BIG SUM

(Continued from page 1.)

listing contracts for river and harbor improvements; \$21,000,000 for general work on rivers and harbors, including examination, surveys and contingencies; \$2,000,000 for work proposed by the Mississippi river commission.

The sum recommended for fortifications is \$7,732,233 of which the most important estimates are \$2,369,000 for seacoast batteries at Manila; \$449,000 for repair and protection at Pearl Harbor, Honolulu; and \$507,100 for the defense of Pensacola, Fla.

For the modernizing of older emplacements, generally, \$500,000 for electrical installation \$984,253; for searchlights \$907,000.

Commenting on the fortification of insular possessions the report refers to the "very necessary additional defenses at Manila." It suggests that if the amount recommended cannot be fully appropriated, at least \$2,000,000 should be made available during the coming year, "so that a substantial plant can be provided and work can be conducted in an effective and economical manner."

A certain proportion of the suggested appropriation for searchlights is recommended to be expended in the Philippines and Hawaii.

Some of the more important estimates for the year for rivers and harbors work follow:

California—San Diego harbor \$30,000; San Pedro bay \$100,000; Oakland harbor \$521,000.

Oregon and Washington—Columbia river \$1,164,000; Columbia river (mouth) \$450,000; Grays Harbor, \$181,000; Puget Sound, \$130,000; Tacoma Harbor \$40,000.

Evangelist Meeting.
The Small-Shaffer meeting at the First Christian church last night was well attended, and the splendid audience was attentive and responsive. The singing under the leadership of Prof. Shaffer was inspiring and wholesome, and the congregation and chorus entered most heartily into this part of the service. The theme of the evangelist, was "The Man Who Was Saved on the Cross," and the people gave close attention to the words of the evangelist. Mr. Small is profoundly in earnest, but never sensational, and always simple in his presentation of his theme. And the peculiar character of the subject last night made every one think seriously while the speaker went from one truth to another in rapid and forceful utterance. The theme for tonight is, "The Man Christ Jesus," and those who miss this will regret it. The services are not prolonged, and the time is taken from the beginning to the close. The public cordially invited.

Big Land Opening.
On January 20, 1909, at Roseburg, Oregon, 91,500 acres are to be withdrawn from the Umpqua forest reserve. This embraces some of the finest dairy and timber lands in Benton, Lane, Douglas and Coos counties.

Not all of this land is subject to entry. For \$2.50 we will send you prepaid 18 large lithographic township maps with above vacant lands colored thereon. Also full instructions as to dates, manner of filing, &c. &c.

The Douglas County Abstract Co., successor to Frank E. Alley, Roseburg, Oregon. 11-18-eod-tf.

TAFT-SHERMAN BANQUET WAS A WARM LOVE FEAST

Machine Leaders Warned That They Must Not Throw But Must Execute the Popular Will

Three lines of thought were advanced at the Taft-Sherman banquet last night. Every seat was filled, and the great event of the evening was the formal reception of Hon. P. H. D'Arcy into the Republican party, which caused uproarious applause as Chairman McNary introduced the old-line Democratic wheel-horse.

All elements agreed in eulogizing Taft, and promising great things as the result of continued Republican administration. When the speakers touched on state politics, there was great difference of opinions. Dr. J. N. Smith said that in order to keep the party in power the Republican leaders had made concessions to the people that smacked of Populism and was responsible for all the troubles of the present when a Republican legislature was pledged to elect a Democrat to the U. S. senate. He deplored this tendency of the party to leave the beaten track and accept heresies.

Must Follow the People.
Col. E. Hofer replied to Smith and said that the Republican leaders of Oregon, instead of apologizing for what they had done in enacting the Direct Primary law, the direct election of senators and giving the people the Initiative and Referendum, should realize with pride that other states were following Oregon, enacting these same laws, and even staff old Maine, the mother of Republicanism, had adopted the direct law-making system. They should be men enough to take the medicine which they had prepared and administered in order to keep in power. Col. Hofer called their attention to fight that was on against machine politics from New York to California, how Democratic Missouri had chosen a Republican governor and three states loyally Republican, including Ohio, had chosen Democratic governors, all to down old machine methods that had outlived their usefulness. If they wanted to elect the next governor of Oregon they must put up a man to execute the people's will.

Congressman Hawley Speaks.
Oregon's popular native son congressman told of the work he had done in other states in the national campaign and delivered a powerful arraignment of the Democratic party. Judge Moreland thought the Initiative and Referendum had come to stay, and that no honest man could break any pledge made to the people to get into office. The Repu-
