NO. 247.

## TURKEY READY TO WAR WITH AUSTRIA

## WINDY CITY WINS BASEBALL PENNANT WITH SCORE OF 4 TO 2

### BRYAN AT WATERWAYS CONVENTION

### WILL SENDS SPEECH TO MEETING

(United Press Leased Wire.)  
Chicago, Oct. 8.—William J. Bryan was the center of interest today at the meeting of the Lakes-to-the-Deep Waterways Convention. He entered with David R. Francis, former governor of Missouri, and was given an ovation by the delegates. James J. Hill, the railroad magnate, who was to speak this morning, did not appear, and his address was read by Congressman Rainey, of Illinois. The speech in part follows: "The assertion that the railroad interests are hostile to the development of waterways is absurd. The lines from Chicago to New York are the most profitable in the world." (Continued on page 5.)

### MOBS IN RIOTS IN SERBIA

### THIRD SECESSION IN TURKEY

(United Press Leased Wire.)  
London, Oct. 8.—A member of the Turkish embassy, whose name is not made public, said today that, unless Austria retreats from its present position, Turkey undoubtedly will declare war, and asserted that the Sultan will not wait long. He intimated that the Turkish government had displayed every desire to bring the difficulties to a peaceful settlement, and had earned the support of the powers. It is said on good authority that Russia will issue a circular note to the powers this evening protesting against the annexation of Bosnia and Herzegovina. (Continued on page five.)

### ANOTHER BLOCK OF PAYING

### LOWER STATE TO BE IMPROVED

The sentiment for paying in Salem is growing every day, and the latest outbreak for improving the streets is on lower State street—the block between Commercial and Front. The petition has gone to the council for the paving of this block, signed by a large majority of the property owners, and work will begin at an early date. This will add one more block to the State street improvement, and make that just so much better, and a still greater credit to the city. The enterprising business people of Salem have reached a point where expense must not stand in the way of improvement, and, in the long run, this will be a paying investment. Just at present this improvement will be severe on the properties which have nothing but old wooden buildings on them and produce small rentals, but this class of property cannot stand in the way of progress, and should willingly bear the burden.

### ROSEBURG STAGE IS HELD UP

### LONE BANDIT MISSES \$15,000 COIN

(United Press Leased Wire.)  
Roseburg, Or., Oct. 8.—"ands up; this is no joke."  
With these words a lone robber, masked by a white handkerchief, stepped out of the brush, half a mile south of this city, about 10:30 o'clock last night, and compelled Superintendent W. C. Benham, of the Myrtle Point-Roseburg stage line; Tom Duncan, driver, and seven passengers to deliver over their valuables. Among the passengers was Mrs. Rooney, of Toledo, Or., and Mrs. Burnett, San Francisco, who were not molested. As a result he failed to secure \$1500 in the possession of Mrs. Rooney, and several thousand dollars worth of diamonds concealed in the stocking of Mrs. Burnett. From five passengers he secured a total of \$43.50, two revolvers, a \$125 gold watch, the latter from Hastings, of Portland. Hastings was fortunate enough to save a purse containing \$60, by dropping it on the floor of the stage.

### BIGGEST GAME OF YEAR PLAYED IN NEW YORK TODAY

### "GIANTS" UNABLE TO GOPE WITH HEAVY HITTING OF "CUBS"

(United Press Leased Wire.)  
New York, Oct. 8.—For the third consecutive time Chicago won the National League pennant by defeating New York today by a 4 to 2 score. The game, which was one of the greatest in baseball history, was witnessed by a crowd of 33,000 within the polo grounds, while thousands more saw the struggle from adjacent places of vantage. The Chicago victory was fairly earned, their heavy hitting in the third inning scoring their runs. After Mordecai Brown had relieved Pfeister, the Giants were dangerous in only one inning—the seventh—when, with the bases filled, and no one out, they could score but one run. Doyle, after a long absence from the game, was sent in to bat for Mathewson, but failed to hit. Witte was then called upon to carry through the rest of the game, and, despite an error, the Cubs were unable to increase their lead. Chicago's fight was an up-hill one. Two weeks ago she was in third position, with the Giants having a comfortable margin of lead. The New Yorks, however, failed to win the necessary number of games from Philadelphia, and Chicago decisively defeated the only other competitor, Pittsburgh. At 1 o'clock 25,000 persons were within the enclosure, and a great mob of howling fans are clamoring at the gates. Thousands are armed with noise contrivances, and the din is terrific. The field gates opened at 1:20 o'clock and 5000 more fans swarmed in to take places in the outfield. The police are clearing the field to permit play. Captain Chance is greeted with hisses by the crowd. ADD BIGGEST

Score By Innings.  
First—Chicago 0, New York 1.  
Second—Chicago 0, New York 0.  
Third—Chicago 4, New York 0.  
Fourth—Chicago 0, New York 0.  
Fifth—Chicago 0, New York 0.  
Sixth—Chicago 0, New York 1.  
Seventh—Chicago 0, New York 1.  
Eighth—Chicago 0, New York 0.  
Ninth—Chicago 0, New York 0.

### HEAVY COPPER STRIKE

Another Rich Strike Has Been Made in the Gold Creek Mining District on the Little North Fork of the Santiam.

H. T. Cummins, president of the Electric Mining and Smelting Company, told us today that he had just received a letter from camp, stating that in running a cross-cut through their 35-foot copper ledge, on the "May Day" claim, they struck another pay streak. "We do not know how wide it is. We are in five feet and not through it yet. It is very rich." If the business men of this city wish to make an investment that will not only bring them in large returns, but will also help to build up an enterprise that will be of untold benefit to this city, as well as to the county, they now have a chance to do so. We still have a small amount of stock that we will close out this week at 15 cents per share. Next Monday we will put another small block of stock on the market at 25 cents per share. We would not care to sell even at this price, except for the reason that we are anxious to complete the wagon road so that the smelter can come in early next spring.

### SHOCKING CONDITIONS IN WASHINGTON ASYLUM

(United Press Leased Wire.)  
Seattle, Wash., Oct. 8.—Conditions that are said by the state insanity commission to be a disgrace to the state of Washington exist in that part of the state penitentiary at Walla Walla where insane criminals are confined. The commission has reported to Governor Mead, who asked for the investigation, that because the dangerous patients are not granted the privileges allowed by the regulations they are confined to their cells 22 hours every day, with but two hours for open air exercise. The commission recommends a separate building for these patients.

### OFFER TO SELL PLANT TO UNIONS

(United Press Leased Wire.)  
London, Oct. 8.—Labor delegates, representing the employes of the great Pittsburg firm of Furness, Withy & Company, today are considering the proposals of the employers to permit the workmen to buy the plant or enter into a profit sharing agreement with the firm, provided friction between the men and the capital is stopped.

The offer was made by Sir Christopher Furness, head of the firm, during a meeting with the labor representatives at West Hartlepool. Furness told the delegates that strikes must stop, or the works would be compelled to shut down. He suggested that if trades unions could carry on the business themselves the firm would sell to them at a price set by impartial appraisers. His proposition was, that if the unions would not buy the plant, the firm would admit them to a profit-sharing basis, providing a council be formed to settle disputes by referring them to accredited arbitrators.

### COMMERCIAL CONGRESS MAKES COMPROMISE

San Francisco, Oct. 8.—The visiting delegates to the Trans-Mississippi Commercial Congress were entertained with a trip around the San Francisco bay this morning, and the session of the organization will not open until this afternoon.

The fight against the Harriman lines for more cars and better service on land for better service on sea to the Pacific islands and the South American coast is crystallizing in the committee on resolutions, and there is every prospect that a hot fight will develop when the committee considers the various resolutions that have been introduced late today.

A ruling calling for the omission of all the "whereas" clauses in all the resolutions was adopted at a meeting of the resolution committee, and this expected to harmonize the defenders of the Harriman policies with the opponents who are fighting all the Harriman interests in the congress.

### THOUSANDS RUSH TO OPENING OF RESERVATION

(United Press Leased Wire.)  
Dallas, S. D., Oct. 8.—Train loads of land seekers have been arriving here all day to be on hand for the rush to the opening of the Rosebud Indian reservation, the last of the rich tracts of farming lands in the United States to be opened by the government.

United States Marshal Bullock arrived today to take charge of the situation. He appointed five deputies, in case of an emergency. So far there has been no lawlessness.

"Doc" Albert Phillips, of Chicago, and Frank Lewis, of Florence, Nebraska, were caught picking pockets in the crowd and fined \$50 each. They were then escorted to the state line by deputy sheriffs, and told not to return. They promised not to come back.

Several thousand homeseekers arrived today from Illinois and Iowa, and it is estimated that by tonight the total registration here will reach 50,000.

There are five other registering places on the border of the reservation, and it is thought that at least 225,000 persons will be on hand when the land lottery is opened.

### ASK REMOVAL OF PROJECT ENGINEER

(United Press Leased Wire.)  
Klamath Falls, Or., Oct. 8.—It became known today that the Klamath Water Users' Association has asked for the removal of Project Engineer H. W. Murphy, in a letter to the department of the interior. The specific charges against the government engineer by the patrons of the irrigation system are not known, but it is alleged that lack of economy in construction and lack of administrative ability are charged. The appointment of Engineer W. H. Sanders or Joseph Jacobs is asked.

There has been considerable trouble between the government representatives and the users of water in the Klamath reservation project, but it was announced some time ago that all difficulties had been forgotten, and that harmony prevailed.

### GRAFT IN BUILDING THE PANAMA CANAL

(United Press Leased Wire.)  
New York, Oct. 8.—William F. Brothers, one of the unsuccessful bidders on Panama canal construction work, declares that he will today present to the board of inquiry, ordered by the secretary of war, evidence of graft in construction on the big ditch. Brothers is president of the Balanced Cable Crane Company, and intimates that, although the lowest bidder, his firm was ignored through the machinations of officials in Panama and Washington.

The evidence that Brothers claims to possess will be laid before the board, of which Major R. E. Addington is president, at its meeting in the Army building today.

### HUNDRED PASSENGERS ARE RESCUED

(United Press Leased Wire.)  
Seattle, Wash., Oct. 8.—The steamer Reliance, bound from Colby, across the Sound to this port, with 100 passengers aboard, ran on the beach at Alki Point at 9 o'clock this morning, in a dense fog. For a time the passengers believed they had run into another steamer, and a panic followed. Boats were lowered and all were safely taken ashore and sent into town on electric cars. One boat became lost in making shore, so dense was the fog, but by calls was finally picked up by a tug. The Reliance will probably float at high tide this afternoon.

### KERMIT ROOSEVELT A PROMISING PLAYER

(United Press Leased Wire.)  
Boston, Mass., Oct. 8.—A promising member this season of the Harvard freshman football team is Kermit Roosevelt, son of the President, who is endeavoring to get on the regular class team. Young Roosevelt, while slightly lacking in weight, plays a snappy game, and the coaches are carefully watching his work. The lad wants to emulate the example of his father, and the showing he has made in practice is said to warrant his hope to make either of the tackle positions on the freshman eleven.
