JUST A LITTLE VISIT WITH OUR EXCHANGES

The Klamath Mornig Express chronicles the capture of "an irridescent fish, 9 inches long, with a beard underit s moutr not unlike a goat, blue eyes and a face like a sheep, which local experts in fish lore cannot classify." What that Klamath bunch needs is a physician with a quieting potion—not fish experts.

In La Grande, Or., they are filling the local prits with that ecstatic little lyric: "Are you going to irrigate? Well, I guess. With water from Meadowbrook? Yes, yes, yes." As a chaser, we presume.

The Roseburg Review editorially writes: "New telephone office not located as yet." Oh, pickles. That's nothing; the old one here is lost a dozen times a day, and the fellow losing it doesn't compial—he swears

Mrs. Roy Kirkley will leave today to spend some time in Baker City. Mr. Kirkley is temporarily there."—Pendleton Tribune. Roy's favorite ode is: "I Used to Be Afraid to Go Home in the Dark, But Now I'm Afraid to Go Home at All."

An inspection of the Eugene papers would almost lead to the belief that it is a city for sale. However, it is a good "buy," if it is.

"Roseburg's srawberry fair will be held may 14 and 15."—Umpqua Valley News. Huh! They are all held here, strawberry, blonde, albino and brunettes every blamed evening.

A floating piano salesroom is churning up and down the Coquille river peddling pianos. But what are they going to do for music teachers aft - the recovery from the salesman-induced hypnosis?

The Coos Bay Harbor, of South Bend says a local dealer has raised the price of goods, "because another mouth has arrived at his house." If this gets fashionable there is no hope for South Bend, except in death or the divorce court.

Tillamook is joyous at the completion of its railroad communication to Portland, and its papers even concede E. H Harriman a right to live—temporarily at least. This is as it should be, the rich Tillamook country is but illy served by irregular steamers which are one degree more rapacious than railroads, unless curbed by opposition.

A water meter in a Baker City residence showed 127,500 gallons of water used since December. If cleanliness is next to Godliness in that house, they are entitled to a rebate on church attendance for a year.

The Oregon Oriano, of Vale,, says: "Mr. Wilbur has a large electric piano that adds to the entertainmet." What kid of an orgie does Mr. Wilbur maintain over there—a dog fight?

"Albany will probably be in the path of the auto racers."—Albany Herald. Albany was always rash, but it never exhibted suicidal tendencies before.

An Heir to the Throne.

[United Press Leased Wire.]

The Hague, April 28.—Doctors were summoned today and it is expected that the queen's accouchment will be announced shortly.

There is little expectation that the July and August sun will melt the ice trust.

The Mission

Of those corpuscles in your blood that have been called "Little Soldiers," is to fight for you against the disease germs that constantly endanger your health. These corpuscles are made healthy and strong by the use of Hood's Sarsaparilla.

This medicine is a combination of more than 20 different remedial agents in proportions and by a process known only to ourselves and it has for thirty years been constantly proving its worth.

No substitute, none "just-as-good."

HER OWN NECK BROKEN SHE BURIES HUSBAND

San Francisco, April 28.—After taking her life in her hands so that she might attend the funeral of her husband, the widow of Brigadier-General Harry L. Haskell, was learned today to be the mysterious patient who has been at the Thomas Hospital receiving treatment for a broken neck.

Mrs. Haskell's neck was broken some time ago when she fell down stairs while attending her sick husband. She was given skilled medical attention, and it was announced today that she would ultimately recover.

When the funeral of General Haskell was held at the Presidio yesterday, the widow braved the danger of leaving the hospital, and, with her head tightly clasped in an improvised harness, she rode to the grave.

Her improvement has been so great recently that preparations are being made to remove her to a Berkeley hospital, where she will be given special treatment for six months, at the end of which time it is believed the broken bones will have knit.

PEARSON PROBABLY STRAIGHT AS STRING

San Francisco, April 28.—Warrant for the arrest of Eugene Pearson, chief clerk of the finance branch of the United States army transport department is in the hands of the officers today, and it is expected that he will be taken into custody before night. Pearson is accused of embezzlement of $313.22 of the government funds.

An alleged shortage was discovered in Pearson's accounts while he was ill recently. Affairs in his office were in a bad muddle, and Pearson declares that his trouble is due to the fact that he did not have sufficient assistance in his work.

It is reported that Pearson was given a chance to make up the supposed shortage, and the warrant was not issued until after he had failed to raise the required amount.

STRIKES IMMENSE ARTESIAN FLOW

[United Press Leased Wire.]

Los Angeles, April 28.—The discovery of an immense artesian flow near Black dock springs may alter considerably the plans of the engineers in charge of the work on the Owens river water project.

The aequeduct planned to carry the water to this city will carry 20,000 inches. The new wells, which were tapped at a depth of 200 feet, yield about 10,000 inches, and according to A. A. Hubbard of the board of public works, it is probable that by sinking other wells, the necessary flow will be forthcoming.

The wells which may cause a revision of the whole scheme were sunk to get water for the dredge at work on the open channel to carry water from the intake to Owens lake. The flow is constant.

SAN FRNACISCO HAS LIVELY WIND STORM

San Francisco, April 28.—One man is dead and another is suffering painful injuries today following a terrific wind storm which struck San Francisco late yesterday.

Edward Kennealy, a recent arrival from Ireland, was killed by falling from a Mission street car while trying to recover his hat, waich was blown off by the gale. He suffered a bad fracture of the skull, and died a short time after being taken to the Emergency Hospital.

Louis Kanube, a glazier, had his face badly cut when he was struck by a falling pane of glass, which was blown from his hands while he was repairing a window.

GOOD NATURED DOGS MIX WITH TACOMA FOLKS

Tacoma, April 28.—Three hundred high-class dogs wagged a welcome to the guests who attended Tacoma's dog show, which opened in the state armory building today. Aristocratic canines from Seattle, Portland and various other coast cities are entered. Judge John M. Bradshaw of San Francisco is here to award the cups. Dog Connoisseurs say the exhibit is a record breaker and even the prosaic individual who is not up in dogology is compelled to admit it is a likely looking bunch of pups. The show will last all this week.

¼ of Pound a Week.

at least, is what a young baby ought to gain in weight. Does yours? If not there's something wrong with its digestion. Give it McGee's Baby Elixir and it will begin gaining at once. Cures stomach and bowel troubles, aids digestion, stops fretfulness, good for teething babies. Price 25c and 50c. Sold by all dealers.

SALEM PEOPLE'S AUTOS

With the coming of summer and the improvement of the surrounding roads the local automobile dealers are finding difficulty in providing cars to supply the sudden demand that is being made. Would-be purchasers have failed to take into account the crowded condition of the factories, and there is disappointment in some quarters over inability to supply certain makes, horsepower and sizes until the middle of July.

The coast agent for the Stoddard-Dayton cars was only able to secure from his factory a promise of ten cars for July 15th, and of these the Salem agents were able to secure two.

Russell Catlin's new 4-cylinder Maxwell has been placed in the best possible condition by Manager Priehs of the Salem garage, and tomorrow the owner will leave with the car for an extended tour of Eastern Oregon.

This trip will be a hard tryout for the Maxwell, although both the agents and the owner are enthusiastic in their belief that it will acquit itself with credit.

Other Maxwells that will be seen about the city are two-cylinder machines belonging to Dr. H. G. Kimball and Mr. Riggs. Dr. Kimball's car is a green-finished touring car, while the other is a red runabout.

Walter D. Pugh has a heavy 22-horsepower Reo for pleasure and private use, while Mr Scott of the Oregon Land Co. has a similar 5-passenger car for business use. The latter machine will see much heavy work on the county roads. J. W. Ingle of Corvallis also bought a 20-horsepower Reo.

An innovation in the local trade will be a 14-horsepower demonstrating car that is on its way here for the Salem Auto garage. It will be used by Manager Priehs for demonstrating the Maxwell.

As compared with some cities Salem has been somewhat deficient in machines, but as its wealthy citizens have caught the craze for motoring, and it is spreading fast, many more of them will be seen on the local thoroughfares each month.

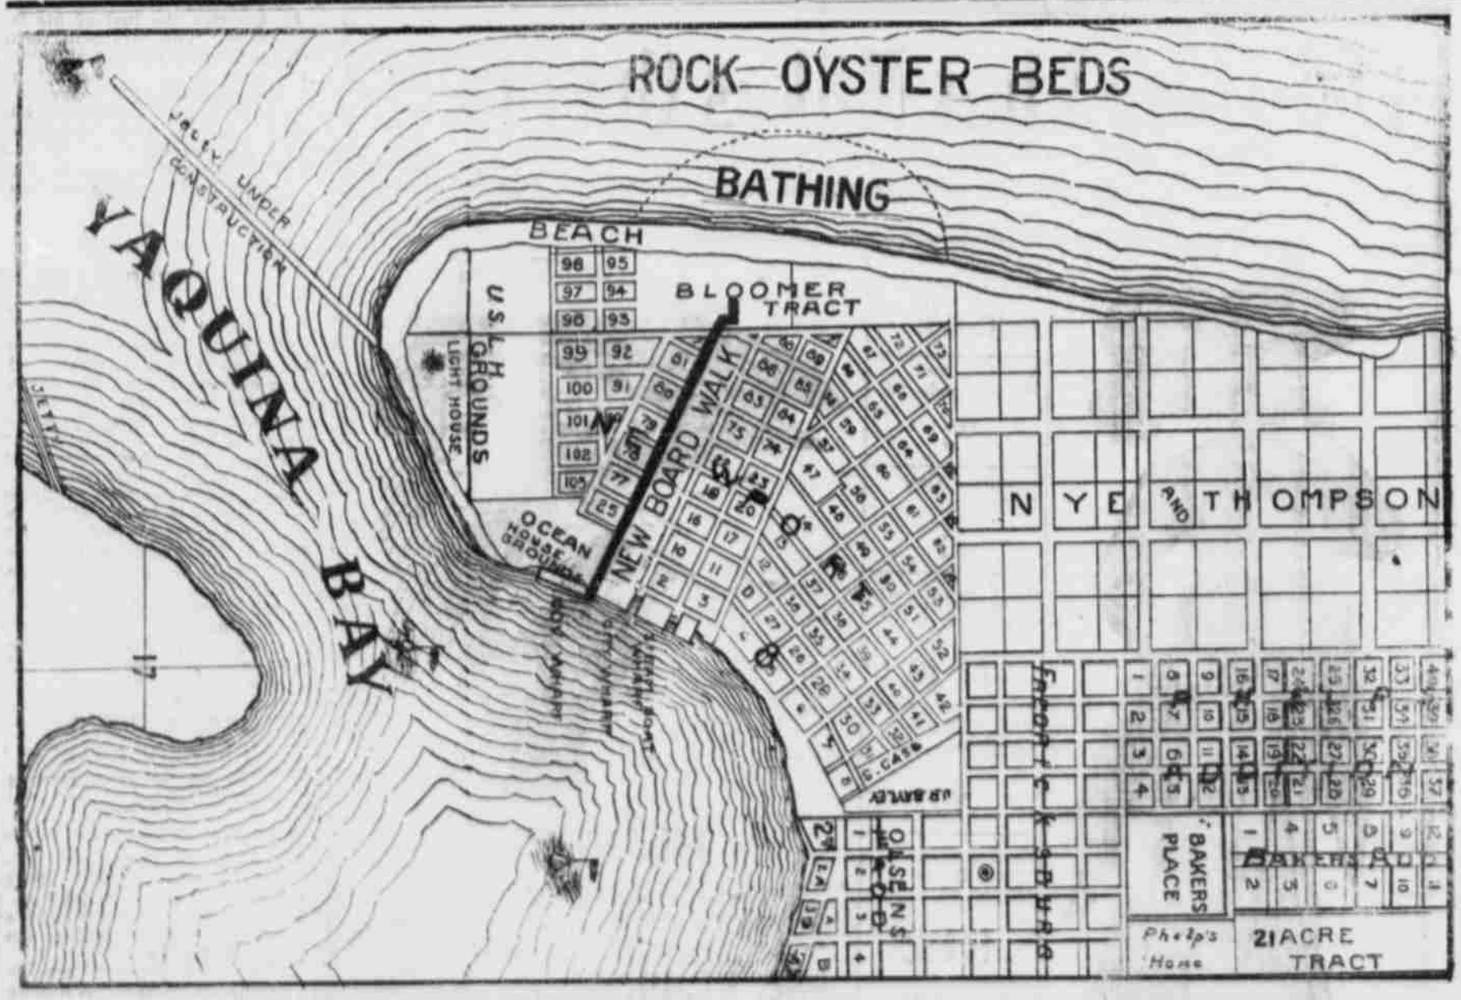
Best Treatment for Colds.

"Most ordinary colds will yield to the simplest treatment," says the Chicago Tribune, "moderative laxatives, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet after treatment." While this treatment is simple, it requires considerable trouble, and the one adopting it must remain in doors for a day or two, or a fresh cold is almost sure to be contracted, and in many instances pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon? For sale by all good druggists.

Malheur county wool pool sold at 20 cents.

There are lots of people in the world who appear to have the brains of a mule. All they seem to be able to do is to eat, sleep and kick.

For Kidney trouble, inflammation of of the bladder, rheumatism, and rheumatic pains, get DeWitt's Kidney and Bladder Pills. They act promptly and are sure. Sold by all druggists.



STUDY THE ABOVE MAP

BLOOMER'S ADDITION to the City of Newport, Oregon, is now on the market for the first time. The tract is located about half way between Nye Creek and Newport, and consists of some 30 lots, on the rising ground directly above the ocean. Each lot is but a few steps from the beach and a commands a view of the ocean or surf for miles north and south. To the north can be seen Jump Off Joe and the Yaquina Head Light. To the south the entrance to Yaquina Bay and the Lifesaving Station. The property is about a five-minute walk from the boat landing in Newport. It is reached by a new six-foot board walk, which runs in a straight line from the Ocean House Hotel in a northwest direction to the lots. This is now the most popular walk in Newport on account of its beautiful surroundings and magnificent view of the Pacific when the end is reached at **BLOOMER'S ADDITION**. Here before the observer the ocean and the beach stretch for miles and miles.

A WORD ABOUT YAQUINA BAY

You could not find a more interesting location to spend your summer than around this beautiful bay, which is conceded by those who know, to be the most beautiful summer resort, **NATURALLY**, of any on the Pacific coast, barring none. Hunting and fishing are unexcelled, and the many places of interest close to Newport, such as the Lighthouse, Otter Rock, Seal Rocks, etc., make it an ideal place to own a summer home.

NOW LOOK AT THE MAP

You will see that **BLOOMER'S ADDITION** is right on the ocean, and yet has the great advantage of being close to the bay and town, with no steep hills to climb to reach it. The beach in front of the property is good for bathing and the gathering of rock oysters. Mr. Bloomer has already built two beautiful cottages on these lots for his own personal use. Mr. Bloome is a Seattle man, and intends to make this the most popular addition to Newport.
