SALEM, OREGON, MONDAY, SEPTEMBER 21, 1908.

NO. 232.

CHELSEA, MASSACHUSETTS, AGAIN BURNING Troops Are Called Out To Quell British Unemployed

FRANK TRIED TO DYNAMITE DOCTORS
San Diego, Cal., Sept. 21.—Mystery which has surrounded attempts to dynamite the homes of seven local physicians is believed to be cleared today by the arrest of A. Binns, who is accused of throwing rotten eggs at plate glass windows in jewelry stores. Binns had two sticks of dynamite in his possession at the time of his arrest, and appeared to be irrational upon the subject of malpractice.

But one of the attempts at dynamiting had been made public before the arrest of Binns. It was known that City Health Officer Francis H. Mead recently found a stick of dynamite tied to his front door, and that he received a note threatening him with destruction if he attempted to enforce the vaccination law. When Binns was captured the police stated that six other physicians had received similar warnings.

TOWNS ARE WIPED OUT BY FIRES

THOUSANDS FLEE FROM FLAMES

(United Press Leased Wire.)
Chicago, Ill., Sept. 21.—Dispatches bringing meagre information have just been received here stating that the towns of Daggan and Woodborow, Wis., near Rhinelander, have been wiped out of existence by forest fires.
It is reported that 4000 residents of the two towns are fleeing through the woods in this direction, and that several persons of Woodborow are missing. It is thought, however, that during the excitement they became separated from their friends and relatives.

Milwaukee Aids.
Milwaukee, Wis., Sept. 21.—Two engines, 2000 feet of hose and a company of firemen were sent to Rhinelander today in response to an urgent appeal for help in fighting the forest fire that is menacing the town. The request for help stated that one engine and a company of men had been fighting the fire for hours, and the men were almost exhausted.

Advices later today stated that the wind is favorable to Rhinelander, but that the towns of Curtis, Mosinee and Ladysmith are threatened with destruction.
According to messages received from those places, the people have been fighting fire for hours, and there is little hope of saving the town from total destruction. The women and children have been moved to places of safety.
The fire engines from Malden, Everett and Boston are rushing to help the local department.

Calumet Endangered.
Calumet, Mich., Sept. 21.—Forest fires are today threatening this city, the town of Houghton and several nearby villages. Men are fighting the flames, but they are working against heavy odds.
The recent rains did not check the smoldering flames, as the fire was mostly in the thick underbrush, and protected from the rain.
The Baraga county fires are burning more fiercely than ever, and thousands of feet of lumber have been destroyed.

COURT-MARTIAL FOR NAVY YARD EXPLOSION
Vallejo, Cal., Sept. 21.—It is believed here today that a court-martial will be ordered by the secretary of the navy as the result of the explosion and fire at the Mare Island navy yard, when two lives were lost and four persons injured.
The court is still in session today. It will complete its work this afternoon, but the report will not be made public unless everyone connected with the case is exonerated. In the event that anyone is held responsible, the papers will be forwarded to Washington and a court-martial ordered.

It is said at the navy yard that the investigation has shown that the explosion on the gasoline barge, which led to the disaster, was caused by one of the workmen throwing a lighted cigarette stub on the floor of the barge which was saturated with gasoline. If this is true, and the report incorporates it, there is every prospect of the most rigorous action being taken.

ENGLISH POOR IN BAD MOOD

RIOTS IN ALL PARTS OF KINGDOM

(United Press Leased Wire.)
London, Sept. 21.—Maddened by suffering, over a million and a half of Britain's unemployed have become little better than savages during the past few days, and the authorities of the kingdom are at a loss for means with which to cope with a situation that daily becomes more menacing.
Riots occur daily in all the larger cities. Public buildings have been stormed in several places by crowds of men and women demanding that the authorities furnish them with work or with shelter and food.
Services were broken up yesterday in cyclones of disorder at the cathedrals at Canterbury, Manchester, Norwich and Glasgow by denunciations from the starving workmen of the wealthy congregations' indifference to the destitution about them.

From Manchester, Liverpool, Sunderland, Glasgow, Newcastle, Bradford, Sheffield, Hull and Grimsby, 25,000 "hungry marchers" are on their way now to Northampton, where they expect to unite Friday, and throw themselves upon the authorities' hands and demand relief.
Admitting that they are unable to cope with the situation, the police at dozens of manufacturing centers have called for military assistance to put down the riots which have already occurred, and have given warning that the winter will so aggravate the situation that the presence of troops may be continually needed to prevent general uprisings of the poor.

All over the country bodies of soldiers are being stationed at strategic points to be ready for outbreaks.
President John Burns, of the local government board, will ask for \$1,500,000 and heavy loans for public improvements when parliament assembles later in the autumn to relieve the widespread distress, and provide employment for the idle.

The board of trade today estimated England's pauper class at 925,671. This is one pauper for every 35 of the population of the entire country. The percentage of paupers in London is even larger, being one in 21.3, or more than 3 per cent.

The board of trade's statistics do not include thousands who are really employed, but have had little or no work in the last year, and are now almost on the verge of starvation. These, too, are not considered paupers, as they have not yet appealed for aid.

CANADA MAY HAVE LABOR PARTY CANDIDATES

(United Press Leased Wire.)
Halifax, N. S., Sept. 21.—Whether or not the labor party in Canada shall put candidates for the house of commons into the field at the coming elections is the all-important question before the twenty-fourth annual session of the Trades and Labor Congress of Canada that opened here today. The Socialist wing of the congress is strong this year, and it is expected that radical resolutions will be introduced.

The soundings at the Newport harbor, ordered by the government, show the shallowest part to be 12 feet at low water and 19 feet at high water.

BLAZE IS STARTED BY INGENDIARY

REMAINDER OF CITY IS DOOMED

(United Press Leased Wire.)
Chelsea, Mass., Sept. 21.—The whole section of Chelsea that escaped the conflagration of last winter is burning. Aid has been summoned from Boston, Malden and Everett, and it is feared that the rest of the town will be destroyed before the flames can be checked.

The police believe that the fire was of incendiary origin so quickly did it start. The flames were first noticed in the block bounded by Sixth and Vales streets, Everett avenue and the Boston & Maine railroad's tracks.

The whole block was soon afire, and by 9 o'clock 16 houses and a large box factory and show case works were destroyed.

There was the wildest confusion at the box factory. Over 250 employees, who had just gone to work, were compelled to flee for their lives, and their escape was cut off on all sides but one by a wall of flame.

The factory was built of wood, and was soon a roaring furnace of flame. The women and men employed are all thought to have escaped with their lives, but it is impossible to learn whether any were lost.

There is the greatest confusion in fighting the fire. A fire hose burst early, and two fire engines collided on the curb, disabling both, and seriously handicapping the work of fighting the fire.

HOLD UP SALOON AND GET \$200

(United Press Leased Wire.)
Goldfield, Nev., Sept. 21.—The state police are thought to be closing in today on the two masked robbers who held up a saloon at Columbia and escaped with \$500 Saturday night.

Although the holdup men have a good lead, the police are hot on their trail, as indicated by telephone messages. It is thought the bandits escaped on fast horses.

PUZZLED OVER RIGHTS OF HALF CHINESE CHILD

(United Press Leased Wire.)
New Orleans, La., Sept. 21.—Attorney-General Gulon today faces a difficult problem, in deciding whether or not the child of a Chinese who married a white woman, has the right to attend the public schools of this state. The matter came to the attention of the local school board a few days ago, when the child attempted to enter the public school of St. Landry parish. The matter was turned over to State Superintendent of Education Harris. The latter, in order to determine definitely what is the proper course to pursue, has left the matter to the attorney-general to decide.

STEAL THOUSANDS FROM SMELTER

Sacramento, Cal., Sept. 21.—The county authorities today declare that they have unearthed a plot to systematically rob the dredges of the Folcom Development Company of rich amalgam, and that in the arrest of four men on charges of grand larceny they have the leaders of a gang that has already taken more than \$39,000 from the dredgers. The men in jail are Frank Cole, E. Cordell, W. Wells and Charles Lombardi.

NOMINEE SUSTAINS HITCHCOCK

GENERAL APATHY CONTINUES

(United Press Leased Wire.)
Cincinnati, O., Sept. 21.—Judge Taft today wired Frank H. Hitchcock as follows:

"Don't be determined at the publications with reference to your management of the campaign or statements that it is my intention to supplant you in control.

"The presence of Senator Crane here gave rise to the inferences which I attempted to deprecate. I have every confidence in you and in the success of your management, and I welcome, as you do, the assistance of Senator Crane and of the advisory committee; but you are in supreme control."

Washington, D. C., Sept. 21.—It leaked out today that National Republican Chairman Frank H. Hitchcock last Thursday offered to resign his position as director of the Taft campaign, at a meeting of the advisory committee in New York. Hitchcock's resignation was not accepted, as it was realized that it would be a tactical blunder to change the management of the campaign at this late date.

It is stated here that the members of the advisory committee were tired of the apathy of the public, and called the meeting on their own responsibility to discuss the situation.

Hitchcock explained what had been done in the way of organization, and declared that only \$100,000 had been collected for the campaign fund thus far. Most of this money, he said, had already been expended, while contracts had been let for the expenditure of a great deal more.

Hitchcock's statement brought out the fact that young and inexperienced men had been relied upon to collect money, and stated that no definite assurances had been received that more money would be forthcoming.

The committee, after deciding not to accept Hitchcock's resignation, voted unanimously to start a vigorous campaign for funds.

Chicago, Sept. 21.—Following a brief conference between Frank H. Hitchcock, chairman of the national Republican committee and Senator W. Murray Crane, of Massachusetts today, Senator Crane gave out a statement denying that he had been practically placed in charge of the Taft campaign. He said that he had come to Chicago at the request of Hitchcock to consult with him about important matters.

While he was in Cincinnati, said Senator Crane, Taft had stated that he was perfectly satisfied with the Hitchcock management. Crane declined to discuss the rumor that prominent members of the United States senate were considering taking action against certain senators who have been accused by William H. Hearst during the last few days of having had dealings with the Standard Oil, in connection with the shaping of national legislation. Senator Crane refused absolutely to discuss the Foraker matter.

Chairman Hitchcock then gave out a statement denying that a reorganization of the national committee was contemplated.
