STUDENTS RISING IN BOHEMIA

AUSTRIA IN THROES OF REBELLION

Prague, Dec. 3.—The uprising of the Czech students, coincident with the opening session of the Austrian parliament at Vienna today, assumed the proportions of a rebellion. The proclamation of martial law by the authorities, instead of quieting the situation, aroused the Czechs of the surrounding country, who are rushing into the city today to aid the anti-government element.

CATCH MURDERER AFTER LONG CHASE

Bakersfield, Cal., Dec. 3.—John Ward, a big cow puncher and "deal shot," who is accused of murdering Pat Cummings, a cook at Cottonwood station, in Inyo county, in a quarrel over a woman, is today in the custody of Sheriff George W. Naylor, of Inyo, having been arrested by Constable Bert Night, after an exciting chase of 150 miles across two counties, the Mohave desert and the Sierras.

Ward was captured on the Onyx-Kernville road. He was heavily armed, and, if he had not been surprised by the officer, would probably have made a savage fight for his liberty. The pursuit of the desperado has been going on day and night ever since last Friday, when the shooting took place.

Ward explains that he shot Cummings in self-defense, after the cook had attacked him with a knife, but the officers declare that the real facts are that Ward noticed his rival outside of his tent door, and then shot him down in cold blood.

TROOPS COMPELLED TO KILL LOOTERS

Calcutta, Dec. 3.—Three Bengalis were arrested at Tuticorin today, charged with plotting the assassination of Lieutenant-Governor Frazer, of Bengal. Frazer was planning to sail in a little while for England, and the conspiracy, as framed, was to kill him while he was on his way to the vessel.

The plot, which the authorities believe they have frustrated, was only one of a network of conspiracies looking toward the murdering of all British officials, and the driving out of all white residents from India. As fast as the conspirators are discovered they are being hurried to prison, given speedy trials and promptly executed.

WOMAN'S LETTER RECEIVED BY BOAS

San Francisco, December 3.—"Mr. Boas: Have been requested by some friends of yours, as well as mine, to send you relief for stomach trouble. I take pleasure in doing so, she having told me that you had been continually bothered with indigestion. The two powders, which I enclose to you, are not only a relief, but a cure for that ailment, which is composed mostly of castain, which, I suppose you are aware, is the greatest of all removers of albumen from the food which gathers in the alimentary canals leading to the stomach."

"Advisable not to wait until you are bothered again, as it is that which makes it so much harder to remove the matter which has already gathered there, thereby retaining other matter as it passes through. If you will take the two powders mixed together, followed by a glass of whiskey or water before retiring tonight, I can assure you of a cure. I shall ask your friends in the near future whether you have had a return of the ailment, which is the cause of more headaches than anything else. This medicine has brought a cure in several cases in my practice, and will in your case."

"Kindly excuse haste in which they are put up, as I had forgotten them until the last moment. Hoping that I have done you a service, I remain, Yours, respectfully,
CHARLES M'HAWER, M. D.,
San Jose."

BOAS' MOTHER AND SISTER SAID THAT THE ONLY PERSON THEY COULD THINK OF WHO MIGHT BE REFERRED TO AS 'SHE' IN THE LETTER WAS A MRS. WALKER, OF SAN JOSE, WITH WHOM BOAS FORMERLY BOARDED, AND WHO MIGHT HAVE KNOWN THAT HE WAS OFTEN AFFLICTED WITH STOMACH TROUBLE.

It was said this morning that McHawer was not known in San Jose, and no such person is recorded as practicing in San Francisco.

The doctor's note to Boas was somewhat illegible, but the consensus of opinion of the police officials is that the signature was Charles McHawer.

Was Not Seen.
San Jose, Cal., Dec. 3.—Mrs. G. G. Walker, whose name was mentioned by the mother and sister of Harry Boas, who was found dead in his bed early today, after swallowing some "stomach powders" which were sent to him through the mail by a person signing the name: "Charles McHawer, M. D., San Jose."

MONEY WENT TO BRIBE, NOT BANK

San Francisco, Dec. 3.—An attempt of the attorneys prosecuting Abraham Ruef, toward showing that the United Railroads failed to deposit any large amounts of currency at the time it is alleged that a great sum was handed to Ruef by representatives of the traction company for the purpose of bribing the hoodling supervisors, occupied the entire day in Judge Lawler's court room.

T. H. Rossett, chief clerk of the Wells Fargo National bank was questioned by assistant District Attorney John O'Gara regarding the deposits made at the bank by the United Railroads during a period extending from April to September in 1906. He testified that in that time the United Railroads had made no deposits of currency in large amounts and the deposit tags were admitted in evidence.

The announced plan of the prosecution is to call the employees of other banks used by the United Railroads as depositors to bring out similar testimony.

The last warrants issued to indict soldiers show a large decrease over the number heretofore. There were only four warrants made out this month, when 10 or 12 were required a few months ago.
