"Who has the best lighted store in town?"

The committee after a careful investigation, has decided on Patton's Book Store. Their magnificent line of books and stationery can now be seen equally as well on the darkest night, as on the most sunny day. Patton's have adopted the new Packard Tungsten system of incandescent electric lamps. The Packard Tungsten lamp gives 50 C. P. of light with the same amount of electric current that the ordinary 16 C. P. lamp consumes. The lamp gives a brilliant white light and lasts well. These lamps may be had at **HYDE BROS. ELECTRIC CO.** Phone 451 134 N. Liberty St.

An Era of Prosperity—
This country, and especially the Pacific Northwest, is now entering an unprecedented era of development and prosperity. This extension of business in all lines will afford hundreds of openings for young people who can keep books and do stenography. It is wise to get ready now. A course of study at the Capital Business College will be one of the best investments a young man or woman can make at this time. Endorse—
