Jacob Vogt

"Marked Copy" Did the Trick.

"MARKED COPY" on a newspaper wrapper is sure to make the receiver open and read.

Last year a southern man bought fifty copies of his local paper containing a suggestion for a factory location, marked them and mailed them to fifty individuals or concerns that might be interested.

Result: Twelve immediate inquiries, three propositions for the factory site, one thriving factory located which today pays wages to 175 persons living in that town.

Watch this paper for such opportunities to **BOOM YOUR TOWN.**

Pouring Prosperity Through a Puncture.

Ever see a drunken man trying to fill a bottle with the bottom broken out? It's a great waste, and it looks mighty silly.

But it's no more foolish and no more wasteful than for a sober man to expect his town to fill up with people and bubble over with prosperity when he is continually pouring his dollars into the wide world outside THROUGH THE MAIL ORDER HOLE in the bottom of his home town.

MORAL: Patronize home industries.

North Santiam Mining Company

AN OREGON CORPORATION--PROPERTIES IN MARION COUNTY

AN INVESTMENT IN THIS COMPANY WILL BRING RESULTS

The holdings of this Company consist of six claims, along the Little North Fork of the Santiam River, in Marion county, Oregon.

SUMMING UP

No industry in the world presents such opportunities for profit as mining, and in no other business is the investor as safe or so sure of good profits as in legitimate mining.

In the reports of J. H. Fisk, M. E., and J. R. Wolfe, M. E., we find that the average of all average samples taken by them from our claims show a value of \$37.78 per ton. The expense of mining, hauling, smelting and shipping amounts to \$10.75 per ton, leaving a profit of \$27.03.

Estimating the output at the low amount of ten tons per day, we have a net profit of \$270.30 per day, or of \$8,109.00 per month, or of \$97,308.00 per year. This amount represents nearly ten per cent of the par value of the stock. In what other investment could such a profit be shown? The above figures are for an output of only ten tons per day, but the company will not rest until they have reached an output of at least 50 tons per day, which with a small further outlay can be concentrated by our own power and treble the amount of earnings.

As a rule a company sells its first treasury shares very cheap, so if one estimated from a basis of first cost he is receiving from 200 to 500 per cent on his cash investment. For example: The Le Roi stock was sold for a few cents per share when the mine first started. This stock is now quoted in London at \$25. Isabella, of Cripple Creek, sold as low as 10 cents originally; it is now worth \$1.28, that is to say one could have bought 1000 shares for \$100; they are now worth \$1280, and the mine has paid \$400,000 in dividends.

Mr. Dawes, the president and manager of this company, has spent the greater portion of the last 14 years in the vicinity of the company's property, and knows the country most thoroughly, and those who rely on his judgment as to selecting the best claims in Marion county will not be disappointed.

All who associate themselves with the company will have the gain and advantage of his years of hardship and pioneering. The last sample brought out by President Dawes and assayed shows the following values: Gold \$16.53, silver \$3.00, lead \$36.18, copper \$13.30, total \$69.01. We feel that all contained in this little pamphlet is true and that this is a proposition of merit and one well worth looking into. We cannot see where there is anything but success in store for us and our stockholders. We will place but a small amount of stock on the market—our wants for immediate cash are small—and operations are now going forward on the claims. When about \$6000 has been subscribed the stock will be withdrawn.

NORTH SANTIAM MINING CO.'S

Initial Offering of Stock.

Capital stock, \$1,000,000; par value of shares \$1.00, fully paid and can never be assessed. A limited amount of stock is now for sale at the extremely low price of 5c per share. The Company reserves the right to raise the price without further notice.

100 Shares..	\$ 5.00
200 Shares	10.00
300 Shares	15.00

Any amount of shares over 300 can be purchased on the installment plan at the following rates: 500 shares—\$25.00, \$10.00 down and \$5.00 per month. 1000 shares—\$50.00, \$20.00 down and \$5.00 per month. 5000 shares—\$250.00, \$100.00 down and \$25.00 per month. Not less than 100 shares sold. All shares bought for cash entitles the buyer to 5 per cent discount.

A. W. DAWES, President.
JOHN J. FISCHER, Secretary.

SALEM THE HOME OF LARGEST LUMBER PLANT IN WILLAMETTE VALLEY

The Spaulding Logging Company, with headquarters at Salem, is the largest lumber corporation in Western Oregon, having sawmills at Salem, Newberg and Dallas, and planing mills and lumber yards at all these towns and also at McMinnville and Albany. The mills cut forty million feet annually, and have a large foreign trade in the largest cities of the United States. They own their own timber lands and cut all their logs, and besides supply twelve million feet of pulp logs for the paper mills at Oregon City. The

corporation owns two steamers that ply on the Willamette river, and 20 miles of logging road, besides an interest in the Salem, Dallas, Falls City and Western railroad, which is building a connecting link between this city and Dallas this winter. When running into West Salem, which is expected to be the case next summer, the line will be nearly 40 miles long, and when completed to Toledo, through the Siletz, will pierce the biggest body of timber in Western Oregon, and will be the shortest line to tidewater. The Spaulding Logging Company represents a capital of over two million dollars, and employs about one thousand men in their sawmill, logging and railroad operations. Mr. C. K. Spaulding of this city is the head of the concern and he is noted for being one of the most progressive and careful business men that has been produced in Western Oregon.
