EMBEZZLER ARRESTED AT WOODBURN

City Marshal E. Moshburger of Woodburn, brought one E. C. Hains to this city this morning who is wanted in Humboldt county, Iowa, on the charge of embezzlement.

Marshal Moshburger detected Hains through some slight description given him by the Humboldt authorities and by keeping a close observation on the mail received by him at Woodburn. Hains had been working at the carpenter trade in Woodburn for the past three weeks, and staying at one of the Woodburn hotels under the name of E. C. Thompson, but through some information received by Moshburger from the San Francisco authorities that Hains was receiving his mail from a certain young lady in 'Prisco under an assumed address, the Woodburn official began examining his correspondence virtually resulting in Hains' arrest.

The Humboldt Creamery Co., in Iowa, charged Hains with embezzling \$250 intrusted him for the purpose of managing one of their purchasing stations.

Hains is a married man, having a small family in Harin, Iowa.

CREDITORS TO SUE BANK EXAMINERS

(United Press Leased Wire.)

Carson City, Nev., Nov. 17.—The affairs of the defunct State Bank and Trust company are further complicated today by the filing of charges against the directors of the bank by Receiver Frank Willdes for securities he alleged were allowed to pass out of the hands of the bank after it had failed. Each director is held individually for the money alleged to be due the bank. It is stated that the bank commissioners will be sued if the report that they sanctioned the transaction is true.

Donald Mackenzie, who has offered to take the bank over, is here taking a hand in the affairs and declares that new suits will greatly complicate his work.

The complaints declare that by reason of this transfer of gilded securities the depositors of the bank were deprived of assets they might have had and were entitled to. It is alleged that the transfers were made after it was known that the bank was insolvent.

It is stated here today that suits will be brought to recover the last dividend of the bank, which it is alleged, was declared after the bank was insolvent. All the directors are under indictment for the failure of the bank.

PAID \$50,000 TO STOP KAISER STORY

(United Press Leased Wire.)

Berlin, Nov. 17.—Die Welt Am, one of the leading papers of the German capital has created a sensation the effect that the German government paid \$50,000 to the Century Magazine for the suppression of the interview with Kaiser Wilhelm that the American magazine held out of this month's issue.

It is stated that William Bayard Hale, the writer who secured the interview, was a party to the transaction whereby it was held out. It is said that the ministry of foreign affairs and Hale arranged the bargain whereby the German government paid over \$50,000 to the Century Magazine and the article was suppressed.

The paper demands to know if any of this money came from the taxpayers of the empire and is very bitter against the emperor.

RAILROAD STOCKS REACH TOP PRICE

New York, Nov. 17.—The railroad leaders of the stock market who have repeatedly done duty of late, were again put through their paces early in the day. Although it not a "runaway" market, the bears in their efforts to cover their short commitments, rapidly passed from a trot into a gallop. Union Pacific, St. Paul, Reading and Northern Pacific each rose a new high price for 1908. Profit taking stopped the rise for a time, but during the late session, stocks again headed upward, closing near the top. Union rose 2 1/2 points; Northern Pacific, New York Central, Reading and others 2. Union closed 122 1/2; Southern Pacific,

YELLOW PERIL IS NOT DEAD

WAR ONLY MATTER OF TIME

(United Press Leased Wire.)

Manila, Nov. 17.—That as the empire emerges from its financial difficulties Japan's aggressions in China and the acquisition of an arbitrary position on the Eastern problem, will result in a peace between Japan and America, expressed belief of officers of the Philippine squadron and the staff connected with the intelligence department of the army.

That instead of the present trenchment policy announced by the world by Japan as an evidence of peaceful intentions, being a policy of peace, it is an indication that Japan is already preparing for war, the opinion of the military attaches attached to the army in the Philippines.

The officers of the Philippine squadron which recently returned from a visit to Espasmo report many incidents which are showing the deep underlying suspicion and hatred of the Japanese all classes toward Americans.

While a squadron was proceeding through the inland sea, a signal displayed from one of the Japanese forts inquiring what ships they were. When the answer was signalled that it was the American squadron en route to Yokohama, several exchanges between the squadrons proceeded but a few cable signals were run up on the Japanese fort "Stop where you are." The squadron here to and after a moments waiting the same signal: "We wish to remind you you are within ten miles of the Philippines. Keep outside that tance. Proceed."

During the entire stay of the squadron in Japanese waters it never free for a moment from the vigilance of Japanese naval officers who followed it by day and night torpedo boats.

The tampering with the mail of all American citizens of the empire is one of the most annoying features of this espionage.

An American secret service known to your correspondent, many years, gave the following account of his observations:

"Japan is systematically preparing for war with the United States as she did in the years immediately preceding the war with Russia. Her preparation for that conflict, her officer in the Philippines, her army and the army and navy departments know it. These islands have been overrun with Japanese military servers during the past year and several of them have been dependent soon as the present military policy which does not affect the degree Japanese military preparations for the appropriation of these purposes have already provided for covering a number years, refills the Japanese look out for trouble."

Explosion Kills Three. Lorient, France, Nov. 17.—A bomb exploded today in the government school for the manufacture of high explosives, killing three students and wounding others.

Chicago is to enforce the law to keep children in their beds after 9 o'clock at night.

O. Royal has returned from a few days' business visit with friends and relatives in Portland.

Miss Lee Galwick, of Roseburg, arrived this morning to visit with Salem friends the remainder of the week.

MEETING OF CITY COUNCIL

The representatives from the different wards in Salem held another session at the city hall last night, and discussed the city business both new and old.

After a motion had been made by Alderman Elliott, of the seventh ward, for the laying of tile on Kearney street, a hot fight ensued. The opposing councilmen objected on the grounds that the funds for that purpose were too nearly exhausted to permit it, but Elliott and Radcliff both argued that owing to the matter having been turned down by the mayor several weeks ago when it was introduced, it was only fair that it should receive due consideration this time. However the motion was lost.

Attorney Pogue addressed the council in behalf of Gus Schrieber, who wished a re-consideration of the action taken by the council in the last regular meeting in revoking his saloon license and refusing to allow him to transfer same. The council went into a lengthy debate, and a good many were in favor of a re-consideration, but the opposing element downed any action toward the re-instatement of Mr. Schrieber's liquor permit and on a motion made by Alderman Millard, the license was revoked.

The council ordered the appointment of another night policeman after a motion was made suggesting police.

Alderman Stockton made a motion to have the disagreeable smell, which he said comes from the gas plant, abated, which was referred to the committee on health and police.

The Home Telephone franchise was taken up by the council and a communication was read from the city attorney stating the franchise had run out. The council laid the matter on the table for further proceedings until the next regular meeting.

A new fire-limit ordinance was introduced and adopted after the third reading which takes in several additional blocks. The fire-limit now takes in the two blocks on Front street between State and Trade streets, thence East to Liberty, up Liberty to Ferry, down Ferry to the West side of High, including the Salem hotel.

BORN GODFREY—To the wife of Al. God-

CASTORIA.
