### 15,000 NECKLACE HAS DISAPPEARED

(United Press Leased Wire.)

San Francisco, Dec. 14.—Railroad detectives and secret service men today are attempting to locate a \$15,000 diamond necklace which is believed to have been lost in a baggage car on the Canadian line last week. The jewels are the property of Mrs. A. M. McKillop, wife of a wholesale importer in Vancouver. Mrs. McKillop arrived in this city yesterday and was informed by her maid that the necklace was missing when she opened her baggage. She called the police and an investigation is under way.

Mrs. McKillop's belief that the necklace was lost or taken at the time she was in Vancouver. She says that she has lost various small articles. It did not occur to her, however, to search her baggage after it was opened by the inspectors.

The police here, after receiving information of the loss, notified the railroad detective force and also the secret service agents stationed here.

### FORESTERS CELEBRATE IN STYLE

The Foresters of America lodge did itself proud Saturday evening by completing one of the most interesting programs ever arranged in the city by an order in a finished and successful manner.

At 8:30 o'clock the members of the local lodge formed a line in front of the Holman hall on State street. The Salem Military band led the procession, two prominent Foresters leading a full grown "Billy," decorated up in fine style with ribbons came second and was followed by the representatives of the order in full uniform. After this came the long string of members bearing banners. Redfire and Roman candles made up the balance of the parade, and it could not be said the Foresters did not know how to burn powder in great big chunks. The parade left the hall and directed its course down State street to Commercial, down Commercial to the Willamette hotel, back to Court, down Court to Liberty and south again to the hall, where the "big feed" and other interesting features of the program were concluded.

**Guilty of Counterfeiting.**  
Passing counterfeit money is no worse than substituting some unknown worthless remedy for Foley's Honey and Tar, the great cough and cold remedy that cures the most obstinate coughs and heals the lungs. J. C. Perry.

### TAFT TO GO TO PANAMA IN JANUARY

(United Press Leased Wire.)

New York, Dec. 14.—President-elect Taft has signaled his visit to this city by making the definite announcement that he intended to go to the Panama canal zone late in January to spend 20 days "exploding lies," his purpose being encouraged by the attitude of President Roosevelt since the recent campaign of accusations against the administration commenced. Taft said that he intended to take with him some expert engineers who had hitherto been employed on the works.

"You know," he said with a smile, "it is generally the thing for the old man to drop in on his men some times and stiffen them up. Many of them have been away from home for a long time and I rather think the presence of the old man may put ginger and encouragement into them."

Taft also dropped the intimation that Frank B. Kellogg, the "trust buster" who is handling the Standard Oil ouster suit in this city, would be attorney-general in his cabinet.

**Hoarse coughs and stuffy colds** that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar, as it soothes inflamed membranes, heals the lungs and expels the cold from the system. J. C. Perry.

### HOUSE AND VALUABLES MYSTERIOUSLY BURN

(United Press Leased Wire.)

San Francisco, Dec. 14.—The peculiar circumstances attending the destruction of a California-street residence last night together with the reported loss of \$18,000 in jewelry, is causing an exhaustive investigation today by Fire Marshal Towse and the police. The suspicion of the fire marshal was aroused by his finding kerosene rags in the rooms of the house, while the police inquiry was caused by the fact that Madame Marie Malard, of Paris, who recently rented the house, had several thousand dollars worth of insurance policies on her person when she was arrested last night.

Madame Malard, with whom her daughter, Louise Girod, and a man named Gaston Clements were arrested, told the police that at the time of the fire she was in Sausalito. When she left town there was at least \$18,000 worth of jewelry in the house as well as other valuables, she declared. Detectives say that when the fire department arrived the place had been looted and that there was hardly \$300 of effects in the building.

The police declare that three separate fires had been started, and that all the doors and window fastenings were intact when the firemen came.

Madame Malard arrived from France several months ago, according to her statement to the police, but only recently engaged the house that was burned. She professes to be a purveyor of gowns and silks and had sent circular letters to prominent women asking them to call and view her stock of silks and jewels.

The policies she showed the police last night covered goods of all kinds. After she had made the statement to the police Madame Malard and her companions were allowed to go on their own recognizance until called on to appear in the police court.

### VIVISECT HORSE IN CRUEL MANNER

(United Press Leased Wire.)

Grand Rapids, Mich., Dec. 14.—Two hundred medical students in the Grand Rapids Veterinary College are today facing serious charges in the local police courts because, it is alleged, they saw fit last week to perform six operations simultaneously on an old blind horse, without giving it an anesthetic.

A newspaper man, who is one of the witnesses against the students, testifies that, during the operations, the beast became maddened with pain and broke away. When it was captured, the students were asked why they did not give an anesthetic, and the answer said to be given was: "It isn't necessary for such old skates."

The vivisection case not only involves all the students in the institution, but also Dr. H. L. Schach, director of the college.

### HATED BY RUSSIA, COUNT TURNS SHERIFF

(United Press Leased Wire.)

New York, Dec. 14.—Alexander M. Lochwitzky, known to the Pacific coast as a lecturer on Russian topics, today reasserted his claim that he is a Russian count and a former lieutenant-colonel in the Russian army. Recently upon the appointment of Lochwitzky as a deputy sheriff of Dutchess county, Baron Schlippenbach, Russian consul-general here, denounced him.

Baron Schlippenbach endeavored to prevent Lochwitzky from going armed, declaring he was an unfit person to have a revolver. Lochwitzky, however, declares that he is twice in danger of poisoning by Russian spies and has become a county official in order to protect himself from his inveterate enemies.

Lochwitzky lectured on the Pacific coast three years ago. He presented letters from great notables and in San Francisco was given a letter of introduction by David Starr Jordan, president of Stanford University.

### PROMINENT LAWYER OF CALIFORNIA DEAD

(United Press Leased Wire.)

Berkeley, Cal., Dec. 14.—Judge John Garber, noted throughout California and Nevada as a brilliant lawyer and able jurist, passed away at his home in Claremont last night shortly after 11 o'clock. Death has been expected for several days, and the dying man was surrounded by his family, which included Mrs. Julia White Garber, his wife, and Mrs. Whitney Palache, Mrs. Frank Stringham and Mrs. Lida J. Garber, his three daughters. His illness was a severe attack of typhoid fever.

Judge Garber was born in Staunton, Va., in 1833. After practicing law in Virginia for a few years, he moved to this state and settled in Santa Cruz, staying there for a year and a half before going to Nevada City, California. He married the daughter of Judge John White, of Alabama, in 1865, and then moved to Nevada, where, after practicing in partnership with Colonel Harry I. Thornton, he was elected justice of the supreme court of that state.

After moving to this city, Judge Garber was in partnership successively with Thomas Bishop, Judge Boalt, Eugene Garber and his son, Joseph Garber and Harry T. Crosswell. It was while practicing law in this city that President Roosevelt tendered him an appointment on the first Panama canal commission. Garber was a Democrat, but he would probably have taken the place had not private reasons compelled him to decline.

### FIND DAUGHTER WOULD-BE MURDERESS

(United Press Leased Wire.)

San Francisco, Dec. 14.—In Mrs. Joseph McCormick, charged with assault upon her husband to commit murder, James M. Long, the millionaire syrup manufacturer, and his wife, believe that they have found their missing daughter, Ada Long, who disappeared from her aunt's home in Denver two years ago.

Mrs. McCormick is charged at the city prison with stabbing her husband, a waiter, in the thigh. He refuses to prosecute her but the police are holding the wife as it is believed his chance of recovery is slight, and a more serious charge may be placed against her.

The woman was found wandering near her home, a shack on the outskirts of the city, a short time after her husband, unconscious and bleeding from his wound, was discovered by neighbors and sent to a hospital.

Two years ago, Ada Long went to visit an aunt in Denver. She was robust and athletic, fond of outdoor exercise. During a polo match she fell from her horse and was kicked in the head. So serious became her mental condition that the family decided, against her earnest wishes, that she should enter a sanitarium. Soon afterward the girl disappeared and was not heard of by the family until yesterday.

**Mrs. McRaney's Experience.**  
Mrs. M. McRaney, Prentiss, Miss., writes: "I was confined to my bed for three months with kidney and bladder trouble, and was treated by two physicians, but failed to get relief. No human tongue can tell how I suffered, and I had given up hope of ever getting well until I began taking Foley's Kidney Remedy. After taking two bottles I felt like a new person, and feel it my duty to tell suffering women what Foley's Kidney Remedy did for me." J. C. Perry.
