The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

# ON VERGE OF RACE RIOT IN PITTSBURG

Pittsburg, Pa., Feb. 4.—The authorities are today taking every precaution to prevent a race riot as the result of a number of attacks on white girls in the Herron Hill district recently. One hundred and twenty-six negroes have been arrested in the last two days. Forty-three have been discharged from custody; 42 were either given jail sentences or fined, and 41 more are to be given a hearing today.  
Every negro in Pittsburg who is a user of drugs, or who is without visible means of support, will be arrested before the crusade is ended. Over a dozen girls in Herron Hill district have been assaulted during the

last two months, and the attacks have become so frequent that the women of the district are afraid to venture out on the streets after nightfall. Some of the women are now carrying revolvers, and almost every man in the district is armed, and they say they will shoot the first negro who is caught molesting a white woman.  
The police believe the attacks are being made by cocaine fiends. The police patrol in the district has been doubled, as some of the negroes are predicting a race riot that will extend all over the city.  
The negroes are reported to be arming themselves.

## RACES MUST NOT INTER-MARRY

(United Press Leased Wire.)  
Helena, Mont., Feb. 4.—With a view to putting an end to inter-marriages of all races and nationalities, the Montana legislature has passed the Miscegenation bill. Unanimous action was taken on the measure late yesterday afternoon when news of the marriage of a Chinaman and an American girl was brought to the notice of the legislature. It was pointed out that of late many unhappy endings of similar alliances have been brought to the attention of the authorities. Anyone solemnizing such marriages will be severely dealt with, according to one provision of the bill.

(United Press Leased Wire.)  
Chicago, Feb. 4.—Charles E. Holmes, who has been on trial accused of murdering his wife, with his 12-year-old son as the principal witness against him, was today acquitted by the jury. The defense proved that the woman died from injuries sustained by a fall due to an attack of apoplexy.

Nashville, Tenn., Feb. 4.—Judge Hart, who is presiding at the trial of Colonel Duncan Cooper, his son, Robin, and John D. Sharp, accused of murdering former United States Senator E. W. Carmack, announced from the bench at the opening of court today that there had been intimations in the press that attempts had been made to camper with the jury list.  
"In justice to all concerned," he said, "I want to say that the box from which the names are drawn is in the custody of Circuit Court Clerk Lewis Hill. The names in it were placed there two years ago." The box has been sealed ever since.

## THE BUFFALO IS APPARENTLY LOST

(United Press Leased Wire.)  
San Francisco, Feb. 4.—After making repeated attempts, the government civil wireless stations reported today that they have been unable to communicate with the converted transport Buffalo, which is four days overdue.  
The boat was in wireless communication with the Hawaiian islands after it was two days out at sea, but since then some of the stations have heard from her, although several attempts were made to locate her. It was the understanding that the Buffalo was to remain within reach of wireless dispatches throughout the entire present voyage, except two days.  
The operators here are unable to understand why the Buffalo does not catch the wireless flashes.

# NO MEDICAL LEGISLATION THIS SESSION

## WANTS HOME FOR CONSUMPTIVES AND MEDICAL INSPECTION BEFORE ISSUING A MARRIAGE CERTIFICATE--THE NOTTING-HAM BILL

Chairman Belknap, of the committee on medicine and pharmacy says his committee has no bills before it to regulate the practice of medicine. There is one bill from the Senate for a home for consumptives and Senator Cole's bill to require medical inspection before issuing a marriage certificate. There seems to be no disposition at this session to at-

tack any class of persons who attempt to alleviate human suffering, a new and progressive attitude in state affairs.  
Both Senate bills will probably be favorably reported.  
Wednesday the general medical act which introduces no new features and attacks no religion or school of medical practice has been introduced.

## WORK TO BEGIN ON THE WELCH LINES

Surveyor Herrick has been busily employed for some time now setting grade stakes, and expects to bring this part of the preliminary work to a close about the 15th of this month, and at that time the construction department will take up the work and rush it to completion in the shortest time possible.
