The Farmer's Wife
 Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?
 The evil of a foul stomach is not along the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.
 If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.
 The best agents known to medical science for the cure of the above symptoms are Dr. Pierce's Golden Medical Discovery, Dr. Pierce's Kidney and Bladder Cure, and Dr. Pierce's Great Peppermint Cure. All the severe symptoms of medical practice have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

GERMANS DISCOVER AMERICANS ARE BUSY
 [United Press Special Wire.]
 Pittsburgh, Pa., May 28.—That three American steel companies have evolved methods of hardening armor plate superior to the famous Krupp process, was made known today when the mystery attached to the visit to this city of Baron Von Bodenhausen, of the Krupp interests, was cleared.
 For many years American manufacturers have paid the Krupp company for the privilege of using its processes, an annual royalty of more than a million dollars. For some time the Carnegie, Midvale and Bethlehem interests have not paid this royalty, and the baron's visit was made with the object of learning the reason. The result of his conference with the officials of the three companies was startling. He learned that each company, within the last year, has perfected a process that enables it not only to equal the excellent quality of the Krupp armor plate, but to manufacture it at a cost of \$13 a ton less. The Americans announced their willingness to demonstrate to the baron that the patents of the Krupp company had not been infringed on.

NAMING THE NEW STEAMERS

The Capital Journal is requested by J. W. Ransom, dock agent of the San Francisco and Portland Steamship Co., Portland, to assist in naming the new vessels of the Harriman system that have been ordered built.
 Contracts for these steamers have been let for competition within one year at Newport News, Va. Portland papers on their marine pages have contained something about these ships and announce the prize which has been offered for the best names for same. It is the desire of the management to give the people of this state the widest opportunity to participate in christening the steamers.
 The San Francisco and Portland Steamship Company of Portland will give a prize of \$50 for the most appropriate names for the two new 5000-ton steamers now building for the San Francisco and Portland line. Each person suggesting names will give their full name and address and reason why name should be appropriate to or characteristic of the state of Oregon. In case a single name is selected from two different competitors, \$50 will be divided between them. This competition is inaugurated solely with a view to allow the people of Oregon to name these ships suggestive to the interests of this state. The lists close June 15.
 This paper will receive answers, open same up, publish names offered with reasons given and forward in batches to Portland not later than June 16. It will be well to save post-marked envelopes, as priority of date may count.

PORTLAND MAN TOOK CARBOLIC ACID ROUTE
 Seattle, Wash., May 28.—Rheinhold Hagenlocker, a sausage maker, of Portland, Or., is dead at the morgue today, despite the frantic efforts of 13-year-old James Bergstedt, a newsboy, to prevent the man from drinking poison last night. The lad observed Hagenlocker step into an alley and pour a quantity of liquid from a bottle into a glass, and, detecting the odor of carbolic acid, he ran up to the man and knocked the glass from his hand. Hagenlocker kicked the boy and thrust him from the alley, and then drank the poison remaining in the bottle. He died in a few minutes.
 The suicide left a letter, which was found in his pocket, stating that his wife, Mrs. Bertha Hagenlocker, of 331 Fourteenth street, Portland, had applied for a divorce from him, and adding that "there is no use for me to live in this world."

COLLEGE GRADUATES FILL PENITENTIARIES
 Oakland, Cal., May 28.—That the average college graduate will find the farm better suited to his capabilities than the city, was the opinion expressed by Joaquin Miller in an address before the graduating class of California College, in this city, yesterday.
 "Make the college graduate work with his hands as well as his brain," the poet of the Sierras said. "I've seen so many worthless college men that I'm not greatly disposed to congratulate one who has done nothing but graduate."
 "The prisons are filled with idlers," he continued. "The last time I visited the Pennsylvania penitentiary I found 38 lawyers, 45 doctors and many bankers and merchants. These men were college graduates. It is noticeable that I saw no farmers."
 In closing, Miller scathingly attacked college football, characterizing it as a waste of time and strength and a vain, senseless vogue.

Chamberlain's Liniment
 This is a new preparation and a good one. It is especially valuable as a cure for chronic and muscular rheumatism, and for the relief from pain which it affords in acute inflammatory rheumatism. Those who have used it have invariably spoken of it in the highest terms of praise. Lame back, lame shoulder and stiff neck are due to rheumatism of the muscles, usually brought on by exposure to cold or damp, and are quickly cured by applying this liniment freely and massaging the affected parts. Soreness of the muscles, whether induced by violent exercise or injury, is allayed by this liniment. For sale by all good druggists.
