EVERYTHING GOES THAT HAS A GRAFT ATTACHED.

It is reported that the Attorney General's office has decided that the Dairy Inspector bill is a sound one and will stand.

That is the bill to give State Food and Dairy Commissioner Bailey \$9000 ADDITIONAL FOR DEPUTIES.

That office now collects fees and fines, the occupant gets a big salary and the legislature gave him \$9000 for extra deputies.

In the House the Grange members killed the bill, but before adjournment consented to amend it IF THE GOVERNOR MIGHT APPOINT THOSE DEPUTIES.

The amendment passed both houses, and was omitted conveniently by the committee on enrolled bills, and that is called a law.

THAT SUCH TAMPERED BILLS SHOULD BE SMUGGLED THROUGH, and should be signed up by the officers of both houses and the Governor is remarkable.

The bill should be taken into the courts and killed for having been defectively passed, and the \$9000 should never be given Mr. Bailey.

If a mere enrolling clerk can leave out important amendments, and that be called a law, WHAT PROTECTION HAVE THE PEOPLE AGAINST FRAUDS?

The people have enough to pay for legislative extravagance without foisting on them defective laws.

WHY PORTLAND CANDIDATES ARE SHY.

The Republicans find it hard to get first-class men to become candidates for any office in that city.

Well, why should first-class men want to JUMP INTO A DISCREDITED SITUATION?

The only law they can act under is the Direct Primary law and that is condemned and discredited.

The party organ and the party leaders in that city denounce and condemn THE LAW ENACTED BY THE PEOPLE.

Those same leaders have not the brains or the courage to get up an amendment, so they do nothing but howl.

With the law condemned and discredited Republican voters DO NOT KNOW WHAT TO THINK.

If the leaders are not loyal to the principle that the people shall nominate, what have the voters to expect but bossism and machine rule?

The truth is the whole movement to have a committee select a lot of delegates called a convention, IS A FRAUD AND A FARCE.

If it succeeds the same thing will be done at the next county convention and state convention.

ARE THE PEOPLE READY TO GIVE UP THE DIRECT PRIMARY LAW? Not yet. And they will sit and spit upon the "suggested convention."

Two additional planets have recently been added to our solar system. Mr Harriman's attention is called to this fact. He has this planet pretty well cornered.

Let American women marry Japs, Chinese or any other kind of color, on condition that they go and live with them in their own country.

The city of Portland seems inclined to try Dr. Weatherbee in place of Dr. Lane as mayor. While selecting a physician to administer on the political ailments, why not get a right snappy one—Andrew C. Smith?

Taft shows signs of being a President, who, while a perfect gentleman, is thoroughly onto his job.

The commission system of city government, which would put any city into the hands of a high class of business men, is naturally resisted by the two-bitners in any city like Portland.

OREGON BOOSTER CAMPAIGN

CITY AND STATE ARE GROWING

Twenty thousand copies of a supplement sheet of this paper are being prepared for circulation by the Salem Board of Trade.

Meetings under the auspices of the local organizations of the Development League are being held at Roseburg Monday, April 5, at Central Point Tuesday, Oakland Wednesday, Cottage Grove Thursday, Eugene Friday, and Oregon City Saturday. The Central Point gathering will have delegations present representing the entire Rogue River Valley.

As a direct result of the advertising campaign and the fact that the money is spent in telling of the resources of the state rather than the attractions of the city, over fifty per cent of all the specific inquiries are

about fruit lands. This is true because not only are agriculturists and horticulturists interested, but men in the professional walks of life who want to get out into the open air find fruit growing especially desirable. Many of this class have been among our most successful growers in various parts of Oregon.

The inquiries about dairying are not numerous, but they come from those actually engaged in the work in other states, and undoubtedly a larger percentage of the dairy letters mean settlers than those on other subjects.

The magnificent work of the citizenship of Oregon, the co-operation of the churches and the schools with the commercial bodies, has influenced nine-tenths of the people who are coming to this state on colonist rates so that they go direct to their place of final settlement, and the congestion felt so keenly at Portland during record-breaking 1907 is almost entirely done away with. As the crowning test of organization, Portland has had such loyal assistance from her business houses and citizens that 500,000 leaflets have gone out in their letters in a single month.

Oregon and other Pacific Coast states have an intense interest in the matter of tariff revision, just as do other sections of the country. Numerous resolutions have been adopted by commercial bodies approving a higher import duty on hops.

An enthusiastic Oregonian returning to the East for several months' visit, provided himself in advance with a generous sized note book, and kept a record of all his travelling acquaintances and all his old friends with whom he talked in different parts of the country. These people are now getting copies of this paper. Others can assist very materially in this way.

A new edition of one thousand facts of production is being prepared for publication.

ANOTHER PIONEER GONE.

James K. Tetherow, who died at his home near Luckiamute, Thursday afternoon, after a short illness of pneumonia, was a son of Mr. and Mrs. Solomon Tetherow, early pioneers of Oregon, and was born in what is North Dallas, April 21, 1845.

DEATH OF A PIONEER WOMAN.

Mrs. Charlotte Thomas, one of the oldest pioneers of Linn county, died Sunday morning at the home of her daughter, Mrs. Arilla Burkhardt, near Lebanon. Mrs. Thomas was born in Tennessee in 1825, and crossed the plains to Oregon in 1847, herself driving one of the oxteams of a long train nearly all the way. She was married in 1848 to John Thomas, and settled near here. Her husband died in 1904, since which time she had made her home with her daughter, Mrs. Burkhardt. Mrs. Thomas is survived by six sons and three daughters all of whom live in this state.

REV. ESSON RECEIVED.
Rev. Albyn Esson, the new pastor of the Christian church, arrived yesterday from Paris, Ill., and last night a reception was tendered him at the church, where a social session was held for two or three hours. Rev. Esson and others spoke, indicating a splendid good will, with prospects of a good campaign against sin in Albany, led by the pastors. Light refreshments were served.
Rev. Esson is a former college mate of Rev. Evans, and comes highly spoken of as a preacher and pastor.

BLOOMER'S ADDITION to the City of Newport, Oregon, is now on the market for the first time. The tract is located about half way between Nye Creek and Newport, and consists of some 30 lots, on the rising ground directly above the ocean. Each lot is but a few steps from the beach and a commands a view of the ocean or surf for miles north and south. To the north can be seen Jump Off Joe and the Yaquina Head Light. To the south the entrance to Yaquina Bay and the Lifesaving Station. The property is about a five-minute walk from the boat landing in Newport. It is reached by a new six-foot board walk, which runs in a straight line from the Ocean House Hotel in a northwest direction to the lots. This is now the most popular walk in Newport on account of its beautiful surroundings and magnificent view of the Pacific when the end is reached at BLOOMER'S ADDITION. Here before the observer the ocean and the beach stretch for miles and miles.

A WORD ABOUT YAQUINA BAY

You could not find a more interesting location to spend your summer than around this beautiful bay, which is conceded by those who know, to be the most beautiful summer resort, NATURALLY, of any on the Pacific coast, barring none. Hunting and fishing are unexcelled, and the many places of interest close to Newport, such as the Lighthouse, Otter Rock, Seal Rocks, etc., make it an ideal place to own a summer home.

NOW LOOK AT THE MAP

You will see that BLOOMER'S ADDITION is right on the ocean, and yet has the great advantage of being close to the bay and town, with no steep hills to climb to reach it. The beach in front of the property is good for bathing and the gathering of rock oysters. Mr. Bloomer has already built two beautiful cottages on these lots for his own personal use. Mr. Bloomer is a Seattle man, and intends to make this the most popular addition to Newport.

Happiness is a toss-up between a married man's caution and a bachelor's advice.

The wife of a henpecked husband is usually set in her ways.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion. For sale by J. C. Perry.
