

Sick Headache

You probably think it's caused by something you've eaten. Of course it is—but if your stomach, liver and bowels are O. K. you could eat anything that others could never have an uncomfortable moment.

You can cure the headache and the indigestion that caused it by putting your liver in shape. A healthy liver is at the bottom of nine-tenths of human ills. Put the liver right and constipation, biliousness, dyspepsia, skin troubles—all ailments of the stomach, bowels and kidneys are bound to be cured.

Prove it—take an **Nature's Remedy** tablet tonight and you'll feel better in the morning. Better than pills for liver ills—never gripe nor sicken, always and absolutely effective.

Bringing the Matter Home.

It is to be feared that the California doctor who so gravely warns the world states of the danger of the plague is something of an alarmist. He sees in the gulf and Atlantic coast cities of the United States a dire menace in the presence of the wharves, said rats, in his opinion, being most probably brought from ships that have touched at Asiatic ports and having contact about their persons the dread plague germ. Thus the danger of the plague does not come across the ocean and the plans from California where Dr. Blue and his corps assistants have chased the lean and hungry rat from Baker's beach in the forest fastness behind Bennington. But it is a menace sure to come in bags of rice from Canton, bundles of silk from Kato-Chan, bales and boxes from Bombay consigned to New Orleans, Baltimore or even.

This is most lamentable, if true, for it is but one consolation vouchsafed the doomed nation. Says the alarmist doctor:

"We have the satisfaction of believing that it can never attain such severity in this country as in India, where 4,000,000 persons have died of it; not that there is anything in our climate that precludes it, or that Americans are immune, but our modes of life, more sanitary houses and a greater freedom from vermin will halt its progress."

And there's the rub. Better modes of life, clean houses and clean clothes are the arch enemies of bubonic plague. It rages only in those districts of China and India which are thickly populated with people and thinly proportioned with bath tubs and sanitary commissions. Here the rodents and the little germs of the plague dwell together in undisputed harmony, like the owl, the rattlesnake and the prairie dog on our own western plains. But does any one see signs of this happy family existing in clean America? Like the Dutch, we have a reputation for the use of soap and water, not only in our kitchens, but in our manners and morals also. Does any one behold a rat scurrying through his closet in these days and not run for the bootjack,

sworn to have its life? Can a single mouse nest in the pantry but that the housewife screams forthwith for the master with his shotgun? Is there a sailor 'long our shores so stupefied with sailor's rum that he will not heave a chuck of coal at the wharf rats gnawing at his shoes?

Such is not the case in far Macao, nor where Calcutta sits in her queenly pride above the ebbing tide. There the rat, like the scorpion and the lotus flower, is taken as an affliction of the gods, and woe to him so impious as to raise his hand against the anointed of the deities.

Conditions in America differ from those in the Orient. There is no need to listen to scare tales based on their similarities. Young America and his terrier will scotch the noxious rat. He is grandmother and her mop will keep the eaves and cellars clean. There is no danger of the nation facing the plague of Asia except at a sympathetic distance. —Washington Post.

Why Colds Are Dangerous.

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold, but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with influenza, measles and whooping cough that are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale at Dr. Stone's drug store.

The Public Endorsement of Our Mining Properties If You Have Not Read It Then Do So

The report of the committee appointed by the Salem Board of Trade is printed in your daily papers. It will post you on what the committee found at the mines. Now we have their endorsement we are in position to urge you to SIGN UP AT ONCE FOR ALL THE STOCK YOU CAN HANDLE. DO IT NOW. DON'T WAIT. We will try and call on you, but don't wait; come to our office and we will put you in a position to make some money. By this time with all the proofs we have furnished no one can question our mines being all we have claimed for them. Now, remember we are talking for the Gold Creek Mining & Milling Company's property. Our stock is selling at 10 cents. We have 17 claims in our group. We have a saw-mill, electric light plant, electric drill in our equipment and we have A MINING ENGINEER WITH US WITH A REPUTATION OF DOING THINGS IN CHARGE. We have spent \$20,000 more on our property than all the other mines on the creek combined. We have the ore opened up to show for it. There are five great ledges across our properties. We have 1300 feet of work done showing the ore. The smelter people ask us to supply ONE-HALF THE ORE REQUIRED FOR THEIR SMELTER. As much as all the others are required to furnish. Why? Because it was there. Our engineer told the smelter people that within 90 days from the time the road was completed he would furnish the full 100 tons per day they required, and he knew he could do it. Now don't it look as though our mines were the ones to invest in—we are boasting Marion county's resources, and want you to help us succeed.
