FIGHT ON OVER

FRUIT DELIVERY

(United Press Leased Wire.)
Chicago, Dec. 5.—A bitter fight is being waged today between the transcontinental carriers and the Trunk Line Freight Association over the change proposed by the freight association in the method of delivering California and western fruits to the eastern consumers.

The transcontinental roads declare that to accede to the demand of the association that the original bills of lading be forwarded to points where the goods are delivered, where shipments have been diverted in the contracting shippers to the purchasers, would mean the diminution of the coast shipment of citrus fruits. The shippers have hitherto consigned the shipments to themselves and when the fruit was sold deliv-

ered it to the purchaser without presenting the original bill of lading. Many shipments have been diverted to suit the convenience of the purchaser but the original bills of lading have not accompanied the shipments to their final destination.
