

# Most Comfortable

We have brought out this season a number of new and exclusive patterns of reed arm chairs and rockers in the weathered oak finish that are both comfortable and inexpensive. These pieces are especially designed to go with other furniture in rooms already furnished where an additional chair or rocker is needed. They can also be used with all the prevailing styles of new furniture. These chairs and rockers are most luxurious and in size and shape admirably adapted to their purpose. See samples in east window.

## THE MALLEABLE RANGE

MADE IN SOUTH BEND

**The Range Indestructible**  
We are now showing a full line of these exceptionally fine steel ranges so constructed that they will last forever. It's the three-ply construction. This one feature is found only in the Malleable Range and has saved thousands of dollars to range users. See window display.

**RUGS**  
Vast new rug stock shown in the convenient way. Few people realize, we think, how vast is the scope of the stock of American-made rugs to be found here. It is a new stock, too, for we probably take more pains to keep the stock fresh than any other store anywhere. Just to walk down the line of swinging rug racks is an inspiration, and must make anybody proud of the work that American mills are doing. For these rugs are magnificent in color and design, and where they reproduce Oriental patterns their fidelity is marvelous. Rugs to fit any room in the house. Come and inspect our stock.

### CITIES

(Continued from page 1)

ports from five Wisconsin towns at noon today say that forest fires are raging in many sections of this state. The town of Pound reports that a lumber and three stores were burned today with a loss of \$40,000. Dispatches from Wagner say the fires are approaching the town and that the citizens are badly frightened.

The fires are closing in about Ringle also and there is much consternation there.

The Milwaukee fire department this afternoon sent a fire engine to Foster City which had appealed for aid. Messages from that place said the town was in great danger of being wiped out.

"Jersey Cream" is the name given to a brand of whiskey; for rank inappropriateness this is the grand-champion prize winner.

### COURT HOUSE NEWS

The heavy registration for the past few days has necessitated another clerk in the county clerk's office. The books close Tuesday.

The county Treasurer expects to have his report ready by the end of next week.

The case of McClench vs. Watson, in regard to the payment of a certain note resulted in a verdict for the defendant in the circuit court yesterday. Bayne and McNary plead for the defense and Ellis and Pogue appeared for the plaintiff.

Seven cases are still to be heard in the circuit court before the October calendar is clear.

An old man appeared at the court house last night and asked Night-watchman King to direct him to Judge Bushyff that he was insane and wished to be committed to the asylum. Judge Bushyff was not in but may receive a visit from the candidate for the asylum some time soon.
