JURY SECURED TO TRY LATHROP CASE
After sitting the jury panel over for three hours, a jury of 12 men were found competent to the attorneys, Jeffries and Lennon for P. N. Lathrop, and C. L. McNary for the state. Owing to the fact that Lathrop was so well known through this vicinity, a suitable jury for the perjury charge against him by indictment was difficult to select, as most of the jurors examined by the counsel were too formally acquainted with the case to satisfy the district attorney. However, after 22 of the 23 men consisting of the present panel had been questioned, a satisfactory jury was drawn, and the court adjourned with the proper instructions from Judge Burnett regarding the jurymen's conduct while dismissed. The jury which will decide Lathrop's case is as follows: H. S. Kell, Isaac Conkitt, C. W. Stege, C. L. Lange, Knute Gregerson, J. F. Jones, J. B. Ashby, George Van Hatten, W. L. Cummins, Chauncey Bishop, A. W. Mize and John Marthaler.

THAW IS GIVEN ANOTHER JOLT

(United Press Leased Wire.)
Pittsburg, Pa., Oct. 20.—Another blow was dealt Harry K. Thaw in his fight for liberty today when Judge Young, in the United States circuit court, quashed the writ of habeas corpus against Superintendent Robert B. Lamb, of the asylum of the criminal insane at Matteawan, N. Y., and dismissed the petition to bring Thaw here to testify in his bankruptcy case. The court holds that Thaw's testimony can be taken by deposition, without his removal from confinement.

NEW IDEAS FOR THE FARMERS

LECTURE TRAIN TO VALLEY

What is said to be the most pretentious train of its kind ever operated over any railroad in the United States will be run by the Southern Pacific company through the Willamette valley, starting the first week in November. It will be a demonstration train that will show the latest methods in dairying, agriculture, horticulture and stock-raising. The train will consist of seven or eight cars and will be accompanied by officials of the railroad company. Professor Witherby, director of the Oregon Experiment Station at Corvallis, will deliver lectures at the various towns visited, and other professors from the Oregon Agriculture college will also accompany the train and give practical instruction to the farmers, dairymen and fruit growers.

New Work in Oregon.

Although the Harriman lines in this state have only recently taken up the work of educating the people of the rural districts to improve their products and increase their output, the railroads have gone into it extensively. The train to be run next month promises to be the very latest development of this idea.

One car in the train will be devoted to agricultural exhibits and demonstrations, another to horticulture, a third to dairying and livestock. One car will have a number of model dairy cows for exhibition and practical demonstrations with milking machines, cream separators and other appliances of modern dairy methods will be given. A model stall will be shown for the benefit of dairymen and owners of livestock. In another car, practical demonstrations will be given in packing fruit.

Coches will be attached to the train, in which lectures will be held in the event the weather will not permit outdoor meetings at the various stops, and there will be special cars for the accommodation of the party of railroad officials and Oregon Agricultural college professors who will accompany the train throughout its tour.

Cities to Be Visited.

The train will be out eight days and during that time, the following cities will be visited, a stop of about two hours being made at each place: Willamette, Forest Grove, North Yamhill, Carlton, Newberg, McMinnville, Amity, Sheridan, Dallas, Independence, Wellsdale, Albany, Sheff, Junction City, Eugene, Cottage Grove, Springfield, Brownsville, Jefferson, Salem, Corvallis, Woodburn, West Stayton, Silverton, Hubbard and Aurora.

R. B. Miller, head of the traffic department of the Harriman lines in this territory, is arranging the itinerary of the train and the dates of visiting each place on the schedule will be announced within a few days.

Mr. Miller, the originator of the demonstration train idea on the Oregon lines, in speaking of the interest the railroad takes in the development of the territory served by its lines, he said:

"Our object is to promote the agricultural, horticultural and dairying interests of the Willamette valley to the fullest extent. We expect that great interest will be manifested in the section to be visited. The movement has for its purpose the betterment of existing conditions and to acquaint the farmers with such facts respecting modern and scientific methods as will be to their material advantage. The work is undertaken solely with the view to aiding the development of the territory served by the Southern Pacific company."

TELLS HOW THIS HOME MIXTURE IS PREPARED

The following prescription for the cure of rheumatism and kidney and bladder troubles has no doubt been filled millions of times, viz.: Fluid Extract Dandelion, one-half ounce; Compound Sarsaparilla, three ounces. These simple, harmless ingredients can be obtained at any good prescription pharmacy at little cost and are mixed by shaking well in a bottle.

The dose for adults is a teaspoonful after each meal and at bedtime, drinking a full tumblerful of water after each dose. It is stated that this prescription is a positive remedy for kidney trouble and lame back, weak bladder and urinary difficulties, especially of the elderly people, and one of the best things to be used in rheumatic afflictions, relieving the aches and pains and reducing swellings.

A well-known authority states that this mixture acts directly upon the eliminative tissues of the kidneys; cleanses these spongy organs and gives them power to sift and strain the poisonous waste matter and uric acid from the blood which is the cause of rheumatism.

If your back or sides ache and you suspect kidney trouble it would be wise to try this for a few days.

BOLD BANK BURGLARY IN ILLINOIS

ENTIRE TOWN HELD AT BAY

Herrin, Ill., Oct. 20.—After capturing practically the whole male population in an open street fight, a band of desperate yegmen blew and looted the safe in the bank at Herrin, escaping with \$1500. A posse is in pursuit.

While there was much shooting so far as known no one was injured. The robbers entered the bank building and took possession. They once upon became known throughout the town. A crowd gathered, but the yegmen stood at the corner and held the townspeople at bay with a revolver, while his companions within worked at the safe. The explosion caused much excitement, and the thieves boldly gathered up the money and then boldly dashed for the country. In the meantime many armed men had come into the street and there was a thrilling fight. The posse was organized, and it was behind the men, who mounted horses which they had tied near at hand.
