OUR NATIONAL TICKET

For President WILLIAM H. TAFT, of Ohio
For Vice President JAMES S. SHERMAN, of New York.

THE NATIONAL ELECTION TUESDAY

The Capital Journal as an Independent Republican paper has nothing to add to the campaign just closed.

It has tried to be fair to both sides and yet has taken a firm stand for the national republican ticket.

It believes the best interests of the country will be promoted by the election of Taft to the presidency.

The people's policies which Roosevelt has sought to carry into effect will not be discredited by Taft.

Not so swift to make up his mind, and probably not so quick to strike, he will be free to enforce those policies.

Not so radical as Roosevelt, of a more judicial temperament, he will if elected give the country a safe and stable administration.

We look for fair business conditions in Oregon, but the nation over commercial and industrial conditions will be unsettled.

The tariff will have to be revised if Taft goes in and that will leave large manufacturing plants in an unsettled condition.

If Bryan goes in there will be a greater disturbance because it will mean an entire change of policies from what we have had for the past ten years.

The coming year cannot promise much for the laboring man except that possibly along with lower wages he will buy cheaper necessities.

But that our government will be safe and firm and weather the strain put upon it by the great political upheaval no one can doubt.

Our section of the country will not feel the effects of the business disturbance so much as some others.

DEMOCRATIC BROTHER TELLS HOW TO VOTE

It is said that the business captains of our industrial structure have hold of the pillars of the temple, and Samson-like, are ready to lift, in case of the people fail to vote for the man of their (the captains') choice at the coming election.

As the homeless tollers are the only ones that will receive any real injury by the crash, it occurs to me that the time is ripe for the "brothers to the ox" to vote for the man that will clip the captains' hair a little.

A Peculiar Wrench of the foot or ankle may produce a very serious sprain. A sprain is more painful than a break. In all sprains, cuts, burns and scalds Ballard's Snow Liniment is the best thing to use. Relieves the pain instantly, reduces swelling, is a perfect antiseptic and heals rapidly.

Price 25c, 50c and \$1.00. For sale by all dealers.

The Fun Spirit was Abroad with Halloween. A very orderly Halloween passed Saturday night notwithstanding the peculiar locations of several wagons and buggies around the suburbs, and a few gates dangling from tree tops and resting on front verandas.

The spooky pumpkin could be observed most anywhere, and of every style and cut. A bunch of ten or twelve young ladies and men caused the spectators in the moving picture shows to shy somewhat suspiciously by stalking in with a very perfect make-up representing the immortal spirit. The ghostly costumes were composed of a snow white sheet completely concealing the wearer, and two holes cut in the peaked hood.

The spectres were very quiet and orderly, however, and went and come from the places of amusement causing no commotion outside of a few wondering remarks.

The stretched wire was the only rough joke perpetrated by the "cut-up" night celebrators, and no one occasion a night pedestrian homeward bound, had a close call from serious injury by unsuspectingly walking over the wire across the walk, one end fastened to a telegraph pole and the other to a fence post. Several instances of the stretched thread were also met up with some of the forgetful ones.

This Halloween trick is to tie a strong thread over a sidewalk within the height of an ordinary person who, when passing along that particular place, will be pulled up short with the thread cutting across the nose.

DERANGE DBOY LIVES LIKE A WILD BEAST

Los Angeles, Nov. 2.—The juvenile court is considering today the strangest case that has come to its notice, that of Larry Watson, aged 18 years, who has lived in the bushes like a hunted animal for weeks, stealing forth at night to plunder houses and stores. Watson today made a full confession of his crimes, stating that viewing moving picture shows had made him a criminal. Until a few weeks ago he was a student at the Polytechnic high school, and appears to be afflicted with some sort of mental disease.

The youth was found in a hovel near Colegrove, and when taken to the prison broke down and made a full confession. He said that his father deserted his family when he was 13 years old, and that his mother had married again, and did not care for him.

The boy confessed to having committed a series of crimes, from robbing his parents and relatives, many stores and houses, to issuing worthless checks. He will probably be sent to a reform school.

PROGRESS OF CALIFORNIA

Careful estimates made by the California Promotion committee show conclusively that San Francisco has passed the mark set in population early in 1906, which up to that time was the highest point reached, and now contains upward of 507,000 inhabitants. That this increase is synchronous with a similar increase all over the state is shown by reports received from the bay cities and from Los Angeles and all interior points, where the increase in population has been a steady and healthy growth during the past two and a half years.

While reports of the state bank commission show a decrease in savings bank deposits, reports from all cities where such decrease is noted show a heavy increase in home building, the bank decrease going into permanent improvement. In addition to this home building in cities and towns there's noted a quickening demand for small farms in all parts of the state, and much of the money that formerly went into savings banks is now invested in agricultural property.

Financial conditions throughout California are good, and considerable outside money is reported as coming in for investment in various industries.

First shipments of oranges are reported from the Sacramento valley and indications are that the coming season will be noted for a heavy crop in all parts of California, the fruit having an especially fine appearance.

Crop harvest in all deciduous fruits is completed, practically, and was up to expectations as reported in previous bulletins.

THE SLEEPING SICKNESS WHICH MEANS DEATH

How many readers have heard of this terrible disease? It prevails in that far-away country—Africa—especially the Congo district. It is caused by the bite of the tsetse fly. When it bites a person, the sleeping symptoms begin and finally the sufferer sleeps until death occurs.

Contrast this with the peaceful, balmy sleep of health. Is there anything more wearing than to lie awake at night, tossing about, nervous, with cold feet, hot head and merry knows what else? Short of letting the tsetse fly bite us we would do almost anything for relief. How can we prevent it? Mr. George Hayes, of Union City, Pa., writes: "I had lost my appetite, was all run-down, could not sleep nights. I had tried everything without relief. Vinol was recommended, and to my surprise, it helped me at once; gave me a splendid appetite, and now I sleep soundly."

What Vinol did for Mr. Hayes, it will do for every run-down, nervous and overworked person who cannot sleep. G. W. PUTNAM CO.

STATE LIBRARY COMMISSION IS DOING GOOD WORK

While in southern Oregon the writer had occasion to learn something of the practical workings of the Oregon state library commission. In one little neighborhood of Jackson county where the first travelling library was introduced by Mr. Von der Hellen of Weilen postoffice, there has been a wonderful transformation of public sentiment and the people are wide awake on nearly all public matters, have debating societies and reading circles. Miss Cornelia Marvin, the secretary, has also developed into a splendid county institute worker, where she carries forward the general work of utilizing books for the best advantage. While at Ashland she secured the opening to the public of a large dormant library, that was established by a library association but the books, some two thousand, have not been much used of late.
