pecially Congressman Humphreys who had not visited this city for any length of time before.

At 8 o'clock the parade started from the hotel Willamette and proceeded down Commercial on their way to the opera house where the speaking was to be held. Nearly every boy in the city was on hand to do his share in helping Hal Patton along with the fire works, and by the time the procession had been fairly started, the Roman candles, red fire, and cannon crackers were popping and fizzing on all sides. Johnnie Holman was the flag carrier, and Col. L. K. Page marshalled the proceedings. Congressman Humphreys and President C. L. McNary of the local Taft-Sherman club, followed by the rest of the speakers and paraders, marched to the Grand opera house where the addresses were delivered.

Over 500 people were in attendance to hear the Congressman from Washington talk upon the most vital and interesting subject of the day, the presidential election. C. L. McNary opened the meeting with a few well chosen remarks, and C. N. McArthur followed in turn and introduced Congressman Humphreys who was heartily received by the audience. Congressman Humphreys dealt briefly upon several of the most interesting topics concerning the government and the present presidential campaign.

Humphreys Will Help.

Among the important matters discussed by the Congressman, was the Oregon City free locks question. Mr. Humphreys stated that he would be glad to do anything he could to assist the Oregon delegation toward this end, and that he thought a free locks would not only be of great benefit to the Oregon people, but Washington would derive benefit from the movement.

When asked as to what he thought of the outcome of the Taft-Bryan fight in Oregon, C. N. McArthur, state secretary of the Republican central committee, predicts 22,000 will be Taft's majority. Mr. McArthur has carefully weighed both Bryan's and Taft's possibilities here in Oregon, and he is positive that his estimate of 22,000 will not vary from the actual count over 1000 votes.

Mr. McArthur will undoubtedly be a candidate for speaker of the house in the next session of the legislature. McArthur is a representative from Multnomah county.

ture improvement and any suggestion of future conditions. Everybody answered by suggesting that Taft be elected.

A few of the suggestions for the future, with the firms suggesting them, are as follows:
The Woodward Iron Company, Woodward, Ala.—"Elect Taft."
Alabama Consolidated Coal & Iron company, Birmingham, Ala.—"The possibilities for the iron trade in 1909 hinge on the election of Taft as President and the ability of the railroads to finance their needs."
Hardie-Tynes Manufacturing company, Birmingham, Ala.—"If the Republican ticket is elected we believe the outlook is bright for a good business."
The Baltimore Bridge company, Baltimore, Md.—"Elect Taft. The Democrats had the opportunity of a lifetime and sold their birthright for a mess of verbiage."
Lowell & Engel, lumber, Bangor, Me.—"The only suggestion we can make in regard to increasing the general prosperity of the country is that we must all do our utmost to elect Mr. Taft. We believe that the election of Bryan would be a national calamity from a business point of view."
Marshall Electric company, Boston.—"If Bryan is elected we shall probably have a setback for a year or more, as our business depends largely upon new building undertakings, which are supersensitive to confidence."
Lowrey Chocolate company, Boston.—"I think the outlook for the year fairly good. If we elect Taft we may be a year from now be enjoying the good business."
The Atlantic Works, East Boston.—"Elect William H. Taft President. The election of Bryan will, in our opinion, prolong business conditions indefinitely."
Portland Iron & Steel company, Boston.—"We believe that the manufacturers and merchants are now only awaiting the final outcome of the election, and if a Republican administration is continued on a sane and conservative basis, prosperity for everybody is assured."
Interlochen Mills, Providence, R. I.—"We consider the trade possibilities for the year are favorable. The election of Mr. Bryan would be a serious blow to all kinds of business and very nearly criminal when the character and fitness of Mr. Taft are taken into consideration."
The Diamond Mills Paper company, New York.—"The business outlook is rather encouraging and from present indications we think that if the Republican party is successful in the coming election there is no doubt there will be a considerable increase and a good and stable business."
J. & C. Fischer, piano manufacturers, New York.—"With the election of Mr. Taft we think trade possibilities for the coming year will really get back to normal conditions, and that the best industrial years this country has ever seen are before us."
Walchbach company, Philadelphia.—"General prosperity will be promoted by the election of the Republican candidates and the administration by business men of all branches of industry on the square deal basis."
The Allene Brass Foundry com-

with friends and relatives here for a short time. They will leave soon for Portland where they will make their future home with their brother, Geo. Heuber.

Congressman Humphreys had a pleasant chat last night with F. G. Deckebach, who has known the popular speaker of last night for a good many years. At the time Mr. Deckebach resided in Olympia, Wash., Congressman Humphreys was in the law business.

HOBSON HARPS ON WAR WITH JAPAN

(United Press Leased Wire.)
San Francisco, Oct. 28.—A few thousand Democrats in San Francisco today are firmly convinced that Japan is eagerly seeking war with the United States at an early date and that only the presence of a big fleet in the Pacific will prevent conflict, after having listened last night to Congressman Richmond P. Hobson of Alabama.

Hobson was sailing along smoothly discussing the campaign issues with fervid speech when a voice in the audience asked him to enlighten his hearers on naval affairs.

The congressman, who is a member of the house committee on naval affairs, readily complied. He asserted that Japan had borrowed more than a billion dollars to be used in a war with the United States. The overtures of peace on the part of Japan, said the speaker, were to induce this nation into returning the battleship fleet to the Atlantic so Japan could seize strategic points in the Pacific and on the western coast of America.

TO STOP WORK ON RAILWAY PROJECT

(United Press Leased Wire.)
Seattle, Oct. 28.—A special dispatch from Cordova says that the work of construction on the Copper river and Northwestern railroad is to be stopped for the winter. Over 60 miles of steel rails will have been laid by that time and 1000 workmen will return to Cordova for the winter's lay-off. About a hundred workmen will be retained to do winter work in the Abercrombie canyon where it is necessary to work in the winter because of the swiftness of the streams after the spring thaws.

It is estimated that it will take two years to finish the cantilever bridge across Copper river. Over 8,000,000 pounds of steel are to be used in the immense bridge.

THINKS OHIO MAY GO FOR BRYAN

(United Press Leased Wire.)
Chicago, Oct. 28.—In his review of the political situation in Ohio in the Record-Herald today, Walter Wellman says in part:
"Ohio is close with a chance for Taft or Bryan to get the verdict by a small plurality or it is for Bryan by a landslide plurality. If the vote had been taken three weeks ago the state would have gone to Bryan. During the last fortnight the Republicans have gained and now feel hopeful."
"The Democrats feel that they will win the state for the national ticket. There are many uncertain elements."

C. Y. Timmons, who slew his wife some time ago, is very discreet in his speech and action of late and shows no inclination to discuss any part of the deed he committed. The only complaints he has made lately was that the shackles on his legs felt very disagreeable. The wound in his throat is healing nicely, and his strength is returning rapidly.
