**MADE LOVE AT YOUNG AGE OF 88 SAYS 25-YEAR-OLD PLAINTIFF**

(United Press Leased Wire.)  
New York, Sept. 15.—Although she is but 25 and he is 88, Miss Nellie B. Licklider has brought suit against John Washington Free, organizer and president of the International Malt Machine Company, which operates a malt machine that he invented. She sues the aged man for \$50,000 damages for breach of promise to marry her.

The suit is accompanied by 200 love letters from the old inventor to his young lady love. All of them are filled with endearing terms and express his desire to marry her and settle down in California. He says in one of them that he expects to live for 200 years.

In one letter he says "We will have a little ranch 15 or 20 miles from Oakland, and drive out there every evening. We will have a nice family on the ranch and have some game, fresh chickens, eggs and other things that are fresh."

**SPECTATORS INTERFERE WITH OCCULT SPIRITS**

(United Press Leased Wire.)  
Chicago, Sept. 15.—The delegates attending the American section of the Theosophical Society are today trying to figure out some means of increasing the interests of the members in mystic phenomena. A letter from "Mother" J. J. Besant, at Point Loma, Cal., urging her followers to "get in and do something" was read at the opening session of the convention in the Northwestern University building yesterday, and held the attention of the 200 delegates for considerable time. Irving S. Cooper, of Berkeley, Cal., has suggested that societies for physical research be formed everywhere. "Only don't in-

clude the public in your societies," warned Cooper, "because if you do you will accomplish nothing in the investigating of the borderland phenomenon. We have a society of over 200 enthusiasts at Berkeley, but we have accomplished nothing. Nothing can be done with a motley mob looking on."

Cooper explained the failure of the Berkeley society to find the "buried city" by the aid of divining rods, by stating that the psychic influences were not working in the presence of unbelievers.

**WEALTHY CANNER ARRESTED**

(United Press Leased Wire.)  
The Dalles, Or., Sept. 15.—Master Fish Warden McAllister has made another big haul in the fight over the new fish laws, taking into custody J. A. Seufert, a wealthy canneryman, who is accused of fishing on both the Washington and Oregon sides of the Columbia river, in violation of the law.

McAllister made a secret trip to Celilo on a special engine of the portage railway to capture his man. Three tons of salmon were confiscated and will be brought to Portland today. Seufert declares he will carry the case to the supreme court of the state to test the law under which he was arrested.

**UNIONS TO HELP OUT RAILROADS**

(United Press Leased Wire.)  
Chicago, Ill., Sept. 15.—Trainmen and railway officials are today outlining a plan whereby they hope to block legislation hostile to the interests of the railroads in every state in the Union. The organization is composed of the officers of all railroad men's organizations whose members are employed on railroads, and of all railway officials, and is to be known as the American Railway

Employees' and Investors' Association. At the meeting yesterday when the association was formed, representatives of nearly every railroad employees' union were present.

A statement given out by P. H. Morrissey, grand master of the Brotherhood of Railroad Trainmen, after the meeting, says that the association is merely to promote good will between the people and the railroads, and will not be used for political purposes.

**"KEY WEST" INJUNCTION**

Philadelphia, Sept. 14.—With the entering of sweeping injunction in the United States Circuit Court, restraining the use of the name "Key West" in connection with cigars not made in that city, has begun a general campaign against the practice of misbranding cigars. The injunction was obtained by the Key West Cigar Manufacturers' Association, which is determined to stop the practice of calling cigars "Key West" unless they are in fact made in Key West, Florida.

The injunction just issued is very Florida, and for Key West cigars "defendant" from in any way, manner or form, directly or indirectly, whether by means of labels, bands, marking on boxes, word of mouth, or otherwise, making use of the words "Key West," and any and all colorable imitations thereof, in connection with the sale or offering for sale of cigars which are not in truth and in fact made in Key West, Florida; and from passing off or attempting to pass off cigars not in truth and in fact made in Key West, Florida, and for Key West cigars."

Mr. R. S. Perry, of the law firm of Stewart and Stewart, 60 Wall street, New York, counsel for the Key West manufacturers in the Philadelphia suit, said today: "The defendants in this case are only one of many manufacturers and dealers who make a practice of misbranding cigars and of substituting weeds of all kinds for the Key West-made product. Owing to climatic, atmospheric and other favoring conditions, Key West, Florida, has exceptional advantages for the manufacture of cigars, and the output of the

genuine Key West product is now about 100,000,000 cigars a year. Many times that number of cigars, are, however, sold as 'Key West,' and it is this fraud that our clients intend to stop. Smokers can partly protect themselves by observing on the bottom of the box the name of the state in which their cigars are made. If not made in a Florida factory a cigar evidently cannot be a 'Key West.'"

**Laborites Endorse Bryan**

San Francisco, Sept. 15.—A resolution endorsing "the course, policy and action of President Samuel Gompers and the executive council of the American Federation of Labor, in pointing out to the wage earners of our country the proper course for them to pursue at the coming general election" was adopted at the state labor party convention last night, as a compromise measure between the resolution endorsing Bryan, and omitting all mention of the Commoner from the platform.

The platform as adopted calls for the initiative and referendum, free text books, stricter banking laws, postal savings banks, a direct primary and equal suffrage.

The convention nominated George A. Tracy, president of the State Federation of Labor, for congress in the fifth district. Tracy has already been nominated by the Independence party and the Democrats.

The convention decided to leave the field in the fourth congressional district open.

**WELL-KNOWN SALEM WOMAN PASSES ON**

The Mason City, Ia., Times-Herald of September 8, has the following account of the death of a woman well-known in Salem:

Last evening, at her home, 108 S. Adams street, Mrs. C. F. Cramer, while preparing for the night, was very suddenly called to her long home. She, with her family, spent Saturday and Sunday at Clear Lake with Mr. Kitchell's people, returning Sunday evening apparently as well as usual. During Monday she was busy about her home duties, happy and feeling in the best of spirits.

Mrs. Cramer is a member of a large family. She has been very active in church work, often assuming the lion's share of the social duties. She was also interested in the work of the Eastern Star, being a member of Chadwick

Chapter, No. 37, O. E. S., Salem, Ore. To mourn her absence she leaves her husband and daughter, with brother and sisters.

Mrs. Alice Fisher-Cramer was born in Cleveland, Ohio, in 1863. Here she grew to womanhood and was married in 1886 to Mr. C. F. Cramer, superintendent of construction, treasury department. To them two children were born, Charlotte and Grace. Little Charlotte at the age of six passed on. Grace is a member of the high school of Mason City.

Definite arrangements for the funeral will be made when Mrs. C. J. Field, of Creston, Iowa, sister of the deceased, comes this evening.

**THE MARKETS**
