COMMITTEE ON STREETS WILL ACT ON FAIR GROUNDS BOULEVARD

The construction of a fine boulevard from the city to the state fair grounds should engage the early attention of the city council. The street committee, composed of Messrs. Stoliz Elliot and Stockton went over the ground and will probably have a report to make to the city council. The exact route to be followed is not so important, but the building of that boulevard on a modern engineering plan is very important. The city has reached a point where all such public work should be done on a larger and more comprehensive scale. For instance, if Capital street could be put through to the fair grounds, a full 100 feet wide, paved and parked and planted with uniform ornamental trees that would not grow up into a wilderness of forest in a few years, it would add 500 per cent to the value of all the property on that street and be an advertisement of the Capital City for all time to come.

Would Be a Big Thing.

It would be a big thing for all the property owners, as a string of fine, modern residences would go up on that street, and if each residence had shrubbery and roses it would make a model boulevard. That is one thing that property owners must get clearly before them, that a first-class improvement will always pay. One hundred dollars spent in shrubbery and flowers will, in a few years, add \$500 to the value of a place. No cheap and narrow mud street should be tolerated to the fair grounds. The state fair is the biggest event this city has to its credit, and it is going to be bigger. The day will soon come when there will be a Chautauqua assembly held out there during the month of June, and the construction of such a boulevard should be at once put through, and put through right from the standpoint of the needs of this city and the state for the next 20 years.

TAFT MUST BEST BEFORE SPEAKING AGAIN

Clinton, Ia., Sept. 25.—Although Judge Taft has not fully recovered his voice, a marked improvement was noticed today, and his physician, Dr. Richardson, announced that his distinguished patient would be in good condition to resume his speech-making after a brief rest.

The Rev. John Wesley, of New York, and Congressman Boutell, of Illinois, who are in the Taft party, have been delivering the long speeches from the rear platform of the special car.

Acting on the advice of Dr. Richardson, the Republican candidate will do very little talking until he has regained his voice. Governor Cummins this morning introduced Judge Taft to large crowds.

PROMISING PROSPECTS FOR CRATER LAKE ROAD

Medford, Or., Sept. 25.—Medford and Jackson county has gone good roads mad. Two routing sessions of a good roads convention were held in this city yesterday, and before they closed County Judge J. R. Neil pledged \$50,000 on the part of Jackson county towards building the proposed Crater Lake road.

Judge John H. Scott, president of the Oregon Good Roads Association, addressed the meeting, instilling great enthusiasm into the audience.

The Crater Lake Road Commission accomplished their mission in this city. They will next turn their attention to Klamath county.

Omaha, Neb., Sept. 25.—Receipts, hogs, 3500; cattle, 1000; sheep, 9000.

Most of us would undoubtedly be good spenders if the opportunity and the wherewithal came easily.

TAFT GETS OVATION FROM IOWA

(United Press Leased Wire)

Wild and colossal manipulation of railroad stocks is a panic-stricken and therefore when panic comes roads should take their make with the rest of us.

When criticized for mortgaging his home to buy an auto he said that he relieved when young to mortgage a home for anything necessaries of life!

It is reported that it cost \$100 to notify Mr. Taft of his nomination. Why didn't somebody thing to him a postal card telling what happened to him?

Wood Burns Up

At an early hour this morning the fire department was called to a wood pile fire at Oak and Liberty streets, near the Frank Hughes residence, and had they not been prompt in squelching the flames, a barn valued at \$1500 would have been destroyed. The loss of the wood was about \$500.

Lamb Leaves Y. M. C. A.

J. M. Lamb, who for some time has had charge of the athletic department of the Y. M. C. A., has found it necessary, because of the illness of his mother, to resign his position and go to Portland. He has a wide circle of friends among the members of the association, and much regret was heard when it was learned he was to leave. Lamb was expected to shortly take charge of athletics at the Willamette University, where he hoped, at the same time, to study medicine. He hopes to return in time for the second half of the college year.

ROCKEFELLER NARROWLY ESCAPES DEATH IN AUTO

Cleveland, O., Sept. 25.—The fact became known today that John D. Rockefeller had a narrow escape from death or serious injury last night, when his automobile skidded into a telegraph pole, demolishing the top lights and heavily wrecking the machine.

It is said that it was only the slow rate of speed at which the auto was running that saved the old king and two friends who were riding with him. After this fortunate escape the party was held up by a policeman who insisted that he should know why the tail lights were out. After the explanation had been given in a small book carried by the policeman the lightless machine was allowed to proceed.

COWHERD CALLS ROOSEVELT "LIAR"

(United Press Leased Wire.)

St. Louis, Mo., Sept. 25.—"Roosevelt shows himself to be a big liar when he says that the present campaign committee," declared William S. Cowherd, Democratic candidate for governor of Missouri, in an interview given the St. Louis Star and Chronicle today over the long-distance telephone from Richland, Mo. He said:

"Everyone realizes the impossibility of the last campaign committee having had \$200,000 left over. The story is made of whole cloth, and Roosevelt lies—he just plainly lies.

"Realizing that the defeat of Taft is assured, the Republican party is in desperate straits, and Roosevelt is battling hard against the issue. He is trying to make himself an issue by injecting himself into the campaign, and endeavoring to divert attention from the real issue to the mud-slinging contest now under way, to elect his protégé, Taft.

"Roosevelt miserably failed to make good his charges against Governor Haskell, of Oklahoma."

The statement referred to by Cowherd was given out by State Chairman Timothy L. Woodruff, of New York, who, after a conference with President Roosevelt, said that the President had declared it was strange that such a large sum of money should appear in the Democratic treasury immediately after Governor Haskell took charge. Woodruff said that the President referred to the money having been "left over from the last campaign." The Woodruff interview was printed in New York, and National Chairman Mack, of the Democratic committee, wired Roosevelt, asking Roosevelt to explain the statement, but Roosevelt ignored the Mack message.

HASKELL MYSTERIOUSLY SUMMONED BY DEMOCRATS

(United Press Leased Wire.)

Kansas City, Mo., Sept. 25.—Governor Haskell, who passed through here today on his way to Chicago in response to a mysterious telegram sent him by the Democratic leaders in Chicago last night, denied again the persistent rumor that he had resigned as the treasurer of the Democratic national committee. He denied that he even has any intention of resigning.

Governor Haskell refused to discuss the charges made against him by Hearst.

A man was swearing at his horse, and it well, even artistically, and while the horse knew something was the matter with the man he didn't understand a word he said.
