SENATOR ELKINS STANDS WITH SMOOT

[United Press Leased Wire.] Washington, March 29.—In the senate today, Senator Elkins, of West Virginia, made a speech in which he agreed with the Southern Democrats that the action of the Republican members of the finance committee, in considering the tariff bill without consulting them, was extraordinary. He attacked New England, accusing her of selfishness in opposing the industries of the South. The discussion resulted in the introduction by Hale at the open session of a resolution to the effect that no business, except the dealing with the census bill should be transacted unless otherwise ordered. Bacon introduced a resolution, providing that all hearings of the finance committee should be open to the minority, in order to give them an opportunity to cross-examine witnesses. The resolution went over until Thursday, when it will be debated, and, after a brief executive session, the senate adjourned until that date.

MOZEN'S MURDERER LEFT NO CLUE

[United Press Leased Wire.] Tacoma, Wash., March 29.—County Coroner G. D. Shaver and deputies from the sheriff's office are today making a strenuous effort to discover some clue to the identity of the murderer of Frank Mozen, a rancher whose body with four bullet holes in it, was found early yesterday morning in the brush within 300 feet of his cabin at Summit, a station of the old Puyallup line. From the appearance of the body when it was found by R. W. Oody, H. T. Denham and W. H. Eaton, who were hunting varmits with dogs, Mozen was murdered in cold blood. Robbery is believed to have been the motive for the crime as the dead man's pockets had been rifled and

the contents of his wallet secreted in the kitchen, had been taken.

Mozen was a Russian Pole, living in his hut all alone. He had not been seen for more than a week prior to the finding of the body yesterday.

U. G. Burke, a neighbor rancher, claims that he heard four shots fired in rapid succession not more than four days ago. The shots, he said, came from the direction of Mozen's cabin.

The body had been laying on the ground less than a week, judging from its appearance. Part of the head had been gnawed by some animal.

Two of the bullets lodged in the man's head, one in his chest and one in his left hand. The deputy sheriff's state that they have a good clue to work on, but are unwilling to give out information as to its nature. No arrests have yet been made. Coroner Shaver will probably hold an inquest the latter part of the week.

KING PETER WILL ABANDON SERVIA

London, March 29.—The Servian royal family is preparing to flee as the result of the outcome of affairs in the Balkans, according to the Rome correspondent of the London Globe. A dispatch to the Globe says that the king, and two sons, George and Alexander, are going to Switzerland and that the Princess Helena will go to Rome. King Peter will issue a manifesto advising that a council of the European powers be held to select his successor and urging that his son, Prince Nicholas of Montenegro and Bosnia succeed him.

GERMANY'S NAVY TO OUTCLASS ENGLAND'S

London, March 29.—Foreign Secretary told the House of Commons today that when Germany completes her present naval programme she will have 33 battleships of the Dreadnaught type, making her supreme in naval affairs among world powers. Grey urged a more liberal policy in connection with naval affairs with Great Britain.

The secretary then referred to anglo-German relations in general terms and grew amicable as though fearing that his speech would sound warlike.
The speaker said that only two things could disturb peaceful conditions of Europe. They would be an attempt by England to isolate Germany or an effort by any one continental power to dominate the policy of Europe.
