CHEAP FARE WILL HELP BOOM OREGON

No news that has been received by the people of Oregon during the last 24 months is so important as the announcement that the trans-continental railroads will make a rate, beginning March 1st, and continuing until April 30th, from Kansas City, Omaha, St. Paul and Minneapolis, Winnipeg and other similarly situated towns, to all main line railroad points in Oregon, for \$25.00. The people of no state in the Union have profited more by these one-way tickets than have those of Oregon during the last four years. The rate from Chicago is \$33; from St. Louis \$30.50, with a proportionate low fare from all points in the United States. This should add many

thousands of actual settlers to the population of Oregon. These are one-way tickets, and if travelers desire to return to their former homes in the older Eastern states they would have to pay full fare. Every commercial club and advertising bureau in the state, as well as every real estate firm, should begin immediately to advertise these rates. Every citizen of Oregon should write personal letters to old friends and acquaintances reminding them that the rate is good to their town. But the ticket must be bought to be point of destination—it's just as cheap to the most distant Oregon point as to one just over the border of the state.

SALEM HIGH VICTORS OVER JEFFERSON

After a lively discussion of the subject "Resolved that the consolidated county system of schools (with elective county board with power to appoint county superintendent) should be adopted in Oregon in lieu of the present system of rural districts," the judges, Representative Hunk, of Walla Walla county; Representative Brooks, of Malheur county, and Superintendent A. M. Sanders, of the Albany city schools, decided the Salem high school was the victor over the Jefferson team. Notwithstanding the subject was a rather deep one, the opposing teams handled it an excellent manner, and the arguments were logical and showed

much study and research. The participants in the debate, for Jefferson, having the affirmative, were Jane Steinberg, Rose Mason and Lloyd Mason. For Salem, holding the negative, Howard Zimmerman, Robert Minton and Seth Axley.

LAW BEARS HARD ON SMALL BOY

Tacoma, Wash., Jan. 23.—Much sympathy is being expressed for 18-year-old Jesse Uhley, of Ashford, who was fined \$50 for killing a deer in the closed season. It was shown that the Uhly family is in very straitened circumstances, and that the young children had been suffering intensely from hunger.

The mother, who is the sole support of the family, appeared in court and pleaded for the son, stating that the boy had tramped around the woods for hours every day to find some kind of game to provide food for the smaller children.

The killing of the deer came to the notice of a deputy game warden, who arrested the boy. Arrangements probably will be made for the lad to work out the amount of the fine required to satisfy justice.

The forthcoming Country Life Commission's report boiled down: "He's all right! Who's all right? The American farmer's all right!"

CITY NEWS

A New Precinct.—The county court created a new justice of the peace precinct yesterday by splitting the Mt. Angel district from the Woodburn precinct and appointing Henry Berning justice of the peace and Otto Hessing constable.

Not a Heavy Charge.—A complaint has been filed in the Railroad Commission by D. W. Bennett against the Southern Pacific Co., alleging that the railroad employes had been tearing out too many miles from his mileage book to cover the distance he had been traveling. Bennett claims that in one instance a conductor removed from his mileage book enough coupons to pay for carrying him 34 miles, when he only rode 3 miles.

Will of O. G. Savage.—The last will and testament of the late O. G. Savage has been filed for probate. The will names Gertrude E. Kruse and Linnie Reed, daughters of the deceased, and H. R. Kruse as principal legatees of the estate after a provision made for the widow, Emma L. Savage as follows: A 63-acre farm in Polk county, house and lot in this city, a life estate in 40 acres in North Salem and several other provisions pertaining mostly to money matters.

IF MONEY COULD BUY SIGHT

Unfortunates who have for years neglected to consult a competent optician would gladly pay the price, but there are so many cases in which the optician can not give the vision he would like to with lenses because the eyes have been constantly strained and continually neglected.

EAST SALEM PUSH CLUB IS GETTING BUSY

At a meeting of the East Salem Push Club, held last evening, President John Knight announced the following named persons as members of the board of directors of the club: F. J. Lafke, H. N. Goode, T. D. Jones, President John Knight and Vice-President C. M. Eppley will, with these, constitute a board of five to look after the business affairs of the club. Membership cards were distributed for signatures, and the club now has about 50 members. A strong committee on membership was appointed, and they expect to have a roster of at least 150 before the next regular meeting, which will be held Friday evening, February 5.

A committee was appointed on a permanent place for holding meetings, and, until further notice, all meetings of the club will be held in the Central Congregational church. During the week, the directors will appoint standing committees on the different lines of work which will be taken up, and it is the understanding that the club will make an aggressive campaign for such improvements as they feel are within the reach of the organization. A number of matters along these lines were discussed, and it is hoped to have some committee reports on same in time for the next meeting.

Pure willow charcoal will oxidize almost any odor and render it sweet and pure. A panful in a foul cellar will absorb deadly fumes, for charcoal absorbs on hundred times its volume in gas. The ancients knew the value of charcoal and administered it in cases of illness, especially pertaining to the stomach. In England today charcoal poultices are used for ulcers, boils, etc. while some physicians in Europe claim to cure many skin diseases by covering the afflicted skin with charcoal powder. Stuart's Charcoal Lozenges go into the mouth and transfer foul odors at once into oxygen, absorb noxious gases and acids and when swallowed mix with the digestive juices and stop gas making, fermentation and decay. By their gentle qualities they control beneficially bowel action and stop diarrhoea and constipation. Bad breath simply cannot exist when charcoal is used. There are no ifs or ands about this statement. Don't take our word for it but look into the matter yourself. Ask your druggist or physician or better still, look up charcoal in your encyclopedia. The beauty of Stuart's Charcoal Lozenges is that the highest pharmaceutical expert knowledge obtainable has been used to prepare a lozenge that will give to man the best form of charcoal for use. Pure willow and honey is the result. Two or three after meals and at bedtime sweeten the breath, stop decay of teeth, and the digestive apparatus and promote perfect bowel action.
