

COLLEGE CLOTHES

THAT ARE STRICTLY
UP TO THE MOMENT

The shading and tailoring of Men's Clothing this Spring is decidedly distinctive. The shadings are extremely pleasing, while there are so many little kinks in the make of the late suits that you cannot mistake them. Remember the clothing we will show you

Y. M. C. A. MINSTREL SHOW HIGH CLASS — SOME OF THE BEST TALENT OF THE CITY ON PROGRAM

Few people do not enjoy a good minstrel show, with its gags, specialties and music. Those who do will welcome the Y. M. C. A. minstrels on April 27th. They will welcome it because they know all the men who are taking part in it, because they will want to hear some up-to-date gags, so funny that they will be called the best ever. They will welcome it because they will want to see the specialties, which are the equal of any put on by professional artists. Chapler, an old Salem boy, will play and he can do it right, too. His three years' experience with the Stanford Glee Club, as soloist and stunner, puts him in a class by himself as an artist. Knowland, the other end, has a local reputation as a singer.

The musical feature of the show will make the greatest hit. The songs which have been provided are what may be called the "hit songs" of the season in minstrel work in the West. The soloists, Roth, Epley, Jones, Chapler, Knowland and Lloyd, each have songs that are sure to take "the house." The chorus work, with Theodore Roth, Chas. Roth, Roy Chapler, Virgil Lloyd, Mr. Metz, Earl Anderson, Mr. Ralph Jones, Mr. Wolf, Mr. Chas. Knowland, Bob Paulus, J. C. Price, Jake Wenger, Chester Cox and Dr. H. C. Epley, to make it go, will be well worth the price of admission.

The advance sale of tickets has already begun and it looks as though the Y. M. C. A. stood in a sure way of making some money.
What is it?
Y. M. C. A. Minstrels.
When is it?
April 27th.
Where?
Grand Opera House.

SANTIAM DISTRICT IS JUST BOOMING

The Santiam district is one of the liveliest in the Northwest just now. Otto Hansen is up on the road, or rather where the road will be when he gets through with it, and will rush it to completion. The Gold Creek, the Gold Creek, Freeland, Electric and other companies have joined

forces to complete this road, and it will soon be done. They bought the big logging engine of the Blackhawk Co., and used it in building four miles of road, and have put every available man to work.

The mines are all doing great development work—the Gold Creek run ning a 100-foot cross-cut that will open up five distinct ledges. The Electric is working day and night, and the great big Freeland has two

Common Sense in the Kitchen

THE HOOSIER KITCHEN CABINET

There isn't any let-up to kitchen work.
Three meals a day must be prepared every day in the year.
You cannot get out of that, but you can make it easier and do it in half the usual time.

Think how long it takes you to get ready to do your work the way you are doing it now—to collect all the utensils and materials, and put them away again—some in the pantry, some in the cupboard, and some in other places around the kitchen.

This is the Biggest Part of the Work

The most disagreeable part. It is the part of the work that a Hoosier Kitchen Cabinet does away with, by grouping materials and utensils in one complete combination pantry and kitchen table, so you can do your work all in one place.

It will give you half the time you now spend in the kitchen for other things.

It is not the actual work that takes the biggest part of the time—it is getting ready for it and putting things away.

Come into our store. Let us show you a short cut in kitchen work—show you how you can have a neat, orderly kitchen with half the work—and at a very small expense.

HUCKLEBERRY FINN HAS COME TO TOWN

BROUGHT IN A TON OF ROSIN MADE BY A NEW AND SCIENTIFIC PROCESS FOR THE SALEM SOAP WORKS

Huckleberry Finn is in town. He is hotel keeper and has a ranch and sawmill at Leaburg, 28 miles east of Eugene on the McKenzie river. Mr. Finn, that is B. F. Finn, his proper name, has been a citizen of Oregon since 40 years, and a few years ago conceived the idea of going to Florida and learning all about the rosin and turpentine business, and today brought to Salem the first shipment of about a ton of white rosin and turpentine for the Salem soap works, made by a new process that takes the red color out of it, and renders it fit to make the finest soap. Mr. Finn brought his grand daughter along to

have her treated for deafness in one ear, with which she has been afflicted for some time, and the medical men at Eugene were unable to do anything for her, and recommended Dr. Gillis, of this city, as an expert on the subject of hearing. Mr. Finn is a man in the seventies, but is as full of enterprise as a young fir tree is full of pitch, and he is letting out his spare enthusiasm in founding a new industry that will bring enormous sums of wealth to this state. Oregon needs more such men as Mr. Finn, and The Capital Journal is glad to enroll his name in the Captains of Industry for a Greater Oregon.

vestment Co., respondent; appeal from Clatsop county; McBride, judge; motion for rehearing denied.

A. A. Cunningham, respondent, vs. Klamath Lake Railroad Company, appellant; appeal from Multnomah county. Bronaugh, judge; affirmed. This case is rather peculiar. The defendant company is a foreign corporation, but had appointed John W. Alexander of Portland as its attorney in fact and general resident agent under the Oregon law.

The plaintiff claimed to have been injured on defendant's railroad while a passenger from Pokegama, Klamath county, Oregon, the injury occurring at Thrall, Cal. The only question was, did the enactment of February 15, 1903, Laws of Oregon, amend by implication the statutes of this state so as to obtain jurisdiction of the person of the defendant by a service of the summons on its attorney in fact and resident agent in Multnomah county. The supreme court holds with the circuit court that the case is properly brought in Oregon.

SALEM PEOPLE GET INTEREST IN MINES

A number of Salem capitalists have an option on a mine down in Josephine county, near the old Galice Consolidated, and will send a committee down to examine it tonight. Galice creek produced over \$2,000,000 in placer gold and the hills are ribboned with quartz veins. Several years ago the writer mined on Galice creek and at that time called attention to the fact that nearly all the quartz in that section carried or showed traces of tellurium principally "Calaverite." The property now to be exploited shows that that opinion was correct, for the ores properly roasted show globules of gold all over them, running up into the thousands per ton. This bears out the statement of Col. Muncy, member of the legislature from Coos and Curry counties, who insists that the southwest corner of Oregon is the greatest mining region on earth. The ores taken from the mine to be exploited are a fine character of calaverite, very similar to one at Goldfield, on the famous Hayes-Monette lease, where twelve million dollars were taken out in five months, and this not counting the stuff the miners "high graded," or, in other words, "swiped."

If the mine shows up ten per cent of what the samples show, it is one of the biggest propositions on earth. Until the return of the committee there is going to be lots of dreams, by the backers, and the beauty of it is, they may come true.

ECZEMA A GERM DISEASE.

Myriads of Microscopic Animals Infest the Skin of the Sufferer.

When the skin of an eczema sufferer itches and burns in untold agony, do you know what is going on within the pores of that skin?

Myriads of microscopic animals are gnawing at the flesh, breaking down the fine cells and causing festers, thick scales and that terrible itch. The germs multiply faster than nature can throw them off.

Now, there is only one way to get rid of these germs—they must be killed in their lodging places. Dosing the stomach or trying to cure the blood will not, of course, kill the germs, and that is why all the blood remedies fail in eczema; that is also why salves which do not penetrate can do no permanent good.

Ordinarily oil of wintergreen properly compounded in liquid form will penetrate the pores of the skin and kill the eczema germs. If properly mixed with thymol, glycerine and other ingredients (as in D. D. D. Prescription) this wash will build up the tissue of the skin and promote its healthy growth, giving nature a chance, while killing the germs faster than they can multiply.

The Capital Drug Co. of this city carries D. D. D. Prescription, also D. D. D. Soap in stock.

CHILD DISCOVERED BOX OF STRYCHNINE

Everett, Wash., April 20.—A box of strychnine and belladonna pills, carelessly left where an inquisitive child could reach them, caused the death of Morris Love, the 3-year-old son of B. G. Love, an employe of the Everett Light Company.

The child awoke before his parents arose, and during his explorations of the house, found a box which contained what he thought was a species of candy, as they were coated with sugar.

Physicians arrived too late to save the child's life.

Its a Top Notch Doer.

Great deeds compel regard. The world crowns its doers. That's why the American people have crowned Dr. King's New Discovery the King of Throat and Lung remedies. Every atom is a health force. It kills germs, and colds and la grippe vanish. It heals cough-racked membranes and coughing stops. Sore, inflamed bronchial tubes and lungs are cured and hemorrhages cease. Dr. Geo. More, Black Jack, N. C., writes "it cured me of lung trouble, pronounced hopeless by all doctors." 50c, \$1.00. Trial bottle free. Guaranteed by J. C. Perry.

CONTRACTORS.

Sealed bids will be received by the Board of Directors of School District No. 24, in Marion county, Oregon, at the office of the school clerk, in the Murphy block, for the erection of a new school building on lots 6, 7 and 8, in block No. 77, in Salem, Oregon. Bids to be opened at the regular meeting of the board, to be held at the high school building Saturday, April 17, 1906, at 7:30 o'clock p. m.

Certified check for 5 per cent of the amount of bid to accompany each bid. Said check of successful bidder to be forfeited to the board unless he qualify within five days from date of award. Plans and specifications can be seen at the office of architect and superintendent of construction, F. A. Legg, in the Murphy block, Salem, Oregon.

Board reserves the right to reject any or all bids.

By order of the board.
H. A. JOHNSON, Jr., Clerk.
