

SPEND YOUR HOLIDAY VACATION AT PASO ROBLES

If complete rest and most perfect conditions imaginable for nature cure are what you need, spend your holidays at Paso Robles Hot Springs, California. A week or two, and even a few days there will accomplish more in the way of restored energy than a much longer period and more expensive treatment elsewhere, because good old Mother Nature is nurse and physician.

Paso Robles is taking the same rank in America and enjoying the same fame for wonderful cures that Carlsbad and Baden Baden do in Europe. The hotel is a marvel of comfort and luxury, and the bath house built by the city, free to all, is said to be one of the best in the world. It is a stubborn ailment and a hopeless condition of physical breakdown that the mineral waters and hot mud baths of Paso Robles will not heal in a short time.

Call on agent at Salem for descriptive booklets of Paso Robles, and he will also tell you all about rates.

One could hardly tell whether that youth who had to pay \$4.89 for kissing a girl got a bargain until one saw the girl.

Hoarse coughs and stuffy colds that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar, and it soothes inflamed membranes, heals the lungs and expels the cold from the system. J. C. Perry.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

STUDYING THE HEART.

Invention Which Enables Students to See Its Pulsations.

The human heart is fast losing its mystery. You can actually see it nowadays—or, rather, you can observe its movements in a shadow picture by means of the Roentgen rays. The fact is not new, but the facilities for applying the idea to medical science have developed wonderfully, and the authorities of one of the great English hospitals are proud of the latest addition to their electrical department, which will be opened probably in the near future. It is called an "orthodiagraph," because it gives a tracing of the object disclosed in exact relative dimensions.

The apparatus has four arms, one of which holds a small, circular, greenish yellow screen, one a wide, black ring; one a wooden case, and the other the little reservoir that acts as a pencil for the tracing. Against a tall canvas screen in the dark stands the person who wants his internal organs to be seen at work. The arms of the machine are lowered until the greenish yellow screen appears in front. There is heard the faint crackle of electricity, a circle of light appears, and the motions of the heart, reflected on the screen, may be followed. Attached to the front of the machine is a bulb. This is in association with the "pencil" behind, and as it is pressed a drawing of the heart is traced in little, blue dots upon another white screen at the back.

The novelty of this machine is the perfection to which it has been brought. It may be worked by a finger.

Great value is attached to the use of the orthodiagraph, which will enable accurate and reliable records of the state of patients' hearts to be ob-

tained. At present, however, only the outlines and the movements can be observed. It is not possible as yet to see the structure of the heart. The orthodiagraph was made at Nauenheim, Germany.

AN EGYPTIAN PRINCESS.

New Mummy Added to British Museum Collection.

There has just been placed on exhibition in the mummy room at the British museum the mummy of a lady, one of the priestesses of the famous priesthood of Amen Ra, at Karnak. The mummy, which, says the London Globe, is undoubtedly one of the finest in the collection, is covered with a cartonnage casing, modeled in the form of the body; the face being a portrait of the deceased, is thickly overlaid with gold, the eyes and eyebrows being inlaid with obsidian. The rest of the casing is occupied with representations of the deceased addressing prayers to Osiris Anubis and the geni of the dead, the whole being thickly coated with gold paint. The coffin is like most of its class, made in the shape of a mummified body, the sides being richly decorated with gilded representations of the gods. The face on the lid is, like that of the cartonnage, a portrait of the deceased. The date of this interesting addition to the museum is about B. C. 1000.

The Crime of Idleness.

Idleness means trouble for anyone. It is the same with a lazy liver. It causes constipation, headache, jaundice, sallow complexion, pimples and blotches, loss of appetite, nausea, but Dr. King's New Life Pills soon banish liver troubles and build up your health. 25c at J. C. Perry's.
