SHOULD ADVERTISE OUR APPLES

(Corvallis Times.) "The Spokane Apple Show was the greatest apple display ever made on the continent," says Prof. C. I. Lewis, head of the department of horticulture at O. A. C. "This show will be made an annual event in the West," said he, but next year as great a display will be made in Chicago. For that occasion Oregon, the Willamette Valley, and Benton county should begin to prepare now. Oregon had no proper display at Spokane, and outside of Hood River no place but Grants Pass made a showing worth while, yet Benton county could have shown apples as fine as those in the district displays. Oregonians missed a great advertising opportunity at Spokane, but should not miss the opportunity at Chicago next year, for it will be the greatest that ever happened."

Prof. Lewis and Mr. C. A. Cole, of the O. A. C., and two students, R. B. Denny and T. R. Brown, were at the Spokane show and have just returned. Prof. Lewis went as one of the judges of the great exhibit while the others went to give a demonstration in apple packing. They packed apples every day of the fair, showing the various methods and styles, and say the demonstrations were watched by thousands of people. As an advertisement for O. A. C. this demonstration proved a hummer and will result in the enrollment of a number of students in both the short and regular courses at the college.

Our Fruit As Good. "Thirty-five thousand dollars in premiums was offered at Spokane," said Prof. Lewis, "and no less than 15 carloads of fruit were on display, Washington, Idaho, Montana and British Columbia had the great showings. Montana had a finer showing than Oregon, Hood River failing to make a worthy display because of a misapprehension largely groundless. However, any section of the Willamette valley could have made a very creditable display. I did not see many finer apples than were on display at the Albany fair a short time ago." Many of the exhibits at Spokane were small ones and the Willamette could have measured fruit with these very successfully.

"About 20,000 people saw the show every day and financially this exhibit was a success. It met with such favor that there was a unanimous demand for a continuance of the show each succeeding year. Yakima, Hood River, Wenatchee and Rogue River each pledge from two to eight carloads of fruit, and it is reasonably certain that next year's show will eclipse the Spokane exhibition."

Chicago a Great Opportunity. "The Willamette valley should not pass up the Chicago exhibition. A half million people will see the show there and this offers a wonderful advertising possibility. It is from the vicinity of Chicago, Minneapolis and St. Paul that we receive the greatest number of inquiries about this section, and to make a display there will bring us many immigrants and the investment of much Eastern capital. That's what this country needs—people and money. We want the

smaller form and intensive cultivation. The show at Spokane resulted in constant inquiry about the Willamette valley despite the fact that no display from here was made. Many there had heard of the Willamette and the O. A. C. force was continually asked for information." By-the-way, Prof. Lewis was made judge of the carload lots, and with the rivalry between the sections furnishing the great displays, it can be imagined that his job was not an unalloyed delight.

BAD BREATH FROM TEETH AND STOMACH Quickly Killed By Stuart's Charcoal Lozenges.

Free Trial Package By Mail. The teeth secret much of the decay from food and the acids from the mouth cause such decay to assume a gaseous state which quickly makes horrible odors. Charcoal is one of the strongest absorbers known and mixed with the saliva of the mouth it quickly takes away the bad effects of mouth decay, acids and odors. Charcoal will absorb one hundred times its volume in gases. Charcoal is used at sea to keep water sweet. A little placed in a pan keeps a refrigerator sweet and free from decaying odors, also a sleeping room or foul cellar or sink. John Turnbull of Glasgow, Scotland, a famous chemist, covered two dead dogs with charcoal and placed them in his study without any covering whatever beyond charcoal. In six months' time only the bones of the dogs remained. And the flesh was entirely gone, yet no odor whatever had permeated the study during the decay of the animals, notwithstanding the weather was highly conducive to decay. Stuart's Charcoal Lozenges are made from willow charcoal and honey. Willow is the most porous charcoal obtainable and therefore absorbs quickly and in greater quantity than other charcoal. It contains carbon, hydrogen, oxygen and nitrogen. Charcoal from the willow is free from grit. Stuart's Charcoal Lozenges cure diarrhea and constipation and stop foul breath from stomach or mouth odors. They contain nothing but charcoal and honey. Eat two or three little lozenges after each meal and at bedtime and you will soon stop all foul gas from arising. You will sweeten your breath and aid your digestion, blood and liver. Every druggist carries Stuart's Charcoal Lozenges in stock, price 25 cents, or send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

Mrs. McRaney's Experience. Mrs. M. McRaney, Prentiss, Miss., writes: "I was confined to my bed for three months with kidney and bladder trouble, and was treated by two physicians, but failed to get relief. No human tongue can tell how I suffered, and I had given up hope of ever getting well until I began taking Foley's Kidney Remedy. After taking two bottles I felt like a new person, and feel it my duty to tell suffering women what Foley's Kidney Remedy did for me." J. C. Perry.
