SALEM, OREGON, WEDNESDAY, SEPTEMBER 30, 1908.

NO. 240.

LOW RAILROAD LUMBER RATES SUSTAINED

RUMORED PRESIDENT COMING WEST TO AID HIS CANDIDATE

ROOSEVELT MAY STUMP FOR TAFT

FROM ATLANTIC TO PACIFIC

(United Press Leased Wire.)
Washington, D. C., Sept. 30.—The rumor here today that President Roosevelt will visit the Pacific coast in October, accompanied by Judge Taft, has created considerable excitement.
The story circulated here says that the President and Judge Taft will go by a trip to San Francisco and back from the same platform on the coast to the coast and back.
The Republican leaders are not denying their desire for Roosevelt to stump the coast. They say that it would be a fine thing to have him in Oregon as the man he desires to support for the presidency.

COMMERCE COMMISSION IS UPHELD

HAVE RIGHT TO FIX RAILROAD RATES

(United Press Leased Wire.)
San Francisco, Sept. 30.—Judges W. B. Gilbert, W. W. Morrow and Erskine M. Ross, sitting in the United States circuit court of appeals here today, virtually upheld the constitutionality of the federal rate law, which gives the interstate commerce commission the power to fix railroad rates, when they sustained the demurrer of the commission to the injunction suit of the Southern Pacific railroad, and threw the railroad out of court.
The railroad was suing to enjoin the enforcement of lower rates on lumber shipments from the Willam-

INOCULATE CHILDREN WITH GERMS

TO EXPERIMENT ON CONSUMPTION

(United Press Leased Wire.)
Washington, D. C., Sept. 30.—All the delegates to the International Tuberculosis Congress, which is in session here, are watching with the keenest interest the result of an experiment in which ten charity patients in the Children's Hospital here, were inoculated with the germs of both human and bovine tuberculosis. The children range from three and a half to ten years in age, and were already affected with incipient tuberculosis before they were inoculated. The experiment is being conducted by Dr. Laszlo Detre, professor of bacteriology at the University of Budapest, one of

IRRIGATION BEHIND IN THE U. S.

SAYS OREGONIAN AT CONGRESS

(United Press Leased Wire.)
Albuquerque, N. M., Sept. 30.—The first gun in the war against Clifford Pinchot, chief forester of the United States, was fired today by C. W. Beaman, of Denver. Beaman created a sensation at the National Irrigation congress here by violently assailing Pinchot's policy in the administration of affairs of the office. John Barrett, of Portland, Oregon, chief of the bureau of American Republics, in an address before the congress this morning showed that the United States had been very tardy in reclaiming its arid land by irrigation. He said:
"Ten years before the United States appropriated one cent for reclamation work, Argentina had spent more than \$25,000,000 for irrigation. Brazil is also among the foremost countries which recognize the value of irrigation. Millions of acres are being reclaimed, and the government is planning to spend \$1,000,000,000 to carry out reclamation."
"While we have done lots of irrigation work our achievements are small indeed when compared with the work done by the Aztecs 2000 years ago."
"We are doing just what the Aztecs accomplished years ago, and 50 or 100 years from now the reclamation work of the present day will look like a speck."
Barrett offered a resolution proposing an international Pan-American Irrigation congress, to be held at Mexico City, 1910-1911.
The Salt Lake delegation arrived at 2 o'clock this morning, having been delayed by a wreck in Colorado.

MAN AND WOMAN IN TRAGEDY

APPARENTLY HAD SUICIDE PACT

(United Press Leased Wire.)
Seattle, Wash., Sept. 30.—Lying in a pool of blood on the floor, the bodies of a man and woman were this morning found in a room of the "Frisco Hotel, each with a bullet in the brain. The man had evidently placed the muzzle of the revolver in the temple of the woman and sent a bullet crashing through her skull, and then turned the gun on himself.
The victims of this double tragedy are supposed to be Mr. and Mrs. J. Foster, of Ellensburg, Wash. The causes that led up to it are unknown. The man was about 30 years old and the woman 25. The man's clothing bore the name of J. Foster, and letters from Ellensburg spoke of Mrs. Bertha Foster.
The man and woman came to the hotel at 5 o'clock yesterday and engaged a room. They left a call with the proprietor of the hotel for this morning. The clerk rang the bell several times this morning and received no answer. Finally he went to the room.
The nature of the woman's wound would indicate that it was a suicide pact, and that she was killed first. The revolver showed that four attempts had been made to fire it, while but two bullets were discharged.
There was a distinct odor of carbolic acid in the room, and an empty vial on the table which had contained the acid. It is presumed that both took poison before resorting to the revolver.

LAUNCH MAY HAVE BEEN SUNK

UNKNOWN OBJECT HIT BY STEAMER

(United Press Leased Wire.)
Seattle, Wash., Sept. 30.—In the dense fog which enveloped the Sound waters this morning, the big Canadian Pacific steamship Princess Victoria, en route from here to Victoria, about 9:30 o'clock, crashed into a floating object, believed to have been a launch, while off Apple Tree Cove, about 20 miles north. At 10:30 a wireless from the steamer Chippewa stated that the Princess Victoria was still cruising inshore, evidently trying to pick up the launch passengers, if there were any. The Canadian boat signaled that no assistance was wanted.
A wireless from the stranded steamer State of Washington, also near the scene, stated:
"Princess Victoria crashed into some object. Engines were stopped and lifeboat lowered. Lost her location in fog, and we proceeded to Port Ludlow."
The Princess Victoria was due at Victoria at noon, but had not arrived at 1 o'clock.

SLEEPING JAPANESE MURDERED

(United Press Leased Wire.)
Tacoma, Sept. 30.—Shot through the back of the head while dozing before his fire, a Japanese cook named Kimura was murdered in cold blood at an early hour this morning in the kitchen of the Grand restaurant by a burglar, who broke into the place and took \$37 from the cash drawer.
The dead man, who came from Seattle a week ago, and was hired as a night cook by K. Nishi, owner of the restaurant, was slightly known by any of his fellow workers, and they are unable to give his full name.
He arose at 2:30 this morning, and after lighting the fire in the range, leaned back in his chair and fell asleep. The burglar, who had entered by unlocking a rear door, approached from behind, placed the muzzle of a revolver close to the back of his victim's head and fired. The cook evidently died instantly.

SALE OF BIG IRON WORKS IS DENIED
San Francisco, Sept. 30.—Reports to the effect that the Union Iron Works, one of the biggest special building concerns of the coast, had absorbed the Fulton Iron Works, which has closed, and is to go out of business, were flatly denied by both the Union Iron Works and the committee in charge of the Fulton company today.

PORTLAND'S RACE TRACK BAD FOR TRAINING
Horsemen are complaining of the cool winds that circle about Mt. Tabor and blow across the track of the Country Club at Portland, according to a well-known sportsman of this city, who desires his name withheld on account of his holding an official position. It was expected that the closing of the state fair stables meant the shipping of all the horses to the Portland track, as the officials of the club have offered the owners stable room, but it is probable they will be returned to Salem, if the pressure being brought to bear on the fair to keep the track and stables open during the winter is successful.

Chicago Quotations.
Chicago, Sept. 30.—December wheat opened today at 99c; high, 99 1/4; low, 98 3/4; closed 99 1/2.
December corn opened at 75 1/4; high, 75c; low, 74c; closed, 75c.
December oats opened at 49 1/2; high, 50c; low, 49c; closed, 49 1/2c.

FLEET MUST WORK BEFORE BEING ENTERTAINED

(United Press Leased Wire.)
Washington, D. C., Sept. 30.—"The visit of the fleet to Manila is for business, not pleasure. There will be no plans considered for entertainment until the business of the fleet is finished."
In this statement Secretary of the Navy Victor H. Metcalf settles the question. It means that receptions planned on the first and second visits of the American battleships, October 1 and October 31 must be postponed.

The receptions, if any are held, will be after the second arrival of the fleet. On arrival, in two squadrons, the vessels will coal at Cavite, and then proceed to hold target practice, before anything in the way of festivities can be participated in by the officers and men aboard the vessels.
The fleet will start for the Atlantic coast December 7.

BANKERS DISLIKE GUARANTY LAW

(United Press Leased Wire.)
Denver, Colo., Sept. 30.—Opposition to the postal savings bank plan and the proposal for guaranteeing bank deposits was strongly emphasized today at the opening of the regular session of the annual convention of the American Bankers' Association today. President Joshua D. Powers, in his opening address, made an extended argument against the guarantee plan, declaring it to be dangerous.
Governor Henry A. Buchtel and Mayor Speer delivered addresses of welcome to the delegates, after which the regular program was taken up. Dr. Woodrow Wilson, president of Princeton University, spoke to the convention on the subject of the "banker and the nation," and served notice upon the managers of the financial concerns that they must not make the mistake of shutting themselves within the confines of their business, and lose the proper view of the general interests of the great public.
The deepest love is that which lasts through adversity.

CANADIAN STRIKE REPORTED OFF

(United Press Leased Wire.)
Winnipeg, Sept. 30.—Though the sounding of whistles today led many to believe that the Canadian Pacific mechanics' strike had been declared off, and, though the officers of the union are expecting word from Montreal, at noon no official action had been taken.
It is known that a compromise has been reached by the board. Of the five questions pending, two have been accepted by each side, leaving to be accepted by arbitration the question of union labor. The open shop, for the present, is understood to be the basis of the settlement.

BANKER MUST GO TO TRIAL FOR EMBEZZLEMENT
Goldfield, Nev., Sept. 30.—Attorneys for Thomas B. Rickey, former president of the defunct State Bank & Trust Company, which failed recently, are preparing today to go to trial with the case against their client, who is charged with embezzlement.
Judge Langan, of the district court, has brushed aside all the technicalities, and ordered that the case proceed to trial.

FATALITIES IN TEXAS FIRE

Dallas, Tex., Sept. 30.—One fireman was killed and four injured today in a fire that destroyed several business blocks. One of the injured firemen cannot live long, and the two others are thought to be fatally hurt.
The injured men were caught in the collapse of a building into which they had gone to fight the flames.
The damage is estimated at \$100,000.

CHICAGO STORE

PEOPLES BARGAIN HOUSE

WONDERFUL BARGAINS

In Ladies' Coats, Suits, Millinery, Dress Goods and Silks

We sell the goods. It is our low prices that does it.
