

Why Overheat Yourself?

Much of your summer pleasure depends upon having a cool and comfortable kitchen. Why not be prepared for hot days before they come.

Ask your dealer to show the New Perfection Wick Blue Flame Oil Cook-Stove. It's a wonder.

Does the work of your big range in every particular; but has this great advantage over it, that it never heats the kitchen.

The CABINET TOP is another feature of the

New Perfection Wick Blue Flame Oil Cook-Stove

Has a spacious top shelf for holding dishes and for keeping food warm after it is cooked. Also has drop shelves for holding small utensils, and is fitted with racks for towels. No other stove approaches the "New Perfection" in convenience, comfort and simplicity.

Made in three sizes. Can be had with or without Cabinet Top. At your dealer's, or write our nearest agency.

The **Rayo Lamp** is a center draft lamp of great illuminating power. Suitable for living room, dining room or parlor. Free from all objectionable features—a splendid family lamp. If not with your dealer, write our nearest agency.

Twice Makes a Habit

Some one has said when we do the same thing twice in the same way it has become a habit. If you make a first deposit with us and then make a second, saving has become a habit and will be just as easy as spending and wastefulness have been heretofore.

Can't save? You can if you will and unless you will you can't do anything. Are you working simply to make a living, or do you desire to get somewhere some day? We want to help you if you will let us, and we offer you every encouragement to do better by yourself than you have been doing. If it was not contrary to a bank's policy of absolute secrecy in regard to the affairs of its customers, we could name a lot of your friends, many of them less able than you, who have accumulated nice comfortable accounts with us.

WHY DON'T YOU START TODAY?

HELPLESS HUSBAND SAW WIFE BURN TO DEATH

Spokane, Wash., May 25.—In the presence of her bed-ridden husband, who made a futile attempt to hobble to her assistance, Mrs. I. N. Hodge met a terrible fate late yesterday, when she was burned to death while making a fire in the kitchen stove. Immediately after pouring kerosene on sparks that were hidden under kindling wood, flames puffed out from the opening in the stove, and completely enveloped her. From his helpless position in bed, Hodge saw

his wife, and realized that she would burn to death, but could do nothing. Reaching the fresh air Mrs. Hodge fell to the walk, where her clothing almost entirely burned from her body. She died a few minutes later. It is supposed that when the flames flashed she suddenly stepped to one side, spilling on her dress the rest of the kerosene remaining in the glass jar out of which she was pouring the kerosene, and the fire ignited it.

HAVE A NEW THEORY OF PALTERA MURDER

Los Angeles, Cal., May 25.—Believing that the assailant and murderer of little Anna Poltera is still within two miles of the spot where the child's body was found last Thursday morning, Sheriff Hammel today resumed the man hunt that has carried him all over this county. "I have now practically abandoned my first theory that the child was the victim of a Mexican," said the sheriff. "I am confident the brute is a white man, that he was acquainted with the little girl and her habits, and that he is still in the locality—perhaps has even given aid in the search we have been conducting. "If he has not been among the

searchers, he, at least, has watched them closely, though this may have been done from his hiding places. "The missing lunch box and trinkets of the dead girl found yesterday a few yards from where the body was discovered, were, in my opinion, placed there yesterday." The new condition of affairs practically eliminates the theory that a Mexican committed the child murder. It appears to simplify the search, particularly as it indicates that the murderer is still in the vicinity. On the other hand, it is the breath of a hundred new theories that place under suspicion every man and boy who was in the locality the Monday that the Poltera girl disappeared.

SOME ONE SWIPED THE BAIL BONDS

Butte, Mont., May 25.—Anybody with information that will cast the slightest light on the disappearance of \$16,000 in bail security from the vault in the office of the sheriff will be welcomed with open arms by that official.

The bonds were not missed until yesterday when the cases against 19 gamblers were called. Only three of that number appeared. When the sheriff's vault was searched no trace of the cash bonds could be found. The cases against the defendants have been dropped, and a search for the money is now being made.

SAME OLD STORY ABOUT FISH MURDER

The Medford Tribune of the 24th says: It is reported by reliable persons who have been fishing in the vicinity of Fish Lake recently that the fish which went out of the lake early in the season down one of the forks of Butte creek, to spawn, are now congregated at the dam by the thousand trying to make their way back, but are unable to accomplish this purpose on account of the dam owned by the Fish Lake company. It is reported that unless some way is soon provided for these fish to get back into the lake that all of the fish now at the dam will soon die. In such a case, the beautiful lake, known to the fly casters as one of the best fishing places in this end of the state, will be known as such no more.

An appeal has been made to the state fish warden to have someone sent to investigate and provide a runway for the beautiful trout to return to the place from which they started.

Matthews for a few days. R. O. Stevenson, of Forest Grove, is transacting business in the city today. Mr. Stevenson is state game warden. The Prineville Review says that since Crook county has gone dry, the largest term of circuit court ever held in the county has just ended. The principal business was trying and acquitting "boot-leggers."

SCRAP IRON TO MAKE ITALIAN BATTLESHIPS

[United Press Lensed Wire.] Oakland, May 25.—Forty carloads of scrap iron, picked from the debris of the San Francisco fire of April 18, 1906, is being loaded on the French bark Breange for shipment to Genoa, where it will be built into the sides and armor of a new Italian battleship.

Two years ago the Italian government secured a modern consignment of this discarded metal for experimental purposes, and as a result of these trials government experts have given the opinion that the scrap iron having passed through the intense heat of the conflagration makes a better resistant when mixed with steel than does the ordinary product. Italian naval engineers have urged their government to secure as much of the scrap iron as possible.

Notice in Relation to the Widening of Chemeketa Street.

Notice is hereby given that the report of the viewers appointed by the common council of the city of Salem, Oregon, for the purpose of making an assessment of damages and benefits for the opening and widening of Chemeketa street on account of condemning the land of Mrs. N. Clark as set forth in ordinance No. 622, has been filed in the office of the city recorder and is now open to public inspection in said office. The district assessed by the viewers as being the district benefited and to pay for the damages sustained to Mrs. N. Clark on account of the widening of said street is included between the east line of Thirteenth street and the west line of Twenty-first street and extending east and west not to exceed a distance of 235 feet on either side of said Chemeketa street. For exactness, however, reference may be had to the report of the viewers on file in the office of the city recorder which shows the damages and expenses as a result of the widening of said Chemeketa street and the property liable to be assessed for the payment of said damages and expenses.

All persons interested in said report are hereby notified to present in writing their objections to said report, if any they have, to the common council and said objections together with said report shall be heard and determined by the council at or about 8 o'clock p. m. on the 24th day of May, 1909.
