### Service and Safety

Two elements of bank work stand out above all others service and safety. When we come to consider corporations and the oppression they are said to work on the individual, we discover that the bank is distinctive—a thing spart. In no possible way can it corner the market. For even the money it holds and loans out belongs to the people and must be produced on demand. It may influence supply and demand through the granting of credit, but is itself influenced by supply and demand, and moreover by its own credit issues. It is peculiarly a servant. Not only is it the servant of all the people, but of the individual—your servant. Not only is it a peculiar corporation, but it serves all other corporations. In serving the individual, the ways are so numerous that we can briefly characterize them as e needs and wants of men who trade. Safety applies to everything connected with this bank. It has physical equipment which is safe. Its dealings with depositors demand safe methods. It makes safe loans. Its whole make-up as an organism, with well proportioned parts, is safe. And it not only strives to serve but strives to be safe.

These two elements are what have attracted our splendid list of customers. This bank has succeeded on its merits. It has succeeded through helpfulness alone. It offers to you the same service and safety it is giving to others. Will you give us the opportunity

At the first meeting when the report of the committee was made over 200 shares of stock were taken at \$10 each, and the society voted unanimously to buy the property.

At the second meeting of the German society there was enough more subscribed to make up \$4,500. It is tlaimed that the property is worth

It is understood that the German society could already sell the property to the Masons at quite an advance over what they paid for it. The Elks paid \$15,000 for a site that is not considered any better.

### GENERAL MERCHANDISERS

We would like to say to the people in East Salem that we can sell groceries , hardware and drugs just a little cheaper than the down town stores. We have a complete line of fresh, up-to-date goods, carefully selected. Also a feed store at No. 1160, and we defy any merchant to give you better delivery service.

We own 133 feet of property covered by buildings, including our stores, from which we are receiving an income, and while we are in a position to buy as cheap as other merchants our expenses are considerably lower.

So a trial order will convince you of what we say relative to prices, quality of goods and delivery.
