STANFORD HAS MORE TROUBLE TRYING TO HANDLE THE CO-EDS

(United Press Leased Wire.) Stanford University, Cal., Nov. 30.—Stanford co-eds are today in a tizzy at the new edict of Dean Wright Allan, dean of the co-eds, who has placed the ban on Frou-Frou skirts, and on waists, hosiery of light shades, lights in dormitory-house clubs or men callers to lock and evening walks. These rules have not been impressed on the college through a succession of conferences, in which the law was laid down in a very definite manner. Co-ed girls hope to escape the new commandments on their own halls, under the chaperonage of their mothers' and, consequently, extra protection from the authorities is superfluous. The leaders of the sororities warn at what they call the "price" of the dean of the students in seeking to regulate the conduct of students proposed to be able to take care of themselves. The dean and it would take very little side to precipitate a social war on the college which have created the Stanford read as follows: Women students must not

appear on the quad or about the university buildings wearing frou-frou skirts.
"2—Light dresses and particularly 'peek-a-boo' waists should not be worn at university exercises.
"3—Women students must not wear hosiery of light or pastel shades.
"4—Men and women students must not stroll together in the evening in single couples.
"5—Students of the university must satisfy themselves with fewer social activities.

BEAT AND ROBBED WOMAN OF \$3200

New York, Nov. 30.—Herbert Stancliffe, who admits that he is the man who assaulted and robbed Mrs. L. A. Palmer, proprietor of the St. Rose Hotel, in San Francisco, of \$1800 in cash and \$1400 worth of jewelry on the night of March 29, last, waived extradition today, and will be sent back to California to stand trial. He was arrested by Pinkertons in this city yesterday. Stancliffe, who also has an alias of John B. Stanley, says that after leaving Mrs. Palmer for dead, he took a train for the East, but fell in with a gang of crooks, who won his confidence, and drugged and robbed him. He was left penniless in Philadelphia, and had to commit one or two robberies before he was able to raise the money necessary to carry him on to New York.

DRIVEN TO ROB BY POVERTY

(United Press Leased Wire.) San Francisco, Nov. 30.—Masked robbers, who held up the saloon of Sahaderne brothers, at 2838 Mission street, yesterday, are in the hands of the police today, admitting their crime, and explaining that it was their first offense, and one to which they were driven on account of lack of work. The two thugs gave their names as James Parlsba, a dishwasher, and Louis Gianini, a laborer. With the order "hands up," the robbers entered the saloon yesterday morning, holding up one of the proprietors and a customer. Only \$6 was taken from the cash register, and \$1 and a gold watch from the customer, John Lurette. Then the thugs ran out of the place and were scamping down the Southern Pacific tracks, when they were stopped and arrested by Patrolman John J. Casey, who took his prisoners to the city prison, and found the masks and loaded revolvers on their persons. Their victims later identified them.

DOOM

(Continued From Page 1.)

race-track-betting law in California and the adoption of a similar measure in Washington would mean practically the death of racing in the United States. The two tracks at New Orleans are in danger of being closed through a similar legislative action. The anti-racing league in Tennessee is said to be gaining ground and a determined effort will be made to stop betting at the Memphis track. In Baltimore a movement has started against the Pimlico course.

Already many of the large owners are planning to take their "strings" abroad. August Belmont will race almost exclusively in England next year, it is said, unless some unexpected change is made in the New York laws—and this is not likely since the re-election of Governor Hughes.

Isidore Jacobs of San Francisco, trustee of the direct legislation league announced today that race track gambling in this state undoubtedly is doomed. He based his statement upon a poll of the senators and assemblymen which, he said, shows a good majority for anti-betting in both houses. It is understood that Governor Gillett already has practically agreed to sign the bill if it is passed by the legislature.

"We have received answers from 44 assemblymen who have announced themselves positively in favor of the anti-race track-gambling bill," said Jacobs today. "Of the 40 senators 23 are known to favor the bill. This will give us a good majority in both houses. There is no doubt, however, that a hard fight will be made by Senator Leavitt of Oakland, and President Tom Williams of the California Jockey club and 'Lucky' Baldwin of the Santa Ana track to beat us. But it seems now it is as good as already passed." It is the general belief that the racing interests in this state will not give up without a struggle and the events in this connection at the com-

TROUBLE

(Continued from page 1)

stration has gone a step beyond its rights, and it is to settle this important point that the state department will be asked to tell the senate what it has done.

Senator Cushman, chairman of the senate committee of foreign relations said today that, in the absence of any authoritative text of the alleged agreement with Japan, it would be impossible to say just what the senate intended to do. If, said he, the document was merely "a declaration of principles" and contained nothing binding on either country, he hardly saw any excuse for finding fault with the state department. On the other hand, he felt that such a document, exchanged between the two powers, would have a salutary effect in stopping war talk among the Jingoos.

It is reported that the five articles of the alleged treaty, purported to have been drawn up by Secretary Root and Baron Takahira, are the fruit of negotiations undertaken by president-elect Taft when he was in Japan a year ago. If this was the case, say the leading senators, it is more than ever an imperative matter that the explanation of the negotiations be made before Taft's inauguration.

That the "treaty" is really a firm alliance is the view taken of the five articles by the London papers, and America is praised for having solved the Far Eastern question so that hostilities in the Pacific have now been postponed indefinitely. Some basis for this theory is found in the statement that the agreement is said to contain provisions that each other's territorial possessions in the Pacific shall be respected and that the "open door" policy shall be maintained. This, it is argued, would have been superfluous unless the governments had intended to reach more than "a gentlemen's understanding" in regard to their respective relations.

HAINS HAD IT, TOO—

"DEMENTIA AMERICANA"

Says His Mind Was Blank on Day of Annis Killing— Says Wife Confessed.

New York, Nov. 30.—Captain Peter C. Hains, Jr., the man who killed William E. Annis the magazine publisher, at the Bayside Yacht Club last August, today told his story for the first time, insisting that, as far as remembering the tragedy itself, his mind was a blank. He declares that it was his belief that he had never been at Bayside.

Annis he blamed bitterly as the man who had broken up his home, taught his wife to drink and smoke and indulge in army post orgies, while he was in the Philippines. Captain Hains said that he did not credit the stories about his wife until he learned them from unimpeachable sources. Then he taxed her about her deeds, and, said he, she broke down and confessed, not only that she had deceived him, but that she loved Annis.

When his wife sued him for divorce, said Hains, the charges which she made were prompted by Annis. So terribly affected was he by the alleged injustice, said Hains, that he lost his senses, and, for a time, was not accountable for his conduct.

RECOVERING BODIES FROM CAVED-IN MINE

Marianna, Pa., Nov. 30.—Estimates of the number of dead as the result of the great disaster of Saturday in the mine of the Pittsburg-Buffalo Coal company, vary today from 120 to 243.

The officials of the company declared that not more than 120 were killed and assert that this is the largest possible estimate.

The foreman of the mine, nevertheless, declares that 244 men were in the mine at the time of the explosion. Only one escaped alive.

One rescue party says that 150 bodies are still in the shaft. So far 83 have been removed. This would make the total number of dead 233.

Of the 83 bodies taken out, 78 have been identified.

The other five are decapitated and so badly mangled that it probably will be impossible to identify them.

Thirty bodies which were in sight of the rescuers this morning undoubtedly will be removed today.

WINS CALIFORNIA MARATHON RACE

San Francisco, Nov. 30.—Cornelius Connolly, a concrete worker, 34 years of age, and a runner of established local reputation, is receiving well-earned applause today for he distanced 24 runners yesterday in a Marathon race of nearly 21 miles, between Fruitdale, Haywards and the Castroville valley. He made a record of 1 hour and 51 minutes and 25 seconds, beating the amateur record hitherto established for that distance.

Connolly kept ahead of his rivals throughout the contest, and in a long, easy stride left each of them far behind, finishing 10 minutes in front of the next man, Soldier Joseph B. King. The third man was Robert Howden, of the Reliance Club, and the fourth was George Behrman, of the Slapmat Indians.

OUT OF WORK TRIES SUICIDE

Oakland, Cal., Nov. 30.—Eugene Tremble, a 20-year-old lad, is far from grateful today that the recovering hospital doctors saved his life last night, after he had swallowed a dose of iodine with suicidal intent. The young man, after being resuscitated, expressed no thanks to the physicians, and walked calmly out of the hospital.

It is feared that he may repeat his attempt today, as he has been very despondent for some time on account of the lack of the necessities of life. Tremble recently came from the interior, and has been unable to find work.

"No work; no money; no food; no friends. What's the use?" he groaned at the hospital last night.
