THE HOP INDUSTRY BILL.

The bill introduced to encourage the hop industry ought to pass this legislature.

It provides that in all local option elections the question of selling malt liquors **SHALL BE SUBMITTED SEPARATELY.** That means that dry precincts now given over to bootlegging and blind piggeries shall be allowed to vote to sell beer.

This means that hypocrisy, shipping in vile bottled whiskeys, and illicit drugstore traffic **SHALL GIVE WAY TO HONEST METHODS.**

Back of it all, failure to pass this bill means that the largest hop growing state in the Union shall be guilty of the **INCONSISTENCY** of giving one of its principal industries a deathblow.

It means that a product turning \$3,500,000 a year average output for the past ten years **SHALL BE RENDERED WORTHLESS AT HOME.**

Of the 32,000 acres in hops in 1906, last year 8000 acres had already been plowed up.

It means that from 50,000 to 100,000 people employed in the hopyards during the year shall **FIND OTHER EMPLOYMENT OR GO WITOUT.**

It means for intelligent Oregon business men to kick them selves in the face, to encourage fraud and disorder and immorality.

How a member of the legislature living in a hop growing county can have the gall to vote against this bill to save the hop industry **PASSES COMMON UNDERSTANDING.**

Certainly the 1600 hop growers in Oregon will see to it that no such person ever gets back into a public office again.

Next the prune industry will be attacked because **PRUNES ARE DISTILLED INTO ALCOHOLIC PRODUCTS.**

The apple business will have to go because apple waste is made into cider that gets hard.

Barley will have to be stopped growing in Oregon because **IT IS MADE INTO MALT LIQUOR.**

Are the men who represent the barley growing counties going to vote with the Prohibition counties to kill the bill for encouragement of the hop industry?

LET THIS LEGISLATURE BE HONEST AND NOT STULTIFY ITSELF by building up the illicit traffic in strong liquors by killing the bill to permit the people to vote for malt beverages if they want them.

SHOW VISITORS OUR BEAUTIFUL STORES.

The editor of this paper always tries to show a visitor at Salem our splendid mercantile establishments.

In the line of drygoods, clothing, hardware, furniture, jewelry, and other lines, the Capital City **CAN COMPARE WITH ANYTHING IN THE STATE.**

Portland has no better retail stores, and when it comes to prices visitors can save from ten to 30 per cent.

It is a duty we owe to the merchants of this city to show their splendid establishments **TO EVERY STRANGER WHO COMES TO OUR CITY.**

A half hour taken to show a stranger through these establishments sends him away from our city with a most favorable impression.

Our merchants have spent small fortunes in fitting up their places of business, **AND EVERY ONE OF THEM IS A GOOD ADVERTISEMENT OF SALEM.**

Use it or not, as your doctor says

You could not please us better than to ask your doctor about Ayer's Cherry Pectoral for coughs, colds, croup, bronchitis. Thousands of families always keep it in the house. The approval of their physician and the experience of many years have given them great confidence in this cough medicine.

A SIMPLE RULE that will make anyone prosperous is this:

BARR
 The Optician

FIGHT FOR A FULL-WIDTH PERMANENT BRIDGE.

Whether the bridge across South Mill creek be of concrete, steel or wood, it should be full width of the street.

The material used is secondary, and to be governed **BY THE FINANCIAL ABILITY OF THE CITY.**

A permanent bridge built out of an issue of bonds, to be paid off in 20 years at a low rate of interest, would be a rational proceeding.

It is profitable for property and the city to pave streets in that way **AND SECURE A PERMANENT IMPROVEMENT.**

Why should it not be profitable to build a permanent bridge that way?

A permanent bridge of concrete and steel would last 50 years, and can be built **FOR LESS THAN THIRTY THOUSAND DOLLARS.**

The interest on that expenditure at five per cent would be \$1500 per year.

A wooden bridge with annual repairs would cost half that amount annually and **IN TEN YEARS WOULD HAVE TO BE REBUILT.**

The Capital City of a great state needs to get out of the backwoods idea of building pile and plank bridges on its main business streets.

Besides a wooden bridge would not be **IN KEEPING WITH A PERMANENT PAVEMENT** such as the people of South Commercial street are ready to put in.

MAKE THE CAPITAL CITY ATTRACTIVE.

The Salem Board of Trade is planning a thousand-dollar banquet for the members of the legislature and state officials.

This is on the right line of making our city an attractive place **TO THE BRAINY PUBLIC MEN OF OREGON.**

Why do so many take the first train out of the city when the legislature adjourns?

Because Portland is the most attractive place in the state **FOR ANY MAN OF ENERGY AND ENTHUSIASM.**

The hotels there are themselves a source of pleasure and enjoyment and comfort to human beings.

There are lights and music, lively companionship, gaiety and glamour **THAT APPEAL TO THE MASS OF HUMAN BEINGS.**

Even the ministers of that city seek to give the stranger cordial entertainment from their pulpits.

MAKE SALEM MORE ATTRACTIVE AND PEOPLE WILL STAY HERE.

We let our musicians starve and our singers languish. Let us get out of our old dinky ways and be a city.

THE NORMAL SCHOOL QUESTION.

Portland papers are systematically agitating for one large central Normal School.

The practicability of this proposition is combatted by the experience of states that have tried that **AND ARE ESTABLISHING SMALLER SCHOOLS**

According to the bulletin issued by Prof. Sheldon of the State University, normal schools with about 300 students and fully equipped training schools **DO THE BEST WORK IN PREPARING TEACHERS.**

The state board of regents of normal schools created by the last legislature recommends three schools, at Weston, Monmouth and Ashland.

The state has about \$250,000 invested in these institutions, and one school would **MEAN THE ABANDONMENT OF THESE PROPERTIES.**

One large central school could not be established and equipped for less than \$250,000, so the state would be out half a million by this change.

The three schools recommended by the regents and the governor are suitably located geographically to serve the state best and cost the smallest sum for support, **\$28,500 EACH PER YEAR FOR SUPPORT.**

No American citizen who pretends to favor public schools can take any position consistently but that of giving a reasonable support to properly conducted State Normal Schools to train teachers.

THE THREE EXISTING SCHOOLS SHOULD BE SUPPORTED PROPERLY.
