ADMINISTRATION WORRIED OVER JAP SITUATION

BATTLE SHIP FLEET IS ORDERED PAINTED DRAB OR WAR COLOR, CAUSING MUCH COMMENT

(United Press Leased Wire.) Washington, Feb. 4.—The activity of California, the possibility of the Japanese representatives in America and the unusual quiet in Japan today are as indicative of more alarming conditions beneath the surface than the administration is willing to have appear.

Secretary of State Root and Ambassador Aoki. The problem is becoming more and more complex, and the activity of the various departments indicates the serious view taken by the administration. It is expected that the administration realizes that if it is not successful with California it will not be successful with Japan.

the transport Buffalo a state color caused considerable comment, but the navigation bureau points out that the visit of the Buffalo to Mare Island gives the first opportunity for the painting of the ship.

DYNAMITED STORE BUILDING

(United Press Leased Wire.) Mammoth, Utah, Feb. 4.—The police have so far failed to solve the mystery growing out of the attempt to wreck with dynamite the store of the Mammoth Supply Company, where two clerks were sleeping at the time.

The clerks were so badly stunned that they lost their voices and did not recover them for two hours. The charge of dynamite was exploded in the cellar of the store yesterday morning, partially wrecking the building so that \$1,000 must be expended in making repairs. It is thought that the crime was committed by some one who had been denied credit.

DELAYED TRAINS AGAIN MOVING

(United Press Leased Wire.) Portland, Or., Feb. 4.—Scores of persons bound for California, but held in Portland for three days, because trains could not pass through the flooded districts in that state, are today traveling in that direction with every prospect of reaching their destination.

Want Better Service

A communication has been received by the Railroad Commission from Stearns & Chenoweth, of Yoncalla, asking that the Southern Pacific Company be compelled to stop trains Nos. 12 and 14 at that place.

To Extend Telephone Lines

Some extensive telephone improvements will be made in the Mill City district by the People's Telephone Company. If the county commissioners see fit to grant a franchise permitting them to go ahead with the work, the Little North Fork branch of the company asks to build a line from Mehama to Mill City, from Joe Cox's place to E. E. Woodward's and from T. M. Taylor's to Elkhorn.

A Fire Alarm

A fire alarm was turned in at the fire department about 6 o'clock from the Cottage Hotel, and the department made a quick investigation without finding any thing in the way of a blaze around that establishment.

Chenawa a Winner

The Chenawa basketball aggregation again won victory last night by defeating a fast bunch of players from Independence. They played 18-minute halves, and the Chenawas five put it over the men from up the river by a score of 24 to 12. The Independence team consisted of the best in that city, and two old Chenawa University men included.

The Year Without a Summer.

The year 1816 has a remarkable cold weather record and is known as "the year without a summer." In that year there was a sharp frost in every month, and the people all over the world began to believe that some great and definite change in the earth was taking place. The farmers used to refer to it a "eighteen hundred and starve to death." Frost, ice and snow were common in June. Almost every green thing was killed, and the fruit was nearly all destroyed. During the month snow fell to the depth of three inches in New York and Massachusetts and ten inches in Maine. There were frost and ice in July in New York, New England and Pennsylvania, and corn was nearly all destroyed in certain sections. Ice half an inch thick formed in August. A cold north wind prevailed all summer.

Ancient Manufacturers of Copper.

The ancient Syrians and Phoenicians are well known to have been active traders in copper, and they manufactured this metal into bronze by melting it with tin. Learned antiquaries assure us that the Phoenicians actually came to England and to Ireland in search of tin for this purpose, and some years ago some curious bronze articles were found in several of the old mine workings in Cornwall, which are believed to have been left there by that ancient people at a time when no bronze was other made or used in England.—Chambers' Journal.

Night riders doubtless were surprised, not at the fact of being guilty, but the nerve of the jury in saying so.

Good Blood

Means good health, and Hood's Sarsaparilla has an unapproached record as a blood-purifier. It effects its wonderful cures, not simply because it contains sarsaparilla but because it combines the utmost remedial values of more than 20 different ingredients. There is no real substitute for it. If urged to buy any preparation said to be "just as good" you may be sure it is inferior, costs less to make, and yields the dealer a larger profit. Get Hood's Sarsaparilla today. In usual liquid form or in chocolate tablets known as Sarsaparilla.

Bailey takes the same position as Kay on one thing. He will vote to sustain the governor's vetoes on salary bills, if the governor is right and the salary is wrong. On all other matters he and Kay would differ more or less.

INSOMNIA

"I have been using Cascarets for Insomnia, with which I have been afflicted for over twenty years, and I can say that Cascarets have given me more relief than any other remedy I have ever tried. I shall certainly recommend them to my friends as being all they are represented to be."—Thos. Gillard, Elgin, Ill.

Money

Isn't everything, but the man who makes the saving of a little money out of small wages as much a bedrock matter as the buying of food and clothing—who maps out his expenditures and stays with his map to the finish, is a man to be reckoned with in every other way.

To save implies a degree of self-restraint,—of power to hold a determined line of conduct in spite of obstacles, which builds character as well as a bank account. We will help you save.
