IMPERIAL FUTURE OF OREGON'S CAPITAL CITY

Plans Involving the Expenditure of Two to Three Million Dollars in Salem and Vicinity

This city and the valley in which it is the recognized center has the greatest prospect of improvements at the hands of the great corporations doing business here. The Portland Railway Light and Power Co., which operates the largest lighting, streetcar and power business in the Pacific Northwest, has plans for spending large sums on new poles and power lines, and will install more of its heavy power circuits which will soon make Salem a manufacturing center.

The Oregon Electric railroad, which is extending branch lines in western Oregon may begin work from Salem south. The Portland, Salem, Eugene, and Eastern railroad which is building at Albany at present has a valuable franchise in this city on which work must be taken up at once in order to secure its rights on our streets.

Mountain Water System.

The bringing in of mountain water to Salem is now an assured enterprise. A commission of the fifteen of the strongest men in the city and state has been organized to bring this abount within the next eight months. If this commission desires it can have the aid of private capital to supply the state and the city with mountain water or by public ownership.

Either plans involves a large expenditure.

Plans are being matured by which the Southern Pacific railroad company will build a large passenger and freight depot on the water front of the city. The tracks will be brought up Front street the entire length of which is occupied with a frachise which the company is not using. It will mean an expenditure of several hundred thousand dollars.

The Home Telephone company has plans made for the construction of a large office and exchange building here, and will bring in all its independent farmer lines from all over the Willamette valley and make Salem the center of its operations. This company has plans involving the expenditure of at least $100,000 at Salem.

The city and state authorities will with the co-operation of the property owners and the state fair board, under direction of Judge Scott, head of the Good Roads movement, build a fine sample boulevard from the State House to the State Fair grounds, to cost not less than twenty thousand dollars.

MARION COUNTY FRUIT EQUAL TO ANY GROWN IN EUROPE

Frederick Pietzsch, a landscape gardner and horticulturist, of Nurenberg, Germany, inspected the Marion County premium apple exhibit in Buren & Hamilton's show window, and told a representative of The Capital Journal that in his opinion the fruit was equal to any that he has ever seen in the United States or any part of Europe. He said what is generally supposed to be the fact that growers in the east and the old country have no conception of the great value of growing apples commercially. In Europe they do not spray orchards, notwithstanding the prevalence of moth, aphis and scale of all kinds. The government is now taking the matter up in Germany and is also paying subsidies to localities to encourage orcharding on a large scale. Up to this time in Europe and Great Britain, apple growing is conducted on a very small scale for family use and retailing purposes only. Such American varities of apples as Spitzenbergers, Baldwins and Northern Spy are being introduced over there, whereas we are growing such European varieties as the Gravenstein, White Pearmain, Duchess, Tetofsky and Cox Orange Pippen. Mr. Pietzsch is loud in his praise of our apples and says he is convinced that the Willamette Valley can raise as good apples as any point in the world, and better than nearly any other points known. He thinks the future of this great valley has wonders in store, and that the results depends largely upon organization and commercial finesse. He stated that if he could hand one of those boxes of red or yellow beauties to his Emperor, he would not hesitate to pay a large sized gold piece for it. In fact he is of the opinion that our own people utterly fail to appreciate our most magnificent apples, as well as other fruits of which he has seen splendid specimens. He predicts vast fortunes for the scientific apple growers of the Willamette Valley within the next decade.

Old Folks

There are mighty few people beyond middle age who don't suffer at times, or all the time, with their liver or kidneys. Natural.

The human machinery is beginning to slow down from the wear and tear of years of use and often abuse. It's got to have assistance to keep it moving properly—particularly the liver.

You can hardly name one of your old friends who hasn't one of the following troubles:

Constipation

biliousness, indigestion, dyspepsia, sour stomach, sick headache, backache, kidney trouble, rheumatism and generally run down system.

Bad Liver Causes It

It is at the bottom of every one of these troubles. It becomes inactive (constipation and bowel trouble follow). Throws off poison and bile (biliousness, sick headache, etc., follow). Puts extra work on the kidneys (often causing Diabetes and Bright's Disease). Uric acid gets into the blood (rheumatism follows). Cure the liver and you'll cure the cause. Cure the cause and you'll cure the trouble.

Now is the Time to visit California

When summer has passed in these northern states, the sun is only mild under the bright blue skies of Southern California. This is one of nature's happy provisions—eternal summer for those who cannot endure a more severe climate.

California has been called the "Mecca of the winter tourist." Its hotels and stopping places are as varied as those of all well regulated cities Visitors can always find suitable accommodations, congenial companions and varied, pleasing recreations.

SOUTHERN PACIFIC CO.

Will be glad to supply some very attractive literature, describing in detail the many delights of winter in California.

The rate from Salem to Los Angeles and return is $55. Limit six months, allowing stopovers in either direction. Similar excursion rates are in effect to all California points.

For full information, sleeping car reservations and tickets, call on, telegraph or write agents, Salem, or
