DEMOCRATS PUT HUGHES IN OFFICE SAYS COCHRAN

(United Press Leased Wire.)
Chicago, Ill., Nov. 20.—Denouncing Democratic mismanagement of the New York campaign, Congressman W. Bourke Cochran, former orator of Tammany hall, who is in Chicago today summed up the situation by saying:

"Governor Hughes was kicked into office by the Democrats. Yes sir; the Democrats did about all they could to mismanage the campaign in New York. They showed considerable genius at it, too.

"For instance, the Democrats allowed themselves to be put in the position of attacking public utility commissions. 'We're against government by commission' they said. Well, they had mighty short memories. Our own platform two years ago called for public utility commissions. I drafted it myself and Governor Hughes, when he got into office, made it his own, but failed lamentably in working it out.

"Then you take that race track situation. Why, Chanler had almost as much to do with passing that race track bill as Governor Hughes. It was his vote which, after the bill had failed to pass in the first instance, placed it on the table and thus saved it in the senate. An yet two weeks of the campaign elapsed before the public had any appreciation of the fact.

"Men have gone the stump for every reason in the world, but Mr. Chanler was the first one to take it for—the purpose of saying that he had nothing to say."

BRYAN HAS OPINION OF TAMMANY'S POWER

Lincoln Neb., Nov. 20.—That Tammany has rather become impotent or did not work for the success of the Democratic party in the recent campaign, are charges made by William J. Bryan in an article made public today, to appear in the forthcoming issue of the Commoner.

The Commoner article under the heading, "What is the Remedy?" says: "Mr. Murphy, the head of Tammany, says that Tammany did the best it could for the Democratic national ticket. 'There's the rub. If Tammany had been treacherous it might promise to be faithful next time, but as it did the best it could, what hope is there for next time? If Tammany did the best it could and could not carry the city of New York for the Democratic national ticket, several questions arise.

"First—Was it the fault of the candidate?

"Second—Was it the fault of the platform?

"Third—Was it the fault of Tammany?"

"Fourth—Is there a New York Democracy outside of Tammany?"

"If the Democratic candidate was objectionable to Tammany, the remedy is to nominate a candidate next time who is satisfactory to Tammany provided, of course, that is all that is necessary to insure a Democratic victory.

WOULD HOLD WATERWORKS RESPONSIBLE

(United Press Leased Wire.)

San Francisco, Nov. 20.—Alleging that there would not have been a general conflagration following the earthquake of April 18, 1906, if the water mains of the Spring Valley Water company had been properly placed in the ground, a suit for over \$17,000,000 damages against the water company was filed in the United States circuit court today. The suit represents an aggregate of 3800 claims owned by over a hundred property owners of this city. They have all been assigned to Harry S. Ripley for the purpose of the suit and all the claims will be contested in this one action.

It is intimated that similar actions will follow against the local gas company for damage resulting from explosions of gas from the leaky pipe on the first day of the fire.

It is admitted that the Spring Valley will fight the suits on demurrer into the highest court in the land. A decision against the company would mean the loss of its entire capital and heavy drains on the liabilities of the stockholders.

One of the sensational features of the complaint is the allegation that "the water corporation permitted its water system to be managed carelessly and for private profit of many of its directors and stockholders personally."

Affidavits by recent employees of the company, alleging misappropriation funds, are said to have been prepared and made ready for filing. F. Henry Williams, who has charge of the cases denied that insurance companies are interested in prosecuting the suits. He has been working on the case for six months. Samples of broken pipe, trestles, and other water service equipment are being held in three store rooms, while safe deposit vaults contain the affidavits of fire chiefs and witnesses.

'FRISCO TO HAVE TALLEST HOTEL

(United Press Leased Wire.)

San Francisco, Nov. 20.—Plans for a twenty story addition to the St. Francisco hotel will be finally passed upon today by the hotel management, and with the completion of the addition the St. Francis will become the tallest hotel on the Pacific coast and one of the largest in the world.

The hotel at present has 799 rooms and the annex will bring the total up to 1050 placing it on an equal footing with the Waldorf-Astoria in New York. The height of the tower, however, will make it the tallest hotel in the west and possibly in the world.

GOSGROVE'S CONDITION IS SERIOUS

(United Press Leased Wire.)

Paso Robles, Hot Springs, Cal., Nov. 20.—The condition of Governor-elect H. G. Cosgrove, of Washington, is the cause of some apprehension today, as he is showing practically no improvement.

He is suffering from Bright's disease, and it is believed that his condition is serious.

The governor-elect showed signs of improvement when he first arrived here, but his case is not as satisfactory as expected.

DISARMING OF MORAS IS BEGUN

(United Press Leased Wire.)

(By H. Lee Clothworthy Staff Correspondent U. P.)

Manila, No. 20.—A column of infantry with artillery under the command of Colonel Edwin F. Glenn is moving today against the Moros entrenched near Malabang. Reports of serious fighting are expected here any day.

The advance is the beginning of a general movement for the disarmament of the Moro tribes who have failed to acknowledge American supremacy.

Colonel Glenn achieved distinction by suppressing the rebellion in Samar.

SAYS WAYWARD BOYS SHOULD LEARN TRADE

(United Press Leased Wire.)

Sacramento, Cal., Nov. 20.—The state board of prison directors points out to Governor James N. Gillett the necessity of teaching trades to the boys in the state reform school to prevent their becoming criminals through lack of means to earn a livelihood, in their biennial report received by the governor today.

The board declares that many of the youths become criminals after they leave the reform schools because they have learned no trade. It recommends that, while under the compulsory discipline of the schools, the boys should be taught a useful trade.

The board commends the new rule that no pardon or commutation of sentence shall be given a convict until he has shown that he can be trusted by being on parole for one year.

FOUND DROWNED WITH ROPE ON HIS NECK

(United Press Leased Wire.)

Napa, Cal., Nov. 20.—The police are endeavoring to learn today whether an unidentified man whose body was found yesterday in the Napa river near Jacks Point committed suicide or was murdered. The body had a heavy weight attached to it with a rope. There were no other evidences of foul play.

The body was that of a man about 40 years of age, had light brown hair and moustache and wore trousers but no coat or shoes. The body had been in the water several days.

The body was first seen by Captain G. H. Pinkham of the Steamer Zinfandel. An inquest is to be held tomorrow.

COURT HOUSE NEWS

A complaint was filed in the circuit court this morning by A. C. Carter to recover money on a promissory note alleged to have been made to him in the sum of \$400 by F. J. Eldridge, and which has not been paid. Attorney J. C. McCue appears for the plaintiff in the case.

The Umatilla irrigation project is 82 per cent finished.

Meyers Case Up Again—

An application has been filed in the circuit court by Joseph Meyers to perpetuate the testimony of J. Meyers, Ed. Baker, H. W. Meyers, M. L. Meyers, H. Beckwith and J. H. Albert, witnesses, to substantiate several legal points involving Mr. Meyers' property and holdings. The court issued an order today summoning M. L. Meyers and H. W. Meyers to appear on November 30, this year, and show cause, if any, why the above application should not be granted, and a perpetuation of the testimony be so ordered by the court.

BIGGY

(Continued from page four.)

San Francisco, Nov. 20.—Chief of Police Biggy, whose resignation from the department may follow the outcome of the coroner's inquest into the suicide of Morris Haas, who shot himself in his cell at the county jail, while guarded by several policemen, was shown today to have been in personal command of the men who searched Haas.

According to Patrolman Charles P. Groat, who took the stand today in the second day's session of the inquest, he rode to the jail handcuffed to Haas, in Chief Biggy's automobile, with the chief and several detectives.

There Biggy directed the search of the prisoner. Should the jury find that Haas had the little derringer with which he committed suicide, in his shoe when searched, the fact will be used as a contributory evidence of charges of inefficiency, which Detective William J. Burns declares will be brought against Biggy.

Captain Thomas S. Duke, who made the first search of Haas in the court room, produced Otto A. Bremer, a gunsmith, as an expert to prove that Haas did not have the weapon in his shoe when he shot Francis J. Heney.

Bremer testified that if the derringer had been carried for any distance in Haas' shoe the barrel would show rust.

The derringer showed no sign of rust, and Bremer declared that it could not have been carried next to the skin.

Boseman, Mont., is in the hands of an epidemic of scarlet fever and diphtheria and the schools have been ordered closed.
