its favor, for the benefit of those seeking relief from such afflictions. There is more health for the digestive organs in a bottle of Electric Bitters than in any other remedy I know of." Sold under guarantee at J. C. Perry's drug store, 50c.

### RAIN KILLS POISONOUS SHEEP WEED

(Pendleton Tribune.)

Unless there is a great deal of rain soon there will be danger to sheep ranging in the mountains this fall, according to Sheep Inspector Lytle yesterday. Dr. Lytle has been studying the question and says the remedy is to be found in antidotes rather than in the method now being employed by the government on the Gunnison national forest in Colorado. There the government is offering a bounty for larkspur and other poisonous plants in the hope of eradicating them altogether.

In the mountains of this state the larkspur is not so serious a problem as is the lupine. In all it has been estimated that there are some five species of poisonous plants found in Oregon which have been known to kill stock. It seems that it does not matter so much as to the presence of the poisonous plants in the vicinity, as it does to the amount of the plants that are found.

The danger to sheep this fall is that there will not be a large variety of vegetation and they will therefore eat everything in the way. Sheep discriminate between poisonous and wholesome plants and grasses as a rule, but where they are hungry they eat everything that comes along. When, therefore, the vegetation is light, as there is danger of its being this fall, the leaders of the flock eat off the good grass and weeds leaving only the poisonous weeds and roots for those that come behind.

Another danger is due to the fact that certain weeds have a worse effect when eaten by the sheep or cattle on empty stomachs. This makes poisoning more probable during a dry fall, on a skimpy range.

As a treatment for animals suffering from plant poisoning Potassium Permanganate in five-grain doses is recommended. This may be had at any drug store, and is seen in a reddish-like crystal, and readily dissolves in water, and may be given by dissolving one teaspoonful in a quart of water, this being sufficient for 12 sheep.

### Baby Morphine Fiends.

are made by all soothing syrups and baby medicines that contain opium and narcotics. McGee's Baby Elixir contains no injurious or narcotic drugs of any kind. A sure and safe cure for disordered stomachs, bowels and fretfulness—splendid for teething infants.

Success is not vain show.

### For Sore Feet.

"I have found Bucklen's Arnica Salve to be the proper thing to use for sore feet, as well as for healing burns, sores, cuts, and all manner of abrasions," writes Mr. W. Stone, of East Poland, Maine. It is the proper thing, too, for piles. Try it! Sold under guarantee at J. C. Perry's drug store, 25c.

These are days of great paper railroads and industries. But some of them may strike.

### The Laziest Man in the World.

would not be contented to be kept in the house and doing nothing by rheumatism. Neither are you, who are always busy and active. Then don't neglect the first twinge of an ache or pain that you might think is just a "crick." Rub well with Ballard's Snow Liniment and no matter what the trouble is, it will disappear at once. Sold by all dealers.

The usual freak bills are reported. In Virginia Representative Glenn has a scathing one directed against sheath gowns and such things. In Louisiana there is one requiring old maid and bachelors either to marry or adopt enough children to direct their attention along useful and proper lines.

### Active at 87.

This would be unusual news if men and women would keep themselves free from rheumatism and all aches and pains as well as keeping their muscles and joints limber with Ballard's Snow Liniment. Sold by all dealers.

### Presidential Votes.

Regarding the pluralities given some of the various United States presidents the following information is valuable: Andrew Jackson had a plurality over Adams of 50,551 votes; Jackson's plurality in 1828 was 138,134, and in 1832 it was 157,313; Martin Van Buren had a plurality of 24,893; W. H. Harrison 146,315; Polk, 38,175; Taylor, 139,587; Pierce, 229,896; Buchanan, 496,905; Lincoln, 591,195 in 1860 and 407,342 in 1864; Grant's plurality was 305,456 in 1868 and 742,910 in 1872. Tilden had a plurality over Hayes in 1876 of 250,935; Garfield's plurality was 7,018; Cleveland's in 1884, 82,683, and in 1892, 330,510. His plurality over Harrison in 1888 was 58,017. McKinley's plurality in 1896 was 601,854, and in 1900, 843,799. Roosevelt's plurality was 2,545, 515.

## CONTROVERSY OVER NEW LINE

Ed. Journal: In your issue of August 26 I find a reply to my communication. Now I am truly sorry this little controversy has taken place but as the whole matter now stands I am almost compelled to right myself in the way of a reply.

In the first place, my esteemed friend, Mr. A. F. Hofer, has purely forgotten that we (Mr. Lantz and myself) did not get an audience with the Board of Trade, but were heartily referred or turned over to the committee on transportation of which but one member we could find.

Secondly, my friend claims the honorable board waited a half hour on me. Now, if this be true, it evidently shows haste and push on the part of the members of said Board of Trade, for I am sure I was within 50 feet of the board of trade rooms when the 1 o'clock whistle blew, the designated time of convening. Also Mr. Hofer surely has forgotten that after the members of the Board of Trade so hastily adjourned I spoke to him about the abruptness (as we looked at it) of our meeting. At that time Mr. Hofer was very free to acknowledge that he was a little surprised at the turn matters had taken, and that time especially requested me to at once write my communication to the Board of Trade and address same to him, saying "whatever you do, don't lay down."

Now, to sum this little matter up, in a nut-shell, we have been practically turned down by every one we approached in this matter of street car extension. I hate to say it, but I fear there is too much personal interest at stake with some of us to give this matter a conscientious consideration. Very respectfully,  
 H. W. SMITH.

## COMPLAINS OF WIFE'S LANGUAGE

S. S. Martin, a well known retired capitalist of this city, has filed a suit for divorce against his wife, Alice Martin, who was formerly Alice Smith of this city. Martin is 67 years of age and his wife is 34. The complaint alleges that Mr. and Mrs. Martin were married on February 22, 1903, and that several times since then the wife has used offensive language to her husband. In May she called him a fool and a liar, in June she assaulted him and attempted to strike him with a stick. In July she struck him with her hands, and in August she called him a d—d liar and a d—d fool, telling him that she married him for his money and that as soon as he died she would marry some other fellow.

This progression of alleged atrocities with its heart-rending climax was too much for the indulgent husband, and he forthwith applied for a decree forever dissolving the bonds of matrimony existing between himself and his wife. L. H. McMahan is the attorney for the plaintiff.

### "ALASKA WHEAT" CROP A FORTUNE

It is said that the crop of "Alaska" wheat raised at . . . Idaho, by Abraham Adams this year will yield him about half a million dollars.

It is generally reported in the Idaho country that the experiments conducted by Mr. Adams have a speculative side from the fact that he has a press agent in the east who is circulating the stories in eastern papers of all classes as to its wonderful productive quality which is said to be from 100 to 100 bushels per acre.

These reports say that the write up in a recent issue of the Saturday Evening Post cost \$1500 and that his plan of only selling one bushel to a patron at the cost of \$20 per bushel means that his clean-up will be close to one-half million dollars.

Figuring on a basis of 35 bushels to the acre for 700 acres means 24,500,000 bushels at \$20 per bushel, or \$490,000.

Those who are inclined to believe that the wheat is all that it is represented to be, claim the fact that he paid \$10 per year rental for the 700 acres besides the cost of plowing, sowing and harvesting shows that Mr. Adams had unlimited confidence in its productive capacity.
