

HONEYMOONERS SAID TO HAVE PRETTIEST OF CHORUS GIRLS

Geo. H. Cohan, the youngest and most popular of American dramatists and composers, was invited by Klaw & Elinger that he should play all last summer at the Amsterdam theater in New York and himself to work to produce a new vehicle, which would be the best hit of his career. He wrote and composed "The Honey Mooners," made the greatest triumph of crowded life playing throughout the season on Broadway to sell at \$2 prices. "The Honey Mooners" came to the Grand opera house tonight with the original production. It will be produced by a powerful cast of metropolitan favorites assisted by forty of the cleverest and prettiest chorus girls who ever left New York. This and greatest Cohan song show a typical Cohan piece effervescent action and bubbling over with wit and laughter and instinct with joy of life. It combines melody and music there being a strong and no less than twenty little vocal numbers. It is said by critics that "The Honey Mooners" is the greatest musical production on the

Fortunes of the World Are Founded on Oil

Joe Chanslor, now several times a millionaire, was not so long ago, a clerk in Los Angeles. He borrowed some money for the purpose of operating in California oil; the result was that it made him one of the richest men in the state. John A. Bunting, formerly a brakeman on the Southern Pacific, through the investment of \$170,000 in California oil land became a millionaire.

We could tell you of innumerable others. Why were Bunting, Chanslor, and the many others, who made their money through investments in oil, successful? Because they were shrewd, level-headed, observing men possessing unbounded confidence in the great future of the California oil fields and the oil industry. The demand for oil is increasing daily. The consumption far exceeds the output. Several oil companies paid substantial dividends when oil was selling at 15 cents per barrel. Oil is now selling at SIXTY CENTS PER BARREL at the well. The total dividends for the year 1905, from all the oil companies now doing business in California, not including the Standard, will probably reach the \$6,000,000 mark and the \$10,000,000 mark for the year 1906. Therefore the natural conclusion to arrive at, is, INVEST IN OIL SECURITIES, INVEST AT ONCE. We are offering for sale a limited number of shares on what we consider to be one of the best companies operating in Kern Co., in fact, in California. We refer to the stock of the KERN ASSOCIATED OIL CO. The stock of the KERN ASSOCIATED OIL COMPANY is the best of proposition ever offered the investment public. This company owns free of incumbrance FORTY ACRES IN THE VERY HEART OF THE KERN RIVER OIL DISTRICT, and situated on the Southern Pacific Railroad. It adjoins the San Jacinto Oil & Development Company's property which was recently merged with the Associated Oil Co. WHOSE STOCK IS NOW SELLING AT \$1.00 PER SHARE. It also adjoins the justly famous discovery well where oil was first discovered in the Kern River oil fields. THE KERN ASSOCIATED OIL CO. has two wells on its property. Well No. 1 IS IN OIL and gives about sixty-five barrels of oil per day. With a greater depth and a more powerful pump, the production will be largely increased. The Company desires to sink four more wells and to install modern compressed-air pumps. We believe that well No. 2 will, with greater depth, produce a large and inexhaustible oil supply as are the other wells on adjoining properties. We are offering a limited number of shares of this company at 20 cents per share. Do you realize what that means? It means that is purchasing this stock you become interested in a company that can produce the oil. It is not a case of "They may," "They should," but "THEY ARE."

Let us again impress upon you these highly important facts. The property is produced, is entirely surrounded by reliable producing properties, that there is sufficient acreage (forty acres) to justify the drilling of forty more wells all of which would be the very core of one of the richest oil producing districts in the world. Remember that Kern Co. produces as much oil as any other three oil producing counties in California. Shipping facilities could not be better, for the property adjoins the Southern Pacific tracks. The Company has valuable assets in improvements: Two wells, derrick, tanks, tool and bank houses, etc.

Before accepting the fiscal agency of the Kern Associated Oil Co. we thoroughly investigated every detail pertaining to the Company and its property. We did not take snap judgment, we never do, consequently want to assure you that the stock of this Company at twenty cents per share is the most unparalleled opportunity for the investor that ever came before our observation.

We sincerely believe that the Kern Associated Oil Co. is destined to pay pay dividends as surely and as regularly as is the Associated Oil and other companies operating on adjoining properties, and we see no reason why within twelve months the stock should not be quoted at many times its present selling price.

We unhesitatingly advise you to buy every share you can possibly afford. Watch the stock advance from twenty cents to two dollars. Do not delay. Get your order in to us quickly.

The Public Endorsement of Our Mining Properties If You Have Not Read It Then Do So

The report of the committee appointed by the Salem Board of Trade is printed in your daily papers. It will post you on what the committee found at the mines. Now we have their endorsement we are in position to urge you to SIGN UP AT ONCE FOR ALL THE STOCK YOU CAN HANDLE. DO IT NOW. DON'T WAIT. We will try and call on you, but don't wait, come to our office and we will put you in a position to make some money. By this time with all the proofs we have furnished no one can question our mines being all we have claimed for them. Now, remember we are talking for the Gold Creek Mining & Milling Company's property. Our stock is selling at 10 cents. We have 17 claims in our group. We have a saw-mill, electric light plant, electric drift in our equipment and we have A MINING ENGINEER WITH US WITH A REPUTATION OF DOING THINGS IN CHARGE. We have spent \$20,000 more on our property than all the other mines on the creek combined. We have the ore opened up to show for it. There are five great ledges across our properties. We have 1300 feet of work done showing the ore. The smaller people ask us to supply ONE-HALF THE ORE REQUIRED FOR THEIR SMELTER. As much as all the others are required to furnish. Why? Because it was there. Our engineer told the smaller people that within 90 days from the time the road was completed he would furnish the full 100 tons per day they required, and he knew he could do it. Now don't it look as though our mines were the ones to invest in—we are boosting Marion county's resources, and want you to help us succeed.
