PROBATION BUREAU WOMAN MADE EASY MONEY

(United Press Leased Wire.)
Los Angeles, Cal., Sept. 21.—Mrs. Marjorie Walder, a blonde, aged 26, is here today, facing a charge of making the United States mails as a part of the operations of a litigation bureau she conducted herself. The officers declare she has done a big business for the few years, and she will be asked to explain her bureau.

The arrest of Mrs. Walder came through a deal with S. R. Johnson, of Guthrie, Oklahoma, John-son, who he made an agree-ment to marry the woman and give her \$10,000. He wrote a check for that amount and neglected to cash it after his name.

The check was returned and the bank of the ranch placed the affair in the hands of a local constable who was exonerated and the woman released.

The officers claim that she has been writing to prospective "business" men for car fare and then taking the money.

ALL NIGHT TO BE ADMITTED TO SCHOOL.

(United Press Leased Wire.)
Los Angeles, Cal., Sept. 21.—After midnight students had stood in line all night, more than 600 boys today besieged the Polytechnic high school with applications for admission. But 235 vacancies in the lower classes existed, and more than half of the applicants were turned down.

The school yesterday afternoon began to assemble in front of the high school. Seeing that there was to be a line of applicants all night long, Principal E. F. Francis stretched ropes to keep the crowd as to place, and appointed students acted as patrols.

Johnnie Able, daughter of the late Captain Able, who was killed in the war, was among the applicants who took the test last night.

Successful applicants have

the alternative of waiting until next year to enter the Polytechnic school or entering Los Angeles high school, where they will not have the advantages of the technical course.

JAPS BADLY BEATEN BY WHITES IN SAN JOSE

(United Press Leased Wire.)

San Jose, Cal., Sept. 21.—The police are today investigating the cause of a miniature race riot which occurred here last night, leading to the arrest of three Japanese, K. Nagao, T. Nagao and I. Sato.

The fight occurred when five Japanese, on their way to the First Presbyterian church, became involved in an encounter with four white youths. A mob came to the assistance of the whites, and the Orientals were badly beaten and kicked before they made their escape from the crowd. Two of the Japanese escaped unidentified. Rev. H. H. McQuilken, of the Presbyterian church, furnished bail for the three who were arrested.

CASCARA BARK ADVANCING

Demand from the East Improves Northwest Peel Light.

The days for cheap cascara bark are over. The market which has been gradually increasing in firmness for several months, has now become strong, and with an active buying movement on the part of eastern consumers, there is reason to believe that the upward trend of prices will continue.

The peel in the northwest this year was very light, dealers estimating it at only 15 to 20 per cent of the normal output. Speculators are out securing all the stumpage they can, so that it is not probable that the low prices of the last few years will be seen again. In the local market, sales are being made at 8 cents and upwards to eastern buyers, and as orders are increasing, it is believed that the eastern manufacturers' stocks are small. The supply remaining on the Pacific coast is in strong hands.

DRUNKEN BLACKSMITH KILLS BROTHER!

(United Press Leased Wire.)

Los Angeles, Cal., Sept. 21.—Fred Markham is under arrest today accused of the murder of his brother, Jack, in their blacksmith shop at San Francisco, Saturday night. Markham was drunk at the time of the shooting and declares he does not remember the crime. The brothers were alone in the shop when Jack was killed, and there were no actual witnesses to the deed, and no motive can be assigned.

After seeing his brother dead upon the floor Fred Markham ran into the woods where he was pursued by men with hounds. He eluded his pursuers and returned to a tent, at the rear of his shop, into which he crawled and went to sleep. He was captured early yesterday.

SPANISH ROYALTY WARS OVER ELKINS' DAUGHTER

(United Press Leased Wire.)
Rome, Italy, Sept. 21.—The displeasure of Queen Margherita at the approaching Abruzzi-Elkins marriage, instead of decreasing, is becoming more and more pronounced, until today it actually threatens to disrupt the Italian royal family.

King Victor Emanuel, having realized his inability to change the mind of the duke and induce him to give up his American fiance, is trying to induce the other members of the family to submit. He has succeeded fairly well, except with his mother, the queen, with whom he held a conference yesterday.

It is understood that the queen-mother raged at the prospect of the marriage, and finally, in answer to her son's arguments, served notice upon him that she not only will refuse to attend the wedding ceremony, but she will put every obstacle in the way of it that she possibly can. If she can mar the event, she announced her determination to do so, and there is considerable speculation as to what line her opposition will now take.
