ONLY A HAYSEED MEMBER.

Hon. Archie Libby of Marion county is only a farmer legislator, and a granger.

He took Statement No. 1 and did not know any better than THAT A PLEDGE MEANT A PLEDGE.

He is not an orator or politician, but he has taken a great big scalp for a small man.

His resolution to put the ten per cent of the Forest Reserve fund IN THE STATE SCHOOL FUND HAS PASSED. It is the first thing done in this legislature to put any money in the educational funds.

He has introduced only one bill to put ALL THE STATE EDUCATIONAL INSTITUTIONS UNDER ONE BOARD.

That is what the State Grange demanded, more indirect revenues for education, and less boards and commissions.

Mr. Libby is not taking up any time fanning the air with speeches and bills and resolutions for clerkships.

He is not working through any jobs to increase salaries and create NEW OFFICES AND BOARDS AND COMMISSIONS.

He will probably be called down hard by the Machine politicians who see nothing in politics but a chance to graft.

In that respect Libby is green and inefficient, but the farmers and the taxpayers and his little Morning Star Grange will welcome him IF HE KEEPS UP THIS KIND OF RECORD.

The Machine and the politicians for revenue in his own town openly fought Libby when he was a candidate but he was elected just the same and can be a member of the next House if he wants to be.

OREGON IN THE CABINET.

California is making a big fight for the office of secretary of the interior in Taft's cabinet.

Oregon has not risen in political importance since the days of Geo. H. Williams TO HAVE A CABINET POSITION.

Fifty years is a long time for a state to go without recognition in national affairs, and we ought to break the record.

There are two men at Portland who would make creditable representatives in the cabinet—MEN TYPICAL OF THE WEST.

One is Harvey Scott, of the Oregonian, and the other is Fred W. Mulkey, either capable of filling the place.

These men are not only creditable types of manhood, but men of brains and character and legal ability AND POLITICAL EXPERIENCE.

The making up of cabinets of political obscurities and mere clerks has been followed about for enough.

Mr. Taft would honor himself by taking something more fresh from the people, AND MEN WHO MEAN SOMETHING TO THE PEOPLE.

A cabinet should not be composed entirely of promoted underlings and stenographers, who have been somebody's private secretary.

Why not give the most progressive political states in the Union a chance.

AN EFFICIENT DELEGATION.

The members from Marion county in the house are working harmoniously and effectively.

These members confer together and agree on nearly everything in a friendly way, AND THEN ACT AS A UNIT.

Marion county has never had a cleaner and better disposed set of men to the lower house.

Ingredients give to Hood's Sarsaparilla its great curative power—power to cure many and varied complaints, including diseases of the blood, ailments of the stomach, troubles of the kidneys and liver.

Many of the ingredients are just what the profession prescribe in the ailments named, but the combination and proportions are peculiar to this medicine and give it curative power peculiar to itself. Therefore, there can be no substitute for Hood's. Get it in the usual liquid form, or in tablets called Sarsatabs.

LEISLATURE LIKE A DONNYBROOK FAIR

(United Press Leased Wire.) Olympia, Wash., Jan. 26.—The morning session of the senate was the scene of two of the hottest disputes ever witnessed in a similar gathering in this state.

The trouble started when Senator Alex. Polson, of Chehalis, introduced a concurrent resolution that the senate appoint a committee of five to act with a similar committee from the house to investigate the supreme court judges, all other state officers and all members of the legislature, touching upon their integrity.

This was the outcome of the Root-Gordon investigation. This resolution was fought bitterly on the floor of the senate, and at times every member of the upper house was on his feet at the same time.

Finally order was restored and motions were made by Senators Roth, of Thurston county and Booth, of King, to have the bill referred to the committee on resolutions. When the senate found out no such committee existed another spirited debate was started, which ended in the resolution and all discussion upon it being expurgated from the minutes of the house.

The next round of the legislative fights started when the anti-saloon league's local option bill came up. At times the members were on their feet hurling all sorts of epithets at each other. Finally a motion was passed by a vote of 22 to 19, and the measure was sent to the judiciary committee, the same action having been taken by the house yesterday.

In the house labor scored its first victory this morning. The bill was reported favorably from the committee making the legal working hours of women eight hours instead of ten hours, as at present. Several amendments were made to this, which, if carried, would have put the bill back, but after a final vote the report was accepted and the eight-hour labor measure for women will pass this afternoon.

They want to do exactly what is right, and are trying hard TO MAKE GOOD RECORDS. They are not introducing many bills, and not consuming much time making speeches, although there are times when matters should be threshed out and men should speak, and we hope to hear OF THEIR DOING THIS WITHOUT FEAR OR FAVOR.

They want to do exactly what is right, and are trying hard TO MAKE GOOD RECORDS.

They are not introducing many bills, and not consuming much time making speeches, although there are times when matters should be threshed out and men should speak, and we hope to hear OF THEIR DOING THIS WITHOUT FEAR OR FAVOR.

The Marion county delegation in the house are not making any enemies for this county and city, and deserve a whole lot of credit among our business men.

Springfield, Ill., Jan. 26.—The seventeenth ballot on the United States senatorship was taken today with no indication of breaking the deadlock. TASTE IS SURE STOMACH GUIDE

A Barometer Which Never Fails, Though Seldom Believed.

"Taste is the direct guide to the stomach; and the taste buds are connected by the nerves with the stomach itself, so that they represent its health or disorder. If the stomach or its juices are out of tone, the blood is fermented by a change in the alkaline or acid condition, and these reach the mouth both directly and indirectly.

"The taste buds are in the tongue and are mounted by hairlike projections called papillae; they cover the surface of the tongue."

"When you taste these buds rise up and absorb the liquid; inform the nerves; the nerves tell the stomach and the food is acceptable or not, just as the stomach feels."

The above remark on taste comes from an eminent authority and simply explains why when one smells cooking or sees food one thinks he can eat, but when he tastes he learns the stomach is out of business.

To the person who cannot taste aright, who relishes no food, and simply forces himself to eat, Stuart's Dyspepsia Tablets hold the secret of enjoyable eating, perfect digestion and renewed general health.

Most people wait until their stomachs are completely sickened before they think seriously of assisting nature.

When your taste for food is lost it is a certain sign the stomach needs attention. Stuart's Dyspepsia Tablets cure such stomachs. They restore sweetness of breath, renew gastric juices, enrich the blood and give the stomach the strength and rest necessary to general duty.

Forty thousand physicians use Stuart's Dyspepsia Tablets, and every druggist carries them in stock; price 50c per box. Send us your name and address, and we will send you a trial package free by mail. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.
