COUNTY COURT STOPPED BY TOT

While in the midst of a wordy war yesterday afternoon in the county court room, the participants being a large crowd of taxpayers endeavoring to establish a new road district, a little girl stepped into the assembly and began talking to the first one she came to for the purpose of selling a new kind of sticking plaster. The result was, the young lady held up the court proceedings for a short space of time and left the chamber with both her little hands overflowing with nickles and dime. After the tot had departed on her way to other offices in quest of likely purchasers, the court resumed the business on hand. The road district proposed did not go through.

CHARCOAL PURIFIES ANY BREATH

And in its Purest Form Has Long Been Known As the Greatest Gas Absorber.

Pure willow charcoal will oxidize almost any odor and render it sweet and pure. A pallful in a foul cellar will absorb deadly fumes, for charcoal absorbs one hundred times its volume in gas.

The ancients knew the value of charcoal and administered it in cases of illness, especially pertaining to the stomach. In England today charcoal pastilles are used for ulcers, boils etc., while some physicians in Europe claim to cure many skin diseases by covering the afflicted skin with charcoal powder.

Stuart's Charcoal Lozenges go into the mouth and transfer foul odors at once into oxygen, absorb noxious gases and acids and when swallowed mix with the digestive juices and stop gas making, fermentation and decay.

By their gentle qualities they control beneficially bowel action and stop diarrhoea and constipation.

Bad breath simply cannot exist when charcoal is used. There are no ifs or ands about this statement. Don't take our word for it, but look into the matter yourself. Ask your druggist or physician, or better still, look up charcoal in your encyclopedia. The beauty of Stuart's Charcoal Lozenges is that the highest pharmaceutical expert knowledge obtainable has been used to prepare a lozenge that will give to man the best form of charcoal for use.

Pure willow and money is the result. Two or three after meals and at bedtime sweeten the breath, stop decay of teeth, aid the digestive apparatus and promote perfect bowel action. They enrich the supply of oxygen to the system and thereby revivify the blood and nerves.

Stuart's Charcoal Lozenges are sold everywhere in vast quantities, thus they must have merit. Every druggist carries them, price, twenty-five cents per box, or send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 209 Stuart Bldg., Marshall, Mich.

WORK TO BE STARTED ON NEW DEPOT IN TEN DAYS

The committee of the Board of Trade and Business Men's league that went to Portland to interview General Manager O'Brien of the S. P. Co., in behalf of new depot facilities at Salem returned with a promise that the officials would take the matter up within ten days and try to head the list of Salem's five million dollar improvement list for 1909. The committee assured Mr. O'Brien that the Salem program included 500 new buildings here next year, and he said his company wanted to keep pace with the growth of the city. Several sites and plans for a Salem terminal were considered and there will be something coming as a result of the visit.

Mrs. Albert F. Huber, of Albany, went to Portland this morning to visit over Sunday after visiting with her Salem friends for a number of days.

FIRST WORK

(Continued from page 1.)

ple. He says in part:

"China is awakening. There is increasing contact with foreigners, increasing foreign trade and a growing adoption of modern methods of communication and transportation, while something is being made in the introduction of labor saving devices, with consequent industrial evolution. In the movement in the cities, there is now a more or less successful turn toward western police systems and what this means for the preservation of order is hardly necessary to point out.

"The awakening of China is one of the great events of our age, and the remedy for the 'Yellow peril' whatever that may be, is not the repression of life, but that cultivation and direction of life. Here at home we believe that the popular discontent is not repression, but justice and education.

"Similarly, the best way to avert a possible peril, commercial or military from the great Chinese people, is by behaving righteously toward them and by striving to inspire a righteousness among them."

DATES OF COMING EVENTS.

Monday December 6.—Registration closes for city election.
December 7.—City election.
December 1-5.—Fruitgrowers' meeting, Portland.
The Oregon State Dairy Association meets at Salem December 10 and 11.

National Livestock Association, Los Angeles January 26-28.

Come to Church

Close of Second Week of Great Gospel Meeting
First Christian Church

Dear Friend:
The Gospel Campaign is already a success. The church has been the center of attraction for the past two weeks, 1000 have been united with the church by Sunday night.
Red hot Gospel sermons, a splendid chorus, uplifting solos have been the order.

Come Once—You Will Come Again

The church is on fire and the people are turning out to see it burn.
Do you like music. Music that you can understand and cheer and helps. You can find it at the Christian church.
Do you like to hear good preaching, with pathos and hear James Small.

DAVIS ERETT, Manager

RAILROADS WILL ADVANCE

Washington, D. C., Nov. 27.—Shortage of rolling stock and the failure of the railroads to up their equipment during the financial stringency, will sweep advances in rates and bring to the statement today of members of the interstate commission.

"I have no doubt," said one of the commissioners in explaining the situation today, "that an advance will be made along the line of rates in every possible way. The railroads have calculated the situation that they are not sufficient to maintain their equipment and to give good service to their stockholders and the public."

"As soon as business improves over the country the railroads are going to find themselves in need of equipment."

"For two years they have had no rolling stock to speak of and have not kept their old equipment in repair."

"The railroad managers will begin announcing that they need more money to lay tracks and cars."
