KOLB AND DILL

Music and mirth reigned at the Grand theatre last night, when Kolb and Dill, were the fun producers in their comedy special, "Lonesome town." Pretty girls were in plenty in song and dance, and they enacted many pretty tableaux, the best being that of "The Yankee Soldier Boy," which is the finale of the first act. The chorus girls are attired in short skirts made of American flags, with a rear ground of the Yankee Doodle trio, the fife, drum and fute players, posing as living statues. The catchy airs of the chorus and the "Dutch talk" of Kolb and Dill, and the other comedian won much applause from the large audience.

JEROME SEEKS FORGER OF CLEVELAND LETTER

New York, Sept. 29.—District Attorney Jerome stepped into prominence in the national campaign when he announced today that he will summon everyone connected with the publication in the New York Times of the letter alleged to have been written by the late President Grover Cleveland, endorsing Taft for the presidency.

Jerome says he has decided to take this action in compliance with the appeal of the Times, asking that the matter be given an official airing.

The district attorney says that a full investigation will be made. The letter, which was one of the big sensations of the campaign, coming from the former leader of Democracy and purporting to present a state-

ment by him favoring the Republican candidate.

The executor of the Cleveland estate and friends and relatives of the late president have denied the authenticity. The charge is made that the signature on the letter is a forgery and sensational developments are expected.

EXPECT END OF RAILWAY STRIKE TONIGHT

Winnipeg, Sept. 29.—It is expected here that the Canadian Pacific strike will end before midnight. It is known that delegates left here Sunday night for Montreal to see Thomas Shaughnessy, of the Canadian Pacific, with terms satisfactory both to the western strikers and the western interests of the railroad company.

If the strike is declared off, it will be the result of a compromise leaving the situation the same as when the strike was called.

Political expediency and the crying demand for cars in the west to move fuel, grain and livestock caused the efforts of interested parties to settle the strike.

The Canadian Pacific company claims to be progressing although the officials of the railroad admit that they have been "inconvenienced" in the handling of traffic during the strike.
