his part toward a modern hotel,

### THE BATTLE FOR A NEW HOTEL

Salem needs worst of all a new hotel to entertain the people decently.

The interests of this city have been for years shamefully neglected in this respect

It has been remarkable that our city has been pushed as it has without one.

There is to be a meeting of business men Tuesday evening to say "HOTEL."

As Mr. Henry Meyers of the Board of Trade has well said,

the time to talk has past. "The time has come to go down in our pockets." Let every man who attends the meeting be prepared to do

## SALEM MAKING A FATAL MISTAKE.

At present there are but four blocks of hard surface pavement ordered laid in this city.

There is a hard fight to stop any paving east of Twelfth street on Court or State streets.

A bitter fight is to be waged to stop paving Court street east of Church street.

The excuse is that bitulithic pavement is too expensive. A hard fight will be put up against extending Commer-

call street north or south. Petitons are in for macadam street imporvements that are muddy and dirty all the year around.

Macadam pavements cost nearly as much as bitulithic. They do not advance property perceptibly in value. Calem is making a fatal mistake not to push hard surface

At Eugene, Roseburg, Medford and Ashland bitulithic paving is going down.

SAVINGS DEPARTMENT Capital National Bank

Eugene to Have a Development Meet. Two development conventions are slated for Eastern Oregon this month and one is arranged for Western Oregon next month

An advertising conference under the development league will be held at Eugene in May with the Eugene Commercial Club n charge

The secretary, manager and president of every commercial organization in the state are expected to be present on this occasion to partici-

pate in the discussion.

All the visitors will meet at the Eugene Commercial Club, when a local committee will take them for a ride over the city to show what has been accomplished in the way of paying streets, new parks and buildings.

A business conference will convene in the afternoon at the Commercial Club rooms, and the entire afternoon will be devoted to a discussion of work accomplished by the different

organizations. No state in the Union has carried forward an advertising campaign superior to that now being handled by the commercial bodies of Oregon.

Every organization and every officer has different ideas, and this conference is called in the hope that all may be benefited, and that each one present will be able not only to give but to receive information, advice and instrction which will be of service to the individual communities, and for that reason of great help to the state at large.

A theater has been engaged for the evening where Oregon views will be shown with a stereopticon.

## HERE IS A GOOD CHICKEN STORY

Here, from the Scranton (Pa.) correspondent of the Amalgamated Journal, is a chicken story handed in by friend for publication in this end

of the Vindicator: Scranton, Pa., March 1.Editors Amalgamated Journal: There is a good story going the rounds about one of the standing turn roughers on the 12-inch mill who has recently gone into the chicken business on small scale.

It appears that the brother in ques-tion, who resides near the mill, is not very well acquainted with the habits and nature of the chicken tribe, for when he was proudly exhibiting his flock to some of his friends, consisting of one pair of brown Leghorns, a pair of white Wyandottes and two Plymouth pullets, which he kept all together, one of his friends remarked that it was too bad that such nice stock was allowed to run all together for they would surely produce a lot of dunghills at only for the pot.

'Oh, no," said the brother who owns the flock; "while I allow them to mingle together during the day, I am wise enough to keep them apart at night."
