DEMOCRATIC CONGRESSMAN WILL STUMP FOR WM. TAFT

Representative Leake of New Jersey today to offer his services as stump for William H. Taft.

Leake has been a staunch Democrat in life, he is bitterly opposed to the election of Bryan and believes that the election of Taft to the presidency would mean the end of the party.

Leake is ready to do the utmost to add the name of Judge Taft to the national platform.

Leake is a large majority from a City district, has been a keen student of politics and government.

IRRIGATION MEETING

PROVES A SUCCESS
The irrigation meeting held at Springfield Saturday afternoon under the auspices of the Springfield grange, which has recently inaugurated an active campaign for irrigation, was largely attended and those who were present say that it was the best meeting of its kind ever held in Lane county.

A. P. Stover, at the head of the irrigation bureau of the United States department of agriculture for Oregon, was the principal speaker. His address was instructive and entertaining. He exhibited charts to show the results obtained by irrigation and gave examples of the work done at the experimental tract at Hillsboro, in Washington county. On 7 1/2 acres of land last year with one irrigation 100 tons of green clover, 4 1/2 tons of cured hay, and eight tons of ensilage were obtained. This year with three irrigations 200 tons of green clover, 7 1/2 tons of cured hay and pasturage from six to 10 inches were obtained. Since May 1 this tract has fed 20 milk cows and 60 hogs exclusively. On the potato patch from an unirrigated portion 2600 pounds per acre were obtained. From the portion that was irrigated once, 6700 pounds were dug and on that portion that was irrigated twice 7500 pounds per acre. Besides that the percentage of merchantable tubers on the land that was irrigated twice was 93 per cent as against 89 per cent on the unirrigated land.

In speaking of alfalfa, Mr. Stover stated that the variety best adapted to this part of the coast is the Arabian alfalfa. On the patch raised at the experimental station there were four cuttings this year.

Prof. E. H. McAllister, of the University of Oregon, was the next speaker. From an engineering point, he said, irrigation, it might arise and which might seem to stand in the way of the success of the project recently inaugurated for this portion of the valley, is a legal one, in case objections are made to water being diverted from the river and not turned back again.

W. W. Calkins, A. R. Black, John H. Hartog, Geo. A. Dorris and President P. L. Campbell also spoke at the meeting.

A resolution was passed by the meeting pledging support of the work started by the Springfield grange.

A Los Angeles advertisement in Everybody's gives the population of the city in 1907 as 260,000, in 1908 as 305,000 and in 1913 as 750,000 people. There's optimism for you.

There is nothing else "just as good" as Kemp's Balsam, the best cough cure, and the other kinds cost just as much as this famous remedy.

HARVESTING MACHINES IN THE NORTHWEST

Twenty-two hundred and fifty combined harvesting machines, operated by steam, gasoline, horses and mules, and 60,000 men were required to garner the wheat crop, estimated at 60,000,000 bushels, in Washington, Oregon and Idaho. The value of the crop is placed at from \$45,000,000 to \$50,000,000.

The machines cut about 50 per cent of the total yield, and on this it is estimated there was a saving of 5 cents a bushel and two bushels of waste grain to the acre, adding nearly \$2,000,000 to the revenue of the producers. The men were paid \$6,000,000 in wages, the average cost of saving the crop being 10 cents a bushel, exclusive of bags and hauling to warehouses.

The harvester established a new record this year in saving the crop in three states, as never before were the wheat belts stripped of their stands of grain in such time. The farmers had the most efficient help in years and at no time were they obliged to suspend or even curtail operation because of shortage.

The average earning of each man was \$100 for the season. The average threshing crew of four men, headed, stacked and threshed 2000 bushels a day. The average yield was a little more than 20 bushels to the acre, while individual fields reported as high as 42 bushels.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine causes out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

This time the rain has set in for the winter, and old Pluvius is himself.

Why Colds Are Dangerous. Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold, but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale at Dr. Stone's drug store.

Will your last winter's overcoat do another season. Try a new one.
