THE CHANGE HAS COME OVER SALEM.

Visitors are remarking a wonderful change that has come over the Capital City of Oregon. Instead of the dead, dull, apathetic atmosphere that used to hover over the place THERE IS LIFE, SNAP, VIGOR AND ENTERPRISE. Hundreds of new houses are going up in all directions, new business blocks are springing up, streets are torn up and paved. Crowds throng the sidewalks at all hours of the day and all days of the week, and THE STREETS ARE FULL OF PEOPLE.

The hotels will not hold the people who want to come to the city, and during the state fair people walk the streets nights. Private houses are ransacked to find lodging and eating houses are crowded with people SCRAMBLING TO GET ANYTHING TO EAT.

There was never a city in the interior of a state that had so fine an opportunity to become a place of importance as Salem.

HERE IS THE MATERIAL RIGHT TO OUR HANDS TO BUILD A BIG CITY—rich country, several railroads, state institutions.

The crops increase each year. The people multiply. The public institutions are growing larger and larger. THE STATE SPENDS MORE AND MORE MONEY.

The county government, the state government, the city government, the public and private schools and colleges are all spending more.

The street railroads, the interurban roads, the Southern Pacific and the public service corporations, ARE ALL COMPELLED TO SPEND MORE MONEY.

Salem has reached an impetus where the city cannot stop growing. It has taken years of hard fighting to put it there. The Capital Journal has always fought for progress. It still demands further progress.

This is the time to strike harder. This is the time for the spirit of boosting to take a new hold and achieve greater results. This is not time to sit down AND SAY WE ARE IT AND ITS TIME TO QUIT.

Look at Salem as it was ten years ago. Look at it today. Men make cities or kill them. The day of the makers is here and they should get busy as never before.

THE JOURNAL FOR PUBLIC OWNERSHIP. The Capital Journal believes in the

doctrine of public ownership of public utilities.

This applies especially to such services AS WATER SUPPLY OF CITIES. We are not prepared to undertake a large variety of publicly-owned public service corporations. Let us make a success of municipal water supply and do a good clean job of that.

Let all small jobberies be cut out and let us GO STRAIGHT FOR A SUPPLY OF MOUNTAIN WATER. For The Capital City of the state the best is none too good as the whole state is interested.

An abundant supply of pure water brought in from an uncontaminated source FOR GREATER SALEM IS WHAT IS WANTED. A measure that is just, and broad, and fair to all the people and to the state is what is needed.

The city of SALEM WOULD BE THE BIGGEST BENEFICIARY by bringing in mountain water. This city would advance rapidly in population, indestructibility as a home city, with mountain water.

The state institutions would be SAFEGUARDED FROM EPIDEMICS, from fire and from drought. The time has come to act in this matter and the best class of citizens should interest themselves.

But primarily and fundamentally the people should not sanction anything short of public ownership and mountain water.

ONE POLITICIAN WHO IS NOT MAD. It is an old saying that whom the gods would destroy they first make mad.

In another sense if you want a man to make a fool of himself JUST GET HIM ANGRY—MAKE HIM MAD.

One politician in Oregon who has not lost his head and is not showing the effects of anger is Senator Bourne.

He comes back to Oregon and says two things that commend him TO PERSONS OF ORDINARY COMMON HORSE SENSE.

He says as a Republican he is willing to pull off his coat and work with anyone to elect Taft President. He says furthermore that the men who signed the statement that they would vote for the people's choice for senator HAVE GOT TO DO IT.

The Portland Journal has repeatedly asked Harvey Scott what he would do if he had signed Statement No. 1 and was a member of the legislature.

HARVEY SCOTT HAS REPEATEDLY REFUSED TO ANSWER. His paper has by inference advised Republican members to resign, to run away from the state or do anything but keep their written and publicly made pledges to the people.

Mr. Bourne is a man of some character, some political sagacity, and some intelligence. HE SAYS, "KEEP YOUR PLEDGES."

Bourne says elect Taft. He says, keep your pledges with the people. He is not mad. He is not sore. He is ready to pull off his coat and go to work for the Republican candidates. HE IS NOT WAITING TO BE PROMISED A PLACE IN THE CABINET.

There is one Oregon politician who is not afraid to let the people nominate and elect candidates to the United States senate. It is refreshing to find one Republican leader who is not afraid to trust the people and let them do their own thinking and voting.

NOTES ON THE FAIR.

Mrs. F. E. Barker shows three ladies tailored suits of her own design—two afternoon or evening gowns and one brown tailor suit. One of the evening suits is lavender and lace, and the other is a lace and net combination. Many young women will want to become mistresses on mere sight of these dainty suits.

In the art gallery there was a rush of exhibitors and some had to be turned away. The whole exhibit is larger than last year, many pictures standing on the floor, and all the departments represented. All the best artists of last year are exhibitors again, except Goodwin of Portland. In his place is Rosenthal, a Chicago painter, and C. F. Berger, of Portland. George L. Schreiber, recently of Chicago, who has been elected teacher of drawing in the Salem public schools, has two large paintings, both night pictures—one a train with headlights coming into a station—the other a moonlight scene—both of the Impressionist school of art.

C. E. S. Wood and M. E. Wood exhibit again, and also Miss Billie G. Dufresne of Portland, is a new exhibitor, who has some photographic work. China painting overflows the allotted space. The Troyer exhibit is a fine. The judges are to be two Portland artists and as a whole the art department is a great success under Mrs. Gatens as superintendent.

The only motorcar people on deck are the four cars by the Vaughan Motor Co. of Portland, who show two Cadillac (25 h. p.) and two Brush Runabout (6 h. p.) one solid tire. The Brush was brought up to Salem by a 12-year-old boy, Howard Purdie.

The Mitchell, Lewis & Staver implement house as usual has an immense exhibit—about as much as all the rest put together in their line. Two carloads came up from Portland for this fair display. F. F. Carey is as busy as the head milliner at a country opening.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

A Traveling Man's Experience. "I must tell you my experience on an east bound O. R. & N. R. R. train from Pendleton to La Grande, Or., writes Sam A. Garber, a well known traveling man. 'I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said, 'There is a woman sick with death in the car. I at once got up and went out, found her very ill with cramp colic; her hands and arms were drawn up so you could not straighten them, and while a deathlike look on her face. Two of three ladies were working with her and giving her whiskey. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it), ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in 20 minutes I gave her another dose. By this time we were almost into La Grande, where I was to leave the train. I gave the bottle to the husband to be used in case another dose should be needed, but by the time the train ran into La Grande she was all right, and I received the thanks of every passenger in the car.' For sale by Dr. Stone's drug store.

We build our characters as we go along. Kodol will, in a very short time, enable the stomach to do the work it should do, and the work it should do is to digest all the food you eat. It makes the stomach sweet and it is pleasant to take. It is sold here by all druggists.

Mr. Worry makes many a wrinkle. Had breath has probably broken off more matches than had temper, and that's a good many. The best cure for bad breath is the tonic-laxative, Lane's Family Medicine.

Never before, perhaps, were all the people more willing to see the prayers for rain answered than now. Farmers are holding off seeding until they have assurance that there is soon to be moisture enough in the soil to sprout the seed. For if they sow when the ground is totally dry the seed will rot in the course of time.

Summer fallow is in excellent condition as far as weeds go, but there should be rain to bring the weeds out so the seeding and harrowing would kill them. As a farmer remarked yesterday, his land was clean but he would rather see a rain which would make it look exceedingly foul for a time so when he worked it he could feel sure that he was killing out the weeds.

Not only are farmers wishing for rain but stock and sheep men are all concerned for the water supply in the mountain streams. In dry falls too, there is more danger of sheep eating poisoned weeds. So all livestock interests are ready for a loosening up of the stocks in store of old Jupiter Pluvius.

Cities are not getting the electric power which they would like on account of the low water which furnishes the power. It is uncertain whether the local fair association can carry out the best methods of street lighting for this very reason. Many flouring mills are waiting the same increase in the streams of water.

And so, let it come! When it starts joy will fill all hearts! While the barometer is away up now the Walla Walla weather bureau promises hope in the following historical retrospect: "After the dry summer in 1893 when the thermometer reached 103 degrees at several times, fall rains commenced in September, when 2.60 inches being recorded for that month. October followed with 4.02 and November with 2.87 inches. Walla Walla is short in rain, to date 3.9 inches and as this will likely be made up before the end of the year it is probable that an early fall will be recorded this season.

The more a man doesn't know the less he doubts. Hopptly Hop. Are you just barely getting around by the aid of crutches or a cane? Unless you have lost a limb or have a deformity—if your trouble is rheumatism, lumbago, sprain, stiff joints, or anything of like nature use Ballard's Snow Liniment and in no time you can throw away your crutches and be as well as anyone. Price 25c, 50c and \$1.00. Sold by all dealers.

"Why shouldn't Prof. Bell succeed in making monkeys talk intelligently?" asks the Atlanta Constitution. Don't know, unless it is because that is more than he or any one else can do with a good many men.

Gambling your life against 25 cents is just exactly what you are doing if you neglect a cough or cold on the chest instead of treating it with Ballard's Horehound Syrup. A 25 cent bottle of this splendid remedy will cure an ordinary cough, heal the lungs and act as a tonic for your entire system. Sold by all dealers.

Rev. Billy Sunday says hell is full of fudge-eating molluscoids. What a sticky place it must be.

Irritation of the throat and hoarseness are relieved immediately by two or three tiny swallows of Kemp's Balsam, the best cough cure. Grip patients should make a note of this.

Many a wise-looking man is unable to deliver the goods. DeWitt's Carbolic Witch Hazel Salve is the best thing to use for piles. Sold by all druggists.

GALLOWAY MISTAKEN FOR MINISTER

(Albany Herald.) For the first time in his life Judge William Galloway was taken for a preacher or a priest this morning. He says he has been charged with being a man of many trades and occupations, but this is the first time anyone ever thought he had the look of a preacher. It all happened when the Judge walked into the dining room of one of the hotels this morning. He was a little late and when the waitress saw him she threw up her hands in mock despair and exclaimed, "Goodness, here comes either a priest or a preacher." Judge Galloway denied the charge, but informed the young lady that he could tie the martial knot just as firm as any of the clergy.
